To Her Excellency

The Right Honourable Jeanne Sauvé,
P.C., C.C., C.M.M., C.D.,
*Governor General and
Commander-in-Chief of Canada.*

MAY IT PLEASE YOUR EXCELLENCY:

The undersigned has the honour to present to Your Excellency the Public Accounts of Canada for the year ended March 31, 1989.

All of which is respectfully submitted.

Robert De Cotret,
President of the Treasury Board.

OTTAWA, SEPTEMBER 29, 1989

*To The Honourable Robert De Cotret,
President of the Treasury Board.*

In accordance with the provisions of Section 64(1) of the Financial Administration Act, I have the honour to transmit herewith the Public Accounts of Canada for the year ended March 31, 1989, to be laid by you before the House of Commons.

Respectfully submitted,

Paul Dick,
Receiver General for Canada.

OTTAWA, SEPTEMBER 29, 1989

*To The Honourable Paul Dick,
Receiver General for Canada.*

Sir:

I have the honour to submit the Public Accounts of Canada for the year ended March 31, 1989.

Under Section 64(1) of the Financial Administration Act, the Public Accounts for each fiscal year shall be prepared by the Receiver General and shall be laid before the House of Commons by the President of the Treasury Board on or before the thirty-first day of December next following the end of that year, or if the House of Commons is not then sitting, within the first fifteen days next thereafter that the House of Commons is sitting.

This annual report is presented in three volumes:

Volume I—A financial overview and a ten-year summary of the Government's financial transactions; the financial statements of Canada on which the Auditor General has expressed an opinion, namely, the statements of transactions, of revenue and expenditure and accumulated deficit, and of the assets and liabilities of Canada, together with related notes; analyses of budgetary revenue and expenditure, and of asset and liability accounts; and various other statements.

Volume II—Details of the financial operations of the Government, segregated by ministry (Part I); and additional information and analyses (Part II).

Volume III—Contains an annual consolidated report on the businesses and activities of all parent Crown corporations together with a listing of all Crown corporations and other corporate interests of Canada.

The audited financial statements, contained in Volume I, are for the year ended March 31, 1989. They are, however, dated August 15, to allow for the closing and audit of accounts.

Respectfully submitted,

Georgina Wyman,
Deputy Receiver General for Canada.

INTRODUCTION TO THE PUBLIC ACCOUNTS

Nature of the Public Accounts

The Public Accounts is the report of the Government of Canada prepared each fiscal year by the Receiver General as required by Section 64 of the Financial Administration Act.

The report covers the fiscal year of the Government, which ends on March 31, and is prepared from data contained in the accounts of Canada and from more detailed records maintained in departments and agencies. The accounts of Canada is the centralized record of the Government's financial transactions maintained by the Receiver General in which the transactions of all departments and agencies are summarized. Each department and agency is responsible for reconciling its accounts to the control accounts of the Receiver General, and for maintaining detailed records of the transactions in their accounts.

The report covers the financial transactions of the Government during the year. In certain cases, parliamentary authority to undertake transactions was provided by legislation approved in earlier years.

Format of the Public Accounts

The Public Accounts is produced in three volumes.

Volume I presents a summary analysis of the financial transactions of the Government. Its content is summarized as follows:

SECTION 1: financial overview and a ten-year summary of the Government's financial transactions;

SECTION 2: audited financial statements of the Government of Canada, prepared in accordance with Section 64 of the Financial Administration Act;

SECTION 3: review of budgetary revenue;

SECTION 4: review of budgetary expenditure;

SECTION 5: analysis of consolidated specified purpose accounts;

SECTION 6: analysis of loans, investments and advances;

SECTION 7: analysis of specified purpose accounts;

SECTION 8: analysis of other liabilities;

SECTION 9: analysis of foreign exchange accounts;

SECTION 10: analysis of unmatured debt; and,

SECTION 11: analysis of other information related to the financial statements.

Volume II is published in two parts. **Part I** presents the financial operations of the Government, segregated by ministry while **Part II** presents additional information and analyses.

(a) PART I

Part I is designed to reflect as closely as possible the form and content of Part II of the Main Estimates. Most tables and statements in **Part I** display the source and disposition of spending authorities. The content of **Part I** is summarized as follows:

(i) Summary Tables (Section 1)

Section 1 includes tables which provide summaries of the financial operations contained in the ministerial sections. It also includes, as appendices, the full wording of all authorities granted in current year Appropriation Acts, of all authorities granted by statutes other than Appropriation Acts, of all non-lapsing authorities granted in the current year, and of all authorities available from previous years.

(ii) Ministerial Sections (Sections 2 to 30)

There is one section for each ministry. The programs for the departments and agencies for which a Minister is responsible to Parliament are grouped together to provide a total ministry presentation. Each ministerial section provides a statement of program objectives and activity descriptions. Each ministerial section also includes, where applicable, a uniform set of statements to present each ministry's financial operations. These statements are:

• Ministry Summary

This statement displays by program the source and disposition of each budgetary and non-budgetary authority granted by Parliament in Appropriation Acts and other statutes.

• Programs by Activity

This statement displays by program the source and disposition of authorities for each activity under each type of expenditure (operating, capital, transfer payments and non-budgetary).

- *Transfer Payments*

This statement displays by program the source and disposition of authorities for each transfer payment.

- *Details of Amounts Credited to the Vote*

This statement displays by program the nature of revenues and receipts which increase the amounts which may be spent from appropriations having net voting authority.

- *Revenue*

This statement displays by program the nature of revenue collected for each main classification of revenue.

(b) PART II

Part II presents additional information and analyses. The content of **Part II** is summarized as follows:

- financial statements of revolving funds (Section 1);
- financial statements of departmental corporations and other entities (Section 2);

- supplementary information required by the Financial Administration Act (Section 3);
- accounts receivable (Section 4);
- professional and special services (Section 5);
- construction and acquisition of land, buildings, works, machinery and equipment (Section 6);
- transfer payments (Section 7);
- public debt charges (Section 8);
- payments of damage claims, ex gratia payments, Federal Court awards and nugatory payments (Section 9);
- federal-provincial shared-cost programs (Section 10);
- other Government-wide information (Section 11); and,
- other miscellaneous information (Section 12).

Volume III contains an annual consolidated report on the businesses and activities of all parent Crown corporations together with a listing of all Crown corporations and other corporate interests of Canada.

INTRODUCTION

This section provides an overview of the financial operations of the Government of Canada. The financial transactions of the Government are set out in summary form, with comparative figures for the previous ten years. The financial transactions are presented in accordance with the accounting policies explained in Note 1 to the audited financial statements in Section 2 of this volume.

The statements reflect the accounting basis introduced in the February 1986 Budget whereby the transactions of certain specified purpose and other accounts are reported as part of budgetary transactions rather than non-budgetary transactions.

These include the Unemployment Insurance Account, the Western Grain Stabilization Account, the Crop Reinsurance Fund, the Agricultural Commodities Stabilization Accounts, the Canadian Ownership Account and other specified purpose accounts. In addition, the profits of the Exchange Fund Account are recorded on a current basis, loans to developing countries are recorded as budgetary expenditures, and revenue and expenditure are reported net of transactions internal to the Government.

1988-89 — THE YEAR IN RETROSPECT

This part provides an overview of the Government's financial operations. More details are provided under "Supplementary Financial Information" in this section and in the remainder of this volume.

The Deficit and the Net Debt

The deficit for fiscal year 1988-89 was \$28,734 million, an increase of \$651 million from the 1987-88 deficit of \$28,083 million and a decline of \$9,590 million from the peak recorded in 1984-85. The increase in the deficit in 1988-89 was largely attributable to the transitional impacts of income tax reform, which became effective in taxation year 1988, as well as the effect of interest rate developments in 1988 on public debt charges. However, as a percentage of Gross Domestic Product, the deficit declined for the fourth consecutive year, from 8.6% in 1984-85 to 4.8% in 1988-89.

Although the deficit increased in 1988-89, its rate of increase was less than that of the economy with the result that the rate of growth in the accumulated deficit, or net debt, continued to slow. As of March 31, 1989, the net debt was \$320,918 million or 9.8% above the March 31, 1988 level of \$292,184 million. This is the first time in fifteen years that the net debt has increased by less than 10%.

Table 1.1 sets out the deficit and net debt over the last ten fiscal years, both in absolute terms and as a percentage of Gross Domestic Product for the calendar year ending in those fiscal years.

TABLE 1.1

DEFICIT AND NET DEBT
(in millions of dollars)

Year ended March 31	Budgetary deficit	% of Gross Domestic Product	Net debt	% of Gross Domestic Product
1980	11,501	4.2	72,159	26.1
1981	13,522	4.4	85,681	27.6
1982	14,872	4.2	100,553	28.2
1983	27,816	7.4	128,369	34.3
1984	32,399	8.0	160,768	39.6
1985	38,324	8.6	199,092	44.8
1986	34,404	7.2	233,496	48.9
1987	30,605	6.1	264,101	52.3
1988	28,083	5.1	292,184	53.1
1989	28,734	4.8	320,918	53.6

Chart A compares the rate of growth of net debt with the rate of growth of Gross Domestic Product for the last ten fiscal years.

CHART A

GROSS DOMESTIC PRODUCT AND NET DEBT

Factors Affecting the Deficit

The increase in the deficit in 1988-89 primarily reflects the transitional impact of stage one of tax reform and the impact of interest rate developments on public debt charges. Stage one of tax reform lowered statutory tax rates and converted most tax exemptions into tax credits, which had the effect of reducing the rate of growth in personal income tax collections in 1988-89. Given the stock of debt, the compounding impact of increases in interest rates throughout 1988 resulted in significantly higher public debt charges in 1988-89. Largely offsetting the impact of these factors was the continued strength in the economy, which resulted in increased revenues and restrained the growth in program spending.

Budgetary revenue increased by 6.7% in 1988-89 to \$103,981 million, less than one half of the rate of growth recorded in 1987-88. This slowdown in the rate of growth of budgetary revenues was due largely to developments affecting personal income tax collections. Despite strong growth in employment and personal income, personal income tax collections increased by only 2% in 1988-89, after increasing by 19.1% in 1987-88. This slowdown largely resulted from the impact of personal income tax reform, which became effective January 1, 1988. The changes significantly lowered the statutory tax rates, broadened the tax base by reducing tax preferences, and relieved about 850,000 lower-income Canadians from paying federal personal income tax through the conversion of exemptions into tax credits. As a result of these changes, the rate of growth in personal income tax revenues, the largest component of budgetary revenues, was reduced. In addition, the 1988-89 results were also affected by the impact of the one-time increase in 1987-88 collections associated with the acceleration of source deductions from larger employers.

In contrast, sales and excise tax revenues increased by 12.4% in 1988-89. Over half of this increase was due to the acceleration of remittances from large firms. This measure affected companies' cash flow only and had no direct effect on consumers. The extension of the federal sales tax to telecommunication services, together with strong gains in consumer and business spending, also contributed to the strength in sales and excise tax revenues. Although corporate profits were up significantly in 1988, the application of unused losses and deductions restrained the growth in corporate income tax collections. The increase in unemployment insurance contributions reflected the strong gains in employment and the increase in insurable earnings, as premium rates were unchanged in 1988 from those in effect in 1987 and were lower in 1989. The advance in other tax revenue primarily reflects higher dividend payments to non-residents and increased income on foreign exchange reserves.

Total budgetary expenditures increased by 5.7% in 1988-89, down from the advance of 7.9% recorded in 1987-88. Public debt charges were up 14.3% in 1988-89, while program spending advanced by only 3.1%. The increase in public debt charges reflects the increase in the stock of debt and the impact of higher interest rates throughout 1988 on this stock of debt. In contrast, the increase in program spending was less than half that recorded in 1987-88 and, in real terms, represents a decline of about 0.7%.

Most of the increase in program spending was concentrated in the Social Development and Fiscal Arrangements envelopes. Increases in old age security benefits, reflecting the impact of inflation on the indexation formula and increases in the underlying population base, coupled with higher unemployment insurance payments, account for most of the increase in social assistance payments. Payments under the Canada Assistance Plan were also higher. Although entitlements under Established Programs Financing increased by 5.6% in 1988-89, the strong growth in the value of tax points which accompanied the strength in the economy in 1988, restrained the increase in direct cash transfers. Most of the increase in Fiscal Arrangements was due to higher equalization payments. The impact on the equalization formula of robust growth in overall provincial revenues increased payments under this program. The strong growth in the economy underlies the increase in the External Affairs and Aid envelope as Official Development Assistance contributions are linked to the growth in the economy. The increase in Defence spending reflects the timing of capital spending.

In contrast, spending in the Economic and Regional Development envelope declined in 1988-89. The timing of special ad-hoc assistance payments to farmers accounts for the decline in the Economic and Regional Development envelope. Spending in the Services to Government envelope remained restrained, reflecting Government initiatives for cost reductions through better management and the streamlining of selected program spending.

Table 1.2 sets out movements in revenue, expenditure and the deficit over the last ten fiscal years.

TABLE 1.2
REVENUE, EXPENDITURE AND THE DEFICIT
(in millions of dollars)

Year ended March 31	Revenue	% change over preceding year	Expenditure	% change over preceding year	Deficit
1980	41,921	13.7	53,422	8.0	11,501
1981	48,775	16.4	62,297	16.6	13,522

1986	76,833	8.4	111,237	1.8	34,404
1987	85,784	11.7	116,389	4.6	30,605
1988	97,452	13.6	125,535	7.9	28,083
1989	103,981	6.7	132,715	5.7	28,734

Chart B compares the levels of revenue and expenditure expressed as percentages of Gross Domestic Product over the last ten fiscal years and shows the trend in the deficit over that period.

CHART B

REVENUE AND EXPENDITURE AS A PERCENTAGE OF GROSS DOMESTIC PRODUCT

With the deficit increasing by \$651 million in 1988-89 and a lower net source of funds from non-budgetary transactions of \$3,168 million, financial requirements, excluding foreign exchange transactions, increased by \$3,819 million to \$21,972 million. In addition, there were \$5,730 million of requirements for 1988-89 foreign exchange transactions, bringing total financial requirements to \$27,702 million. These requirements were financed by unmatured debt transactions of \$28,002 million, primarily in the form of Treasury bills and marketable bonds. Cash balances at the end of 1988-89 stood at \$1,833 million.

Table 1.3 sets out the financial requirements over the last ten years, while Table 1.4 sets out the major components of non-budgetary transactions for the same period.

TABLE 1.3

1989	1,081	5,431	250	6,762

Source/requirement (-)

Factors Affecting Financial Requirements

The Government's net financial requirements reflect not only the difference between budgetary revenue and expenditure, but also the net source of funds generated in non-budgetary transactions. In 1988-89, non-budgetary transactions provided the Government with a source of funds amounting to \$6,762 million, down \$3,168 million from that provided in 1987-88. The source of funds includes \$1,081 million from loans, investments and advances, \$5,431 million from specified purpose accounts, and \$250 million from other non-budgetary transactions. Most of the lower net source of funds in 1988-89 was due to the encashment of accrued interest on the 1981 series of Canada savings bonds and retroactive payments to provinces under the Provincial Tax Collection Agreements Account for taxation year 1987.

SUPPLEMENTARY FINANCIAL INFORMATION

This part provides a ten year comparative summary of the Government's financial transactions, both on the Public Accounts basis and on the National Accounts basis. The Public Accounts presentation reflects the accounting policies explained in Note 1 to the audited financial statements in Section 2 of this volume. The National Accounts presentation is designed primarily to facilitate economic analysis of the federal Government sector on a basis consistent with that used in measuring income and expenditure flows in the economy.

Public Accounts Presentation

The "Summary Statement of Transactions" (Table 1.5) provides aggregate data on the major categories of transactions under four main headings: budgetary, non-budgetary, foreign exchange and unmatured debt. The resulting cash position at the end of each year is also shown.

National Accounts Presentation

The National Income and Expenditure Accounts were developed as a basis for economic analysis of income and expenditure flows in the economy. The concepts and definitions applied to the Government sector are consistent with those applied to other sectors and follow international practices developed under the aegis of the United Nations. The economic nature of a transaction is the determining factor in its classification within the National Accounts framework.

In 1988-89, the National Accounts deficit increased by \$1,038 million or 4.9% from the 1987-88 level. This reflects a 5.7% increase in revenue and a 5.6% increase in expenditure.

⁽¹⁾ These "National Accounts transactions" are consistent with those released by Statistics Canada on August 31, 1989.

Public Accounts and National Accounts Reconciliation

The reconciliation of transactions between the Public Accounts and National Accounts is set out in the table that follows. The major factors which give rise to the need for a reconciliation are listed below.

The deficits of Government business enterprises which are outside the Government accounting entity are, for Public Accounts presentation purposes, met through budgetary appropriations and are thus recorded as budgetary expenditure. In the National Accounts presentation, these deficits are netted against Government investment income.

Revenue in the Public Accounts is recorded on a cash basis. While the major portion of National Accounts revenue is accounted for on a cash basis, certain items, such as corporate income taxes and the oil export charges, are reported on an accrual basis. This difference also results in a different treatment of the acceleration of source deductions and sales and excise taxes by large firms.

Transactions of employee pension accounts are treated as non-budgetary in the Public Accounts, although the Government's

contributions to, and interest payments on, these accounts are included in expenditure. Employer and employee contributions to these accounts, plus any related interest income, form part of Government revenue in the National Accounts presentation, and pension payments form part of Government expenditure.

In the Public Accounts presentation, the purchase of capital assets such as buildings and machinery is recorded as a budgetary expenditure in the year of acquisition. Only newly produced capital assets and capital expenditures are included in National Accounts expenditure. The National Accounts also ignore the sale of capital assets as such sales are not deemed to give rise to production. Both Government revenue and expenditure include an allowance for the depreciation of capital assets in the National Accounts termed "Capital consumption allowance". This item is not a part of Public Accounts reporting.

The National Accounts include certain Government agencies which are not part of the Public Accounts. The financial transactions of those agencies are included in National Accounts revenue and expenditure.

[1] In the Public Accounts, the petroleum compensation charge is netted against petroleum compensation payments and included in budgetary expenditure. Gross revenues and payments are recorded in the National Accounts.

[2] Various items of non-tax revenue, such as service fees and proceeds from the sale of current goods, which are reported as revenue in the Public Accounts, are netted to expenditure in the National Accounts.

[3] Major items under miscellaneous include adjustments for proceeds from the sale of used capital assets, air transportation tax, imputed items, the treatment of revenue in the supplementary accounting period after March 31, and the treatment of the acceleration of source deductions and sales and excise taxes by large firms.

[4] In the National Accounts, budgetary appropriations to various funds and agencies are replaced by net actual expenditures of the funds and agencies.

[5] This item represents the difference between the gross payments recorded on the National Accounts basis and net payments recorded on the Public Accounts basis.

[6] Various non-tax revenues, such as service fees and proceeds from the sale of current goods, which are reported as revenue in the Public Accounts, are netted to expenditure in the National Accounts.

[7] Major items under miscellaneous include adjustments for reserves and write-offs, provision for the valuation of assets and liabilities, purchase of used capital assets, imputed items, and the treatment of expenditure in the supplementary accounting period after March 31.

Notes to the financial statements of the Government of Canada	2.10
Opinion of the Auditor General on the financial statements of the Government of Canada	2.20

PREFACE TO THE AUDITED FINANCIAL STATEMENTS OF THE GOVERNMENT OF CANADA

The fundamental purpose of the financial statements is to provide information to Parliament and thus to the public, to facilitate an understanding and evaluation of the full nature and extent of the financial affairs and resources for which the Government is responsible, distinguishing between those of the Government and those relating to Crown corporations. As well, in summary form, disclosure is provided of the administration of financial resources by the Government in accordance with the dollar limits established by the appropriate legislative authorities.

The two basic concepts underlying the Government's accounting system are found in the Constitution Acts: first, the concept of the Consolidated Revenue Fund, which emanates from the requirement that all duties and revenues received, other than those reserved to the provinces, "shall form One Consolidated Revenue Fund"; second, the concept that the balance of the Fund, after certain prior charges, "shall be appropriated by the Parliament of Canada".

The financial statements consist of three statements and accompanying notes. The first statement is the Statement of Transactions, which shows how the financial requirements were met, and the effect of the transactions on the Consolidated Revenue Fund. The financial transactions are classified into the following categories:

- The first category, budgetary, consists of all the transactions with outside parties which enter into the calculation of the annual deficit or surplus of the Government, that is, the receipts from tax and non-tax revenue, together with the expenditures authorized by Parliament.
- The second category, non-budgetary, consists of transactions in loans, investments and advances, in liabilities for the administration of certain public money received or collected for special purposes, and in other liabilities, other than those related to foreign exchange and unmatured debt.
- The third category, foreign exchange, reflects transactions in international reserves held in the Exchange Fund Account (the principal objective of which is to aid in the control and protection of the external value of the Canadian dollar) together with an accounting of the net position of the Government with respect to the International Monetary Fund. Foreign exchange transactions include unmatured debt payable in foreign currencies.
- The fourth category, unmatured debt, represents the extent to which financial requirements have been met through the increase in unmatured debt, that is, the net change in amounts owing for marketable bonds, Canada savings bonds, special non-marketable bonds issued to the Canada Pension Plan Investment Fund and Treasury bills. Unmatured debt transactions exclude unmatured debt payable in foreign currencies.

The second statement is the Statement of Revenue and Expenditure and Accumulated Deficit, which gives a more detailed accounting of the budgetary transactions summarized in the Statement of Transactions and shows the changes in the accumulated deficit.

The third statement is the Statement of Assets and Liabilities. This statement differs in some ways from the conventional balance sheet of the private sector. Fixed assets, having been accounted for as expenditures, are reported at the nominal value of \$1, and revenues not yet received, such as uncollected taxes, are not recorded as assets. It should be noted, therefore, that the difference between total financial assets and total liabilities is simply the aggregate of annual budgetary deficits and surpluses determined in accordance with the accounting policies of the Government.

Other sections in this volume, together with Volumes II and III of the Public Accounts, are designed to provide more detailed information supporting the financial statements.

STATEMENT OF RESPONSIBILITY

The financial statements in this section were prepared by the Government of Canada in accordance with the accounting policies set out in Note 1 to the statements and, except for the change in allocation of tax refunds described in Note 4(ii), on a basis consistent with that of the preceding year.

Responsibility for the integrity and objectivity of the financial statements rests with the Government. The financial statements are prepared under the joint direction of the President of the Treasury Board, the Minister of Finance, and the Receiver General for Canada, in compliance with governing legislation. The financial statements are prepared on a modified cash basis of accounting, that is revenues are reported on a cash basis and expenditures are reported on an accrual basis. Where there are departures from cash accounting, the information included in these financial statements is based on the Government's best estimates and judgement, with due consideration given to materiality.

To fulfill its accounting and reporting responsibilities, the Government maintains systems of financial management and internal control which give due consideration to costs, benefits and risks, and which are designed to provide reasonable assurance that transactions are properly authorized by Parliament, are executed in accordance with prescribed regulations, and are properly recorded so as to maintain accountability of public money and safeguard the assets and properties of Canada under Government administration. The Receiver General for Canada maintains the accounts of Canada, a centralized record of the Government's financial transactions, and obtains additional information as required, from departments, agencies and Crown corporations, to meet accounting and reporting requirements.

The Auditor General of Canada provides an independent opinion on the financial statements prepared by the Government. The duties of the Auditor General in that respect are set out in Section 6 of the Auditor General Act which states in part that the Auditor General "shall express his opinion as to whether they (the financial statements) present fairly information in accordance with stated accounting policies of the federal government and on a basis consistent with that of the preceding year together with any reservations he may have".

Annually, the financial statements are tabled in Parliament as part of the Public Accounts, and are referred to the Standing Committee on Public Accounts, which reports to Parliament on the results of its examination together with any recommendations it may have with respect to the financial statements and accompanying audit opinion.

On behalf of the Government of Canada.

August 15, 1989

Notes to the Financial Statements of the Government of Canada

1. Significant Accounting Policies

The accounting policies of the Government of Canada are based on concepts embodied in the Constitution Acts, and in the Financial Administration Act and other legislation.

i. Government of Canada as an accounting entity

For purposes of maintaining the accounts of Canada and preparing the Public Accounts, the Government of Canada is defined as all the departments named in Schedule I of the Financial Administration Act; any division or branch of the Public Service, including a commission appointed under the Inquiries Act, designated by the Governor in Council as a department for purposes of the Financial Administration Act; the staffs of the Senate, the House of Commons, and the Library of Parliament; and, any corporation named in Schedule II of the Financial Administration Act.

In accordance with the above definition, the corporations listed in Parts I and II of Schedule III of the Financial Administration Act, and those Crown corporations that are not subject to Divisions I to IV of Part X of the Financial Administration Act, are excluded from the Government of Canada as an accounting entity; therefore, their financial statements are not consolidated with those of the Government. However, the borrowings of those corporations which are agents of the Crown are recorded as a liability of the Government net of borrowings expected to be repaid directly by these corporations. The financial statements of Crown corporations are presented in Volume III of the Public Accounts.

In addition, certain accounts and funds have financial statements which are not consolidated with those of the Government, but appear separately in Volumes I and II (Part II). These accounts and funds include the Canada Pension Plan Account, superannuation accounts and other specified purpose accounts.

ii. Classification of financial transactions

The financial transactions of the Government, as recorded in the accounts of Canada and reported in the Public Accounts, are classified into budgetary, non-budgetary, foreign exchange and unmatured debt transactions.

In general terms, budgetary transactions enter into the calculation of the annual deficit or surplus and are reported on the Statement of Revenue and Expenditure and Accumulated Deficit. All other transactions lead to the acquisition or disposal of financial claims or to the creation or discharge of financial obligations, and are disclosed on the Statement of Assets and Liabilities.

For purposes of reporting, the Public Accounts uses the classification in force at the end of the year to which the report refers and amounts for the previous year are reclassified retroactively to conform to the current year's presentation.

iii. Budgetary transactions

REVENUE

Revenue consists of all tax and non-tax receipts which affect the annual deficit or surplus of the Government.

The Government generally reports revenue in the year in which it is received. Refunds of revenue are allocated to the year in which the obligations for refund, as determined by the completion of manual assessment, and commencement of the mechanical processing cycle, occur.

Revenue is reported net of refunds, and excludes amounts receivable, taxes collected on behalf of provinces and territories, and amounts credited to the Canada Pension Plan Account, superannuation accounts, other specified purpose accounts, and other liability accounts.

On the Statement of Revenue and Expenditure and Accumulated Deficit, revenue is reported both gross and net. The difference between the two is revenue credited to appropriations.

EXPENDITURE

Expenditure consists of all charges to budgetary appropriations which affect the annual deficit or surplus of the Government. In addition, expenditure may also include charges related to the provision for valuation of loans, investments and advances, the allowance for borrowings of agent Crown corporations, and accounts payable and other allowances related to statutory items and certain annual appropriations. Such charges include those for work performed, goods received, services rendered, and transfer payments made, during the year and in the supplementary period including accounts payable at year end.

Expenditure excludes amounts charged to the Canada Pension Plan Account, superannuation accounts, other specified purpose accounts, and other liability accounts.

On the Statement of Revenue and Expenditure and Accumulated Deficit, expenditure is reported both gross and net. The difference between the two is revenue credited to appropriations.

iv. Assets

Assets are defined as the financial claims acquired by the Government on outside organizations and individuals as a result of events and transactions recorded as at the closing date.

However, as a result of the Government's accounting policies described above, certain financial claims are not reported on the Statement of Assets and Liabilities. The most important of these are accounts receivable for tax and non-tax revenue.

v. Liabilities

Liabilities are defined as the financial obligations of the Government to outside organizations and individuals as a result of events and transactions recorded as at the closing date.

However, as a result of the Government's accounting policies described above, and in accordance with enabling legislation, actuarial liabilities arising from the indexing to the cost of living, of superannuate pensions and annuities, are not reported on the Statement of Assets and Liabilities.

vi. Fixed assets

The fixed assets of the Government, which include land, engineering structures and works (such as canals, harbours and roads), buildings, and machinery and equipment, are charged to budgetary expenditure at the time of acquisition or construction. Their existence, however, is acknowledged on the Statement of Assets and Liabilities by reporting them at the nominal value of \$1.

vii. Valuation of assets and liabilities

ASSETS

Assets are recorded at cost and are subject to annual valuation to reflect reductions from the recorded value to the estimated realizable value. In the case of loans to sovereign states, no reduction in value is recorded unless a sovereign state has formally repudiated its debts. In addition, the allowance for valuation reflects reductions from the recorded value of loans (and subscriptions to international organizations that make similar loans) with significant concessionary terms.

The Government's gold reserves are included in the International reserves held in the Exchange Fund Account and are recorded and valued at 35 Special Drawing Rights per fine ounce. The Special Drawing Right is an international currency created by the International Monetary Fund, and allocated to countries participating in its Special Drawing Rights Department. It represents a unit of account defined in terms of a "basket" of five major currencies.

LIABILITIES

Liabilities are recorded at the amounts ultimately payable and liabilities for termination benefits, the superannuation plans with the exception of indexing, and the Government Annuities Account, are valued on an actuarial basis. For the basic superannuation accounts actuarial deficiencies are amortized, surpluses are not.

viii. Translation of foreign currency transactions

Foreign currency transactions are translated and recorded in Canadian dollar equivalents at the exchange rates prevailing at the transaction dates.

Assets and liabilities resulting from foreign currency transactions are, in turn, reported at year-end closing rates of exchange; net gains are credited to revenue, while net losses are charged to expenditure.

2. Authorities for Transactions

Taxes can be raised and moneys can be borrowed only with the authority of Parliament. All receipts of money by departments and agencies must be deposited into the Consolidated Revenue Fund (CRF). All disbursements from the CRF for spending on operations, for loans, investments and advances, and for the redemption of matured debt, must be authorized by Parliament.

i. Authority for spending on operations

Parliament provides authority to make payments out of the Consolidated Revenue Fund in annual appropriation acts and other statutes (the latter referred to as statutory appropriations). Most Government spending is under statutory authorities, that is authorities which do not generally impose an annual limit on the amount that may be spent. Spending is authorized by reference to statutory formulae or criteria and the authorities usually continue from year to year until changed or rescinded by an act of Parliament. Spending authority provided by statutory appropriations is for specified purposes and for such amounts and such time as the acts prescribe. Spending authority provided by statutory appropriations generally does not lapse at the end of the year in which it was granted. Spending authority granted in appropriation acts is for stated purposes and maximum amounts. Unless provided for in vote wording, unused spending authority granted in appropriation acts lapses at the end of the year for which it was granted. Some authorities continue from year to year and some authorize the respending, within a program, of defined categories of revenue generated by the program.

ii. Authority for loans, investments and advances

These authorities limit the amount of loans, investments or advances that may be made. Unused authority may lapse at the end of a year or may continue from year to year. Non-lapsing authorities often limit only the total of loans that may be outstanding at any one time; thus principal repaid may be reloaned.

iii. Borrowing authority

The Government can borrow only as authorized by acts of Parliament. Borrowing authority acts provide authority for the net amount of new security issues less redemptions during a fiscal year. The authorities lapse at the end of the year except for amounts specifically carried forward to the next fiscal year. Parliament has also provided a continuing authority to the Government under Section 47 of the Financial Administration Act to borrow, for periods not exceeding six months, such amounts as are deemed necessary to meet lawfully authorized disbursements.

Crown corporations (corporations wholly owned by the Crown) that are agents of Her Majesty also may borrow only as authorized by acts of Parliament. Such acts usually place a ceiling on the amount of borrowings that can be outstanding at any one time. Non-agent Crown corporations can borrow without specific parliamentary authority. Non-agent borrowings are sometimes guaranteed by the Government with the authority of Parliament.

3. Spending and Borrowing Authorities

i. Source and disposition of spending authorities

The following table summarizes the authorities made available by Parliament and used by the Government for expenditure (operations) and loans, investments and advances.

	(in millions of dollars)			
	1989		1988	
	Expenditure (budgetary)	Loans, investments and advances (non-budgetary)	Expenditure (budgetary)	Loans, investments and advances (non-budgetary)
Authorities available for use—including those from previous years	125,273	30,418	118,258	30,103
Used in the current year	122,064	1,035	115,110	928
Lapsed	2,187	84	2,103	125
Overexpended	(33)		(96)	
Available for use in subsequent years	1,055	29,299	1,141	29,050

Details can be found in Tables 1 and 2, Section 1 of Volume II (Part I) of the Public Accounts.

ii. Overexpenditure of spending authority

The following votes were overexpended. Most of the amounts overexpended represented debts incurred but not paid at the fiscal year end. In the subsequent fiscal year, spending authority for each equivalent appropriation is reduced by the amount of those debts.

	(in millions of dollars)
	1989
Justice	
Vote 35 - Offices of the Information and Privacy Commissioners of Canada	11
Labour	
Vote 10 - Canada Labour Relations Board	11
National Defence	
Vote 1 - Operations	33
	33

Details can be found in the ministerial sections of Volume II (Part I) of the Public Accounts.

⁽¹⁾ Less than \$500,000.

iii. Borrowing authorities

The following table shows the borrowing authorities available and the use of such authorities reconciled to the change in unmatured debt as reported on the Statement of Assets and Liabilities.

	(in millions of dollars)							
	1989				1988			
	Available	Used	Lapsed	Available for use in subsequent years	Available	Used	Lapsed	Available for use in subsequent years
Authorities which impose a ceiling through borrowing authority acts	26,225	25,575		650	25,400	21,979	2,496	925
Section 47 of the Financial Administration Act ⁽¹⁾	750	685	65					
Total	26,975	26,260	65	650	25,400	21,979	2,496	925
Net increase in unmatured debt		25,040				21,502		
Net change in matured Canada savings bonds not yet redeemed		88				-93		
Change in internal holding of Government debt excluding Canada Pension Plan		12				370		
Foreign currency adjustments		1,120				200		
Total use of borrowing authorities		26,260				21,979		

⁽¹⁾ Authorizes the Government to borrow, for a fixed period not exceeding six months, amounts necessary to ensure that the Consolidated Revenue Fund will be sufficient to meet lawfully authorized disbursements.

4. Tax Revenue

i. Refundable tax credits

Entitlements to refundable tax credits are claimed on personal and corporate income tax returns. Claims are settled either by reducing the tax liability for the year or, if no liability exists, by issuing a "refund" cheque. In either case, income tax revenues are reduced, even where no tax had been paid. Had the tax reductions and direct payments due to child tax credits been reported as expenditures, gross total expenditure and personal tax revenue would have increased respectively by \$1,598 million (\$1,640 million in 1988). Likewise, had the tax reductions and direct payments due to the sales tax credit been reported as expenditures, gross total expenditure and personal tax revenue would have increased respectively by \$286 million (\$300 million in 1988). Finally, had the tax reductions due to the investment tax credit been reported as expenditures, gross total expenditure and personal and corporate tax revenue would have increased respectively by \$160 million.

ii. Tax refunds

As stated in Note 1 (iii), tax revenue is reported after deducting refunds paid. Prior to 1989, the refunds were allocated to specific fiscal years generally on the basis of the cheque date. In 1989, the allocation is based on when the obligations for refunds, as determined by the completion of manual assessment and commencement of the mechanical processing cycle, occurs. The effect of this change in allocation in 1989 is a reduction of tax revenue in the amount of \$800 million, a decrease in the provincial tax collection agreements account in the amount of \$300 million with a corresponding increase in accounts payable in the amount of \$1.1 billion.

5. Presentation of Expenditure by Standard Object

Expenditure on the Statement of Revenue and Expenditure and Accumulated Deficit is reported by standard object in the following table:

		(in millions of dollars)	
		1989	1988
(1)	Personnel	15,192	14,343
(2)	Transportation and communications	1,640	1,498
(3)	Information	234	309
(4)	Professional and special services	2,142	1,856
(5)	Rentals	831	783
(6)	Purchased repair and maintenance	1,206	1,140
(7)	Utilities, materials and supplies	2,305	2,263
(8)	Construction and/or acquisition of land, buildings and works	884	857
(9)	Construction and/or acquisition of machinery and equipment	3,293	3,317
(10)	Transfer payments	67,206	64,778
(11)	Public debt charges	33,183	29,028
(12)	Other subsidies and payments	6,803	7,505
	Total gross expenditure	134,919	127,677
(13)	Less: revenue credited to the votes	2,204	2,142
	Total net expenditure	132,715	125,535

Details can be found in Table 5, Section 1 of Volume II (Part I) of the Public Accounts.

6. Transfer Payments

The Government makes transfer payments to individuals, other levels of government, enterprises and non-profit institutions, and international organizations and foreign countries.

Payments to persons essentially constitute an income security framework. Individuals are provided with assistance because of their age (Old Age Security and Family Allowance), because they are temporarily unemployed (Unemployment Insurance), or for other specific purposes.

Payments to other levels of government encompass numerous transfer programs operated by the federal Government under various statutory authorities. The programs are both general and specific in purpose, and include equalization payments and payments for health care, education, and grants in lieu of taxes.

Payments to enterprises include agricultural subsidies for freight, grain storage, oil and gas subsidies for offshore development, incentives, oil import compensation, and freight rate subsidies to railway and transportation companies under various statutory acts.

Payments are made to international organizations that provide development assistance, military protection, and satellite communications. Payments to foreign countries are for official development assistance in the purchase of goods and services. As well, food aid payments are made to international institutions for the benefit of recipients in developing countries.

Payments to non-profit institutions are to universities in aid of research, to non-profit organizations for research and development, and to various national organizations.

The following table presents a summary of transfer payments by class of recipient:

	(in millions of dollars)	
	1989	1988
Persons	35,553	34,927
Provinces, territories and municipalities	24,326	22,595
Subsidies and capital assistance to enterprises	2,827	2,849
International organizations and foreign countries	2,796	2,602
Non-profit institutions and organizations	1,704	1,805
Total	67,206	64,778

Details can be found in Tables 4.5 and 4.6 in Section 4 of this volume and in Section 7 of Volume II (Part II) of the Public Accounts.

7. Accumulated Deficit

In accordance with its stated accounting policies, revenues and expenditures of certain specified purpose accounts are included in the revenue and expenditure of the Government. However, enabling legislation requires that such revenues be earmarked and that related payments be charged against such revenue. Any deficiency of payments over revenue must, in accordance with enabling legislation, be met through future revenue of these specified purpose accounts. The table below presents the balances of these accounts included in the accumulated deficit:

	(in millions of dollars)	
	1989	1988
Accumulated deficit excluding consolidated specified purpose accounts	322,249	291,746
Unemployment Insurance Account	27	2,189
Canadian Ownership Account	-3,565	-3,565
Western Grain Stabilization Account	1,410	1,514
Crop Reinsurance Fund	35	75
Agriculture Commodities Stabilization Accounts	-94	-184
Accrued expenditure of the Crop Reinsurance Fund	347	3
Accrued expenditure of the Unemployment Insurance Account	509	406
Other specified purpose accounts	(11)	(11)
	-1,331	438
Accumulated deficit	320,918	292,184

Details of consolidated specified purpose accounts can be found in Section 5 of this volume.

(11) Less than \$500,000.

8. Crown Corporations

As disclosed in Note 1(i), the assets, liabilities, revenues and expenses reported in the separate financial statements of Crown corporations are not included in the Government's financial statements. Only the financial transactions between the Government and Crown corporations are included.

In November 1988, the Public Sector Accounting and Auditing Committee (PSAAC) of the Canadian Institute of Chartered Accountants issued a Statement defining the government reporting entity. The Statement recommends that the reporting entity include all organizations that are owned or controlled by governments and accountable to the legislature.

The organizations are classified as being enterprise or non-enterprise, and a different accounting basis is followed for each type of activity. Enterprises are those organizations that sell goods and services to individuals and non-government enterprises as their principal activity and source of revenue.

Enterprise activities are accounted for by the modified equity method of accounting under which the investment in the enterprise is recorded at cost and the carrying value is adjusted annually to recognize the Government's share of the net income or loss of the enterprise. This share of net income or loss is included in revenues or expenditures of the Government. The basis of accounting used by the enterprise is maintained in reporting their results.

Non-enterprise corporations rely on Government as their principal source of revenue and therefore, their activities are consolidated. Under consolidation, the accounting policies of the corporations are adjusted to the Government's stated accounting policies.

Most Crown corporations follow generally accepted accounting principles (GAAP) used by private sector companies. The most significant difference between GAAP and the Government's basis

of accounting is that under GAAP, non-financial assets such as buildings, machinery, equipment and inventories are reflected as assets and written off over their respective lives or as they are consumed or used. The Government treats the acquisition of non-financial assets as expenditures in the year of acquisition. A further difference is that the Government does not accrue revenue.

The following tables summarize total Government assets, liabilities, revenue and expenditure on the existing unconsolidated basis and their restatement to show the effects of retroactive adoption of the PSAAC recommendations.

For those Crown corporations whose year end is March 31, the data are based on audited financial statements. For those corporations having other year ends, the data are based on unaudited interim financial statements which have been prepared on a basis consistent with their most recent audited financial statements.

Further details of the application of this basis of accounting may be found in Section 6 of this volume.

9. International Development Assistance—Loans and Subscriptions

i. Loans to developing countries

Included in loans to National governments of \$4,191 million (\$4,323 million in 1988) are loans to developing countries of \$3,048 million (\$3,163 million in 1988). These loans arise from agreements signed with developing countries before April 1, 1986, are part of Canada's international development assistance program and are either interest-free or bear interest at rates that were more favourable than those prevailing in Canada at the time the assistance was provided. All loans disbursed after April 1, 1986 have been treated as budgetary expenditures. The balances outstanding at March 31, grouped by term, are:

Original term	Grace period before repayment commences	Interest rate	(in millions of dollars)	
			1989	1988
17 years	7 years	*	1	1
20 years	5 years	5%	27	30
25 years	5 years	6%	1	1
30 years	7 years	3%	167	174
35 years	5 years	*	2	2
40 years	10 years	*	1	1
50 years	10 years	*	2,799	2,903
53 years ^[1]	13 years	*	42	43
55 years ^[1]	15 years	*	8	8
			3,048	3,163

* Interest-free.

^[1] Rescheduled loans.

These loans, by their terms, confer financial benefits on the recipients and have been fully provided for in the allowance for valuation. Details can be found in Section 6 of this volume.

ii. Subscriptions and loans to international organizations

Included in loans, investments and advances--International organizations of \$4,621 million (\$4,564 million in 1988) are subscriptions to the capital of the International Development Association and loans to other international financial institutions of \$4,014 million (\$3,981 million in 1988) which are also part of Canada's development assistance program. These institutions make loans to developing countries on terms similar to those described in sub-section i. Subscriptions to international organizations do not provide a return on investment but are repayable on termination of the organization or on withdrawal therefrom. Details, including Canada's agreement for future subscriptions, can be found in Section 6 of this volume.

Loans, investments and advances--International organizations are presented net after deduction of notes payable of

\$1,907 million (\$1,874 million in 1988), including \$1,852 million (\$1,806 million in 1988) of notes payable to the aforementioned Association and institutions. The notes are non-interest bearing, are non-negotiable, but are payable on demand, although they are normally encashed over periods of up to seven years, according to the financial requirements of the institutions.

Included in the allowance for valuation is an amount of \$2,162 million (\$2,175 million in 1988) equal to the net position of the Government vis-à-vis these institutions.

10. Gold

Included in International reserves held in the Exchange Fund Account of \$17,422 million (\$14,779 million in 1988) are Canada's gold holdings of 17.018 million fine ounces with a recorded value of \$919 million (18.397 million fine ounces with a recorded value of \$1,104 million in 1988).

Gold is valued at the Canadian dollar equivalent of 35 Special Drawing Rights (SDRs) per fine ounce, which approximates its cost in foreign currency terms. At March 31, 1989, the Canadian dollar equivalent of 35 SDRs was \$53.95 per fine ounce (\$59.96 per fine ounce in 1988). The SDR is a unit of account used by the International Monetary Fund and is valued in terms of a "basket" of five major currencies.

Alternative bases of valuation could be used to value gold. On a market value basis (\$456.97 per fine ounce in 1989, \$564.29 in 1988), the recorded value would have been \$7,777 million (\$10,381 million in 1988). On the basis of estimated average cost in Canadian dollars at historical rates of exchange \$36.91 per fine ounce in both 1989 and 1988, the recorded value would have been \$628 million (\$679 million in 1988). Further details can be found in the financial statements of the Exchange Fund Account, included in Section 9 of this volume.

11. Canada Pension Plan

Under existing legislation, benefits and costs incurred in the administration of the Canada Pension Plan are financed from contributions from employees, employers and self-employed persons, and from interest from the investment of contributions not immediately needed for benefits and costs. Although the Canada Pension Plan was established under federal legislation, the Plan is under the joint control of the Government and the provinces. Any province or group of provinces having 1/3 of the population of Canada can veto any amendment to the Canada Pension Plan that affects the level of contributions or benefits. The Government's authority to pay benefits under the Plan is limited to the balance in the Canada Pension Plan Account which was \$37,603 million at March 31, 1989. Therefore, in accordance with the accounting policies of the Government, the revenues and expenditures of the Plan have not been reported with those of the Government.

In 1989, revenues of the Canada Pension Plan Account were \$10.2 billion (\$9.3 billion in 1988) and expenditures were \$8.6

billion (\$7.5 billion in 1988). The balance of the Canada Pension Plan Account is \$37.6 billion at March 31, 1989 (\$36 billion at March 31, 1988). Funds in excess of estimated current operating requirements (\$35.1 billion at March 31, 1989; \$33.7 billion at March 31, 1988) are available for investments in securities of the provinces, territories and of the Government, on the basis of contributions from the jurisdiction to total contributions to the Account.

A long-term funding objective of approximately two years of benefits has been set for the Plan by the establishment of a 25 year schedule of contribution rates starting January 1, 1987. The first 5 years require an annual .2 percentage points shared increase to the initial employer-employee contribution rate of 3.6% of contributory earnings. Contribution rates for the 20 subsequent years involve shared increases of .15 percentage points and are subject to quinquennial federal-provincial reviews. The financial statements of the Account are reproduced in Section 7 of this volume.

12. Superannuation Accounts

The Government sponsors defined benefit pension plans for substantially all its full-time employees, principally members of the Public Service, the Canadian Forces and the Royal Canadian Mounted Police (RCMP). Basic pensions, which are mostly based on the best 6 years average earnings and are accrued at the rate of 2 percent of average salary per year of service, are provided under the authority of the Public Service Superannuation Act, the Canadian Forces Superannuation Act and the RCMP Superannuation Act, respectively. Benefits are limited, the maximum being seventy percent of final average earnings. Basic pensions are annually (on January 1) indexed to the cost of living under authority of the Supplementary Retirement Benefits Act.

The Public Service Superannuation Act also covers the employees of certain Crown corporations, agencies and other institutions. The pension obligations of these entities are limited to matching their employees' contributions; any actuarial deficiency is borne by the Government.

The employee contribution for these basic benefits is six and one half percent of pay, less contributions to the Canada or Quebec Pension Plan. In addition, employees contribute 1% of pay towards indexing. For basic benefits, the employer matches the prior year's employee contributions for members of the Public Service, and contributes 1.8 and 2 times current year's contributions for members of the Canadian Forces and the Royal Canadian Mounted Police respectively. Indexation contributions are matched.

Contributions are credited to the superannuation accounts. The basic superannuation accounts earn interest at rates that are based on the Government of Canada long-term bond rates. The interest rate earned by the basic accounts was about 11% in both 1989 and 1988. The indexation account is credited with interest based on five year Government of Canada bond rates. The rate in 1989 was 9.6% (9.2% in 1988).

All benefit payments are charged to the superannuation accounts, except for certain indexing benefits in the cases where retirees have exhausted their credits in the Supplementary Retirement Benefits Account. In such cases, indexing benefits are charged directly to expenditure.

Pension obligations exist with respect to several other pension plans, the most significant of which cover all members of Parliament and federally appointed judges.

It has been estimated that if the liabilities for all the superannuation plans were determined on an actuarial basis, the net reported liabilities and accumulated deficit could increase by anywhere from \$850 million to \$6 billion. These estimates incorporate, initially, the effects of current rates of interest credited to the superannuation accounts and other current economic assumptions. These economic assumptions are blended gradually into long-term economic assumptions which in the case of the \$850 million estimate are: interest on new funds of 4.5%, general wage increases of 2.5% and an inflation rate of 2%. In the case of the \$6 billion estimate, the economic assumptions are: interest on new funds of 6%, general wage increases of 5% and an inflation rate of 3.5%. In both instances, the assumed fund yield has been reduced by 1% over the medium term to provide a margin to take into account possible adverse economic experience.

As can be observed, variations in economic assumptions can have a significant impact on the estimate of unrecorded liabilities.

The following table discloses pension and related interest costs charged to expenditure in 1988-89.

(in millions of dollars)					
	Public Service	Canadi- an Forces	Royal Canadian Mount- ed Police	1989 Total	1988 Total
Employer contributions	513	283	107	903	871
Indexation benefits charged directly to expenditure	528	344	27	899	839
Amortization of actuarial defi- ciencies					4 ⁽¹⁾
Interest credited to Accounts . .	3,372	2,047	329	5,748 ⁽¹⁾	5,160 ⁽¹⁾
	4,413	2,674	463	7,550	6,874

⁽¹⁾ Interest on pension accounts is stated, where applicable, net of amortization of actuarial deficiencies. Interest charged to the public debt represents the total of the two amounts.

Details of the Accounts are reproduced in Section 7 of this volume.

13. Borrowings of Agent Crown Corporations

Included in borrowings of agent Crown corporations of \$15 billion (\$14.8 billion in 1988) are the borrowings of the Canadian Wheat Board (CWB) of \$3.8 billion (\$3.8 billion in 1988).

Approximately \$3.7 billion of the borrowings of the CWB have been incurred to finance credit grain sales to various countries. Terms of the credit grain sales call for payment in full within 36 months or less from the time of shipment. Certain countries have not been able to meet their obligations as they have come due and have found it necessary to renegotiate repayment terms including rescheduling both principal and interest payments. Of the \$3.2 billion owed to the CWB by countries experiencing repayment difficulties, approximately \$2.2 billion in principal and interest payments has been rescheduled.

It should be noted that, for such loans to sovereign borrowers, payment delays are not necessarily indicative of a future loss requiring an allowance. Sovereign entities and their international financial obligations do not have commercial mortality and the international system provides several mechanisms and institutions through which countries facing repayment difficulties can effect remedial measures in agreement with their creditors.

Therefore, the Government, as guarantor of CWB's borrowings to finance credit grain sales, has made no valuation allowance in its financial statements.

14. Unmatured Debt

The following table presents interest rates and maturity of debt issues by currency and type at face value.

Maturing date(s)	(in millions of dollars)							
	Marketable bonds		Canada savings bonds ⁽¹⁾	Canada Pension Plan non-marketable bonds	Treasury bills	Notes and loans	Canada bills	Total
	Canadian	Foreign currencies expressed in Canadian \$				Foreign currencies expressed in Canadian \$	Foreign currencies expressed in Canadian \$	
1990	10,025	662	4,423	4	102,700	1,020	1,131	119,965
1991	10,650	489	4,598	6		143		15,886
1992	9,905		5,203	7				15,115
1993	10,023	807	6,637	7		29		17,503
1994	11,090	682	4,308	8		719		16,807
1995/99	29,117	2,734	22,586	53				54,490
2000/04	15,437			93				15,530
Subsequent	19,500			2,828				22,328
	115,747	5,374	47,755	3,006	102,700	1,911	1,131	277,624
Less: Government holdings of unmatured debt	16	95	1,150	3,006				4,267
	115,731	5,279	46,605		102,700	1,911	1,131	273,357
Effective average annual interest rate	10.74	7.8	10.5	10.03	11.3	8.73	9.41	10.51
Range of interest rates	3-18	4.375-10.125	9-10.5	6.75-17.51	8.63-12.88	5.625-12.5	6.21-9.97	3-18

⁽¹⁾ Canada savings bonds are redeemable on demand.

Foreign currency amounts are translated to the Canadian dollar equivalent at year end. At year end, foreign currency borrowings included the following:

Currency	(in millions of dollars)		
	1989	1989	1988
	Face value	Canadian \$ equivalent	Canadian \$ equivalent
United States dollars	4,390	5,234	6,361
Deutsche marks	200	126	149
Swiss francs	700	502	861
Japanese yen ⁽¹⁾		2,553	3,923
		8,415	11,294

⁽¹⁾ The 1989 and 1988 Canadian \$ equivalent is comprised of the conversion of Yen debt 140,000 million and 1,086 million U.S. dollar swap risks.

Substantially all the debt of the Government is issued at fixed rates. The Government has interest rate swap agreements expiring between 1989 and 1995 on U.S. \$1,900 million in notional principal. The Government has assumed a variable interest rate determined by the London Inter-bank Offered Rate (LIBOR) market against a weighted average 10.58% fixed interest rate position assumed by third parties.

The Government has also entered into currency swap agreements expiring between 1991 and 1993 which have the effect of converting future exchange fluctuation risks of Yen debt totalling 180,000 million Yen to U.S. dollar risks totalling \$1,086 million.

The Government has also entered into domestic interest rate swap agreements expiring between 1991 and 2004 on \$1,550 million in notional principal. The interest rate on these agreements is tied to the three-month Bankers' acceptance rate and quantified quarterly.

The proceeds of Canada's borrowings in foreign currency have been advanced to the Exchange Fund Account. Interest on all swap transactions is recorded in a consistent manner in the financial statements.

15. Accounts Receivable

Non-tax accounts receivable including amounts receivable to be credited to votes represent billed but uncollected and/or unbilled and accrued financial claims arising from amounts owed to the Government for use of its assets or for services rendered as of the accounting date. Non-tax accounts receivable of the Government as at March 31, 1989, amounted to approximately \$2.4 billion (approximately \$2.1 billion in 1988) net of an allowance for doubtful accounts. Details of accounts receivable can be found in Section 4 of Volume II (Part II) of the Public Accounts.

16. Contractual Commitments

A contractual commitment represents a written obligation to outside organizations or individuals as a result of a contract. The nature of the Government's activities requires it to enter into contracts that are significant in relation to its current financial position or that will materially affect the level of future expenditure. Major capital assets of the Government are either purchased outright or leased. Where a lease transfers substantially all of the benefits and risks incidental to ownership of the property to the lessee it is considered a capital lease. All other leases are classified as operating leases. Contractual commitments can be classified into four categories: fixed assets, purchases, operating leases and capital leases.

All contractual commitments of \$100 million or more per project are reported in the case of fixed assets, purchases and operating leases. In the case of capital leases, all capital lease arrangements with total minimum lease payments remaining at year end in excess of \$1 million per contract are reported.

The following amounts represent contractual commitments at March 31, 1989 which will result in substantial outlays in future years.

i. Fixed assets, purchases and operating leases

	(in millions of dollars)			
	1989		1988 ⁽¹⁾	
	Total estimated cost	Out-standing commitment	Total estimated cost	Out-standing commitment
Fixed assets	18,112	5,629	18,674	6,482
Purchases	840	108	1,009	251
Operating leases	(2)			
Total	18,952	5,737	19,683	6,733

Total commitments under capital lease arrangements (minimum lease payments)	1,853	1,544
Less: imputed interest	1,306	1,075
executory costs	2	3
Net commitments under capital lease arrangements	545	466

Details can be found in Section 11 of this volume.

⁽¹⁾ Figures for 1988 are for one year increments for 1989 to 1993 and for increments of 5 years for 1994 to 2023.

17. Insurance Programs

Three Crown corporations operate insurance programs as agents of Her Majesty. The insurance programs are intended to operate on a self-sustaining basis but in the event that such corporations do not have sufficient funds to meet their obligations, the Government provides the required financing through appropriations, either budgetary or non-budgetary. The Government is of the opinion that no allowance need be established in its financial statements for these insurance programs.

The Canada Deposit Insurance Corporation (CDIC) provides insurance on deposits with member banks and trust and loan companies for up to \$60,000 per depositor per institution. Total insured deposits at March 31, 1989 were \$245,123 million (\$211,755 million at March 31, 1988). The CDIC registered a profit for the twelve month period ended March 31, 1989 of \$74 million (\$133 million in 1988). The deficiency of the CDIC's Deposit Insurance Fund at March 31, 1989 was \$1,062 million (\$1,136 million at March 31, 1988). The deficiency has been funded in part by loans from the Government of \$1,695 million at March 31, 1989 (\$1,334 million at March 31, 1988). Amendments to the CDIC Act effective June 30, 1987, allow for premium levels to be set by the Governor in Council, at amounts not to exceed 1/6 of 1% of insured deposits. Other amendments allow for premium surcharges in risk situations and raise the loan limits from the Consolidated Revenue Fund from \$1.5 billion to \$3 billion. The Government is of the opinion that, based on current information, this restructuring will allow CDIC, over time, to eliminate its deficiency without budgetary support from the Government.

The Canada Mortgage and Housing Corporation administers the Mortgage Insurance Fund (MIF). The MIF provides insurance for mortgage lending on Canadian housing by private institutions. Insurance in force at March 31, 1989 was \$45,600 million (\$42,800 million at March 31, 1988). The MIF had income for the year ended March 31, 1989 of \$179 million (\$157 million in 1988). The deficiency of the MIF at March 31, 1989 was \$82 million (\$261 million at March 31, 1988). Budgetary financial assistance is provided by the Government only to the extent that internally generated funds are insufficient to support cash outflows. In this regard, the MIF's recent excess of receipts over disbursements has resulted in investments in securities of \$511 million at March 31, 1989 (\$343 million in 1988).

The Export Development Corporation provides export and foreign investment insurance for the purpose of facilitating and developing export trade. Insurance in force at March 31, 1989 was \$3,496 million (\$3,160 million in 1988). The Corporation's premium revenues have been adequate to provide for the full costs of claims experienced to date and to establish an allowance for possible future claims based on past claims experience.

This information has not been audited since the information provided is derived from interim financial statements of the three corporations. The most recent annual financial statements of these corporations and their insurance funds can be found in Volume III of the Public Accounts. Details of the transactions for these three insurance programs for the year ended March 31, 1989 can be found in Section 11 of this volume.

18. Contingent Liabilities of the Government of Canada

A contingent liability is a potential liability which may become an actual liability when one or more future events occurs or fails to occur. The contingent liabilities of the Government consist of explicit guarantees and potential losses arising from pending and threatened litigation relating to claims and assessments in respect of breach of contract, damages to persons and property, and like items.

The Government has 6 comprehensive native land claims under negotiation which is the maximum number that may be negotiated at any one time. An additional 19 comprehensive native claims have been validated and are awaiting negotiation. A total of 78 specific native claims were also at various stages of the negotiation process as at March 31, 1989. A further 156 specific claims were under review to determine their acceptability for negotiation pursuant to the provisions of the policy on specific claims. The amount of claims for land, financial and other benefits cannot be determined, therefore no amount for such claims is included in contingent liabilities. Failure to reach an acceptable agreement could lead to future litigation cases which would then be reported as contingent liabilities.

The contingent liabilities of the Government as at March 31, 1989 amounted to \$9,241 million and are summarized in the following table:

	(in millions of dollars)	
	1989	1988
i) Explicit guarantees by the Government:		
Borrowings by non-agent Crown corporations	111	
Borrowings by other than Crown corporations	4,902	4,409
Insurance programs of the Government	1,427	1,396
Other explicit guarantees ⁽²⁾	161	286
ii) Pending and threatened litigation ⁽³⁾	2,751	2,534
	9,241	8,625

Details can be found in Section 11 of this volume.

⁽¹⁾ Less than \$500,000.

⁽²⁾ A letter of comfort has been issued with respect to credit grain sales by the Canadian Wheat Board. The letter states that the Government will assume responsibility for the liabilities arising from defaults in payment by countries purchasing Canadian grain on credit. Receivables under this guarantee amounted to approximately \$3.7 billion at March 31, 1989.

⁽³⁾ Includes \$1.5 billion (\$1.6 billion in 1988) related to native statutory and treaty obligations. This amount represents plaintiffs' claims in 60 (54 in 1988) litigation cases. There are another 120 (89 in 1988) similar cases, for which amounts are not stated in the claims, and for which it is not possible to determine the amounts of contingent liabilities.

OPINION OF THE AUDITOR GENERAL ON THE FINANCIAL STATEMENTS OF THE GOVERNMENT OF CANADA

I have examined the statement of assets and liabilities of the Government of Canada as at March 31, 1989 and the statement of revenue and expenditure and accumulated deficit and the statement of transactions for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary to enable me to report as required by Section 6 of the Auditor General Act.

In my opinion, these financial statements present information in accordance with the stated accounting policies of the Government of Canada as set out in Note 1 to the financial statements applied, except for the change in allocation of tax refunds described in Note 4(ii), on a basis consistent with that of the preceding year. However, in my opinion, because of the stated accounting policies that I consider inappropriate as outlined in Reservations 1, 2 and 3, these financial statements do not present fairly the financial position of the Government as at March 31, 1989 and the results of its operations and its financial requirements for the year then ended.

Reservation 1: Failure to Provide for Crown Corporation Borrowings

In accordance with the accounting policy stated in Note 1(vii), amounts receivable from sovereign states are not reduced in value unless a state has formally repudiated its debts. The Government has used this accounting policy in determining whether assets of agent Crown corporations have sufficient value to repay corporate borrowings. If borrowings exceed a corporation's ability to repay, a liability is recorded by the Government under the accounting policy in Note 1(i). The purpose of this policy is to recognize corporate borrowings that the Government will likely have to repay.

As described in Note 13, the Canadian Wheat Board, an agent Crown corporation, has borrowed \$3.7 billion mainly to finance accounts receivable from sales of grain. The receivables include \$3.2 billion from countries that are experiencing difficulties in repaying their debts. In my view, the value of these receivables has been impaired by at least \$1.5 billion, putting the Government at risk for at least this amount. However, application of the accounting policy stated in Note 1(vii) does not result in this risk being recognized because the countries that owe money to the Board have not formally repudiated their debts.

I believe that an appropriate allowance for Canadian Wheat Board borrowings should be recorded by the Government. If this were done, reported liabilities and accumulated deficit would be increased by at least \$1.5 billion (\$1.3 billion in 1988).

Reservation 2: Failure to Include Crown Corporations in the Government Reporting Entity

As described in Note 1(i), the assets, liabilities, revenues and expenditures reported in the separate financial statements of Crown corporations are excluded from the figures shown on the face of the accompanying statements of assets and liabilities, revenue and expenditure and accumulated deficit, and transactions of the Government of Canada. As a result, the Government's financial statements do not provide a comprehensive and complete summary of the full nature and extent of the financial affairs and resources for which the Government is responsible.

In November 1988, the Canadian Institute of Chartered Accountants' Public Sector Accounting and Auditing Committee (PSAAC) issued Accounting Statement 4, "Defining the Government Reporting Entity". This Statement recommended an approach to accounting for government organizations that, if implemented, would make the Government's financial statements more comprehensive and complete. Note 8 gives a condensed presentation of the Government's financial statements prepared in this manner.

If the Government's financial statements were prepared as recommended in PSAAC's Accounting Statement 4, the following adjustments would be required:

	Increase (decrease) in billions of dollars	
	1989	1988
Financial assets	5.8	4.6
Liabilities	0.3	0.2
Accumulated deficit	(5.5)	(4.4)
Revenue	1.1	0.3
Expenditure	-	(0.1)
Deficit	(1.1)	(0.4)

These adjustments do not include provision for sovereign debt risk for either the Canadian Wheat Board (see Reservation 1 above) or the Export Development Corporation (see my audit opinion on the corporation's 1988 financial statements).

Reservation 3: Unrecorded Liabilities

In accordance with the accounting policy stated in Note 1(v) and as disclosed in Note 12, financial obligations in respect of indexing employee pensions are not fully recorded in the accompanying statements of assets and liabilities, revenue and expenditure and accumulated deficit, and transactions of the Government of Canada.

In November 1988, PSAAC issued Accounting Statement 5, "Accounting for Employee Pension Obligations in Government Financial Statements". This Statement recommended an approach to accounting for employee pension obligations that, if implemented, would result in financial obligations in respect of indexing being fully recorded in the Government's financial statements.

If the full amount of employee pension obligations were recorded as recommended in PSAAC's Accounting Statement 5, reported liabilities and accumulated deficit would be increased significantly.

Additional information and comments on the financial statements and this opinion are included in my observations in Chapter 2 of my annual Report to Parliament.

Revenue by main classification and source	3.3
Tax revenue	3.6
Non-tax revenue	3.6

BUDGETARY REVENUE

Budgetary revenue consists of all tax and non-tax receipts which affect the annual deficit or surplus of the Government of Canada.

The Government generally reports revenue in the year in which it is received. Refunds of revenue are allocated to the year in which the obligations for refund, as determined by the completion of manual assessment, and commencement of the mechanical processing cycle, occur.

Revenue is reported net of refunds, and excludes amounts receivable, taxes collected on behalf of provinces and territories, and amounts credited to the Canada Pension Plan Account, superannuation accounts, other specified purpose accounts, and other liability accounts.

Revenue for a fiscal year includes receipts credited to the Receiver General by the Bank of Canada and the chartered banks by March 31st, and amounts received in federal government offices by March 31st, but not deposited until April or not credited to the Receiver General until April. Revenue also includes amounts received in the mail on the first working day of April, except where it is clear that it was the remitter's intention to discharge an obligation arising in the new fiscal year.

The main factors affecting the flow of tax revenue are variations in economic conditions, changes in statutory tax rates, and changes in the base upon which the statutory tax rates are applied and taxes are calculated. Although a taxpayer's income tax liability relates to a taxation year, advance collection of individual and corporation income taxes by payroll deductions and instalment payments results in a distribution of receipts throughout the year. Similarly, sales and excise taxes and duties are received on a regular basis throughout the year.

Budgetary Revenue in 1988-89

Total net budgetary revenue from outside parties increased by 6.7% or \$6,529 million, to \$103,981 million in 1988-89. Tax revenue, which accounts for almost 93% of total revenue increased by \$5,900 million or 6.5%, while non-tax revenue increased by \$629 million or 9.4%.

The growth in budgetary revenue in 1988-89 reflects a combination of factors. The continued strength in economic activity throughout 1988 translated into an expansion of the underlying tax bases and an increase in tax revenue. The impact of fiscal and cash management initiatives introduced in past budgets, particularly the acceleration of sales and excise tax payments and the extension of the federal sales tax to telecommunication services, also contributed to the growth in budgetary revenue. The impact of these factors was offset in part by the statutory rate reductions associated with personal and corporate income tax reform.

Personal income tax revenue, which accounts for almost 44% of total budgetary revenue, increased by only 2.0% (\$901 million) in 1988-89. Despite significant gains in employment and incomes in 1988 and the ongoing impact of past budget measures, which were designed in part to restore the revenue yield from the tax system, the growth in personal income tax revenue slowed considerably in 1988-89. This slowdown largely reflected the reductions in personal income taxes associated with income tax reform. In addition, the year-over-year growth rate was dampened by the inclusion in the 1987-88 results of the \$1.2 billion one-time increase in personal income tax revenue associated with the January 1988 source deduction acceleration initiative.

Corporation income tax collections increased by 7.8% to \$11,730 million in 1988-89. This increase reflected the continued strength in corporate profits, which advanced by 10.7% in 1988, and the impact of corporate income tax reform which was designed to raise overall corporate income taxes. The influence of these factors was dampened somewhat by the continued application of unused losses and deductions carried over from previous years.

In 1988-89, unemployment insurance contributions increased 8.1%, reaching a level of \$11,268 million. Although the unemployment insurance premium rate remained unchanged in 1988 and declined in 1989, this was offset by the increases in employment and incomes throughout 1988. In addition, adjustments related to the 1987 taxation year also impacted positively on the 1988-89 results.

Non-resident income taxes increased 35.8% in 1988-89, reaching a level of \$1,578 million or 1.5% of total revenue. The increase in non-resident income taxes reflected several one-time large dividend payouts made by Canadian companies to foreign shareholders, as well as increased interest payments to non-residents.

Sales and excise taxes and duties increased by 12.3% to \$25,771 million in 1988-89, accounting for about 43% of the increase in total budgetary revenue. More than one-half of the increase in sales and excise taxes and duties in 1988-89 was due to the one-time increase in revenue associated with the acceleration of sales and excise tax remittances from large firms. This measure, which was announced in the June 1987 White Paper on Tax Reform, affected companies' cash flow only and had no direct effect on consumers. The extension of the federal sales tax to telecommunication services, effective January 1988, together with the strength in consumer and business expenditures, also contributed to the growth in sales and excise taxes and duties. The impact of these factors was offset somewhat by the loss of customs import duties associated with the phase-in of the Canada-United States Free Trade Agreement.

Non-tax revenue increased by 9.4% to \$7,343 million in 1988-89. The increase in non-tax revenue was attributable largely to higher Exchange Fund Account profits. The year-over-year growth rate was also influenced by the inclusion of the net proceeds from the sale of Teleglobe Canada in the 1987-88 results.

Revenue by Main Classification and Source

Table 3.1 presents revenue by main classification and source on both a gross and net basis and segregates revenue internal to the Government from revenue received from outside parties. The difference between gross and net revenue is revenue credited to appropriations.

In this table, revenue from outside parties represents revenue received from organizations and individuals outside the Government of Canada as an accounting entity while revenue internal to the Government represents revenue generated from transactions between organizations within the accounting entity. The Government of Canada as an accounting entity is defined in Note 1 to the audited financial statements in Section 2 of this volume.

Revenue credited to appropriations represents revenue that has been credited to expenditure rather than to revenue where authority has been granted by Parliament.

"Total net revenue" represents all budgetary revenue recorded in the accounts of Canada in accordance with the accounting policies of the Government. "Total gross revenue" is derived by adding to "Total net revenue" all "Revenue credited to appropriations".

Tax Revenue

The major tax changes which had an effect on the tax revenue for 1988-89 are described at the beginning of this section under the caption "Budgetary Revenue in 1988-89".

Personal Income Tax

This tax is levied on personal income under the provisions of the Income Tax Act.

In 1988-89, personal income tax was the largest source of Government revenue. It amounted to \$46,026 million, or 44% of total net revenue.

Corporation Income Tax

This tax is levied on corporation income under the provisions of the Income Tax Act.

Corporation income tax amounted to \$11,730 million in 1988-89, or 11% of total net revenue.

Unemployment Insurance Contributions

This account records the contributions from employers and employees to the Unemployment Insurance Account.

Non-Resident Income Tax

The non-resident income tax is levied on the income earned in Canada by non-residents. It is derived from tax withheld from dividends, interest, rents, royalties, alimony, and income from estates and trusts, paid to non-residents. It amounted to \$1,578 million in 1988-89, or 2% of total net revenue.

Excise Taxes and Duties

Excise taxes and duties totalled \$25,771 million in 1988-89, or 25% of total net revenue.

Sales tax

The sales tax, totalling \$15,645 million in 1988-89, was the most important tax levied under the Excise Tax Act.

Customs import duties

The revenues from customs import duties, consisting mainly of ad valorem taxes on the importation of goods, totalled \$4,521 million in 1988-89.

Excise duties

Excise duties, which totalled \$1,453 million in 1988-89, are levied on alcoholic beverages (other than wines) and tobacco products. (Additional taxes on tobacco products and taxes on wines are levied under the Excise Tax Act.)

Excise tax—Gasoline

Net receipts from the excise tax—Gasoline were \$2,174 million in 1988-89. Under certain conditions, the amounts received may be refunded to purchasers. As of March 31, 1989, \$2,221 million was received, and \$47 million was refunded and charged to revenue.

Petroleum and gas revenue tax

The petroleum and gas revenue tax came into effect on January 1, 1981, and was applicable to net operating revenues related to the production of oil and gas. The petroleum and gas revenue tax was eliminated effective October 1, 1986.

Aviation gas and diesel fuel

This tax, which came into effect during 1985-86, is imposed on diesel fuel and aviation turbo fuel.

Non-Tax Revenue

Return on Investments

Return on investments consists mainly of interest from loans and advances, transfer of profits and surpluses, and rental income from properties.

Return on investments is summarized in Table 3.2. Commencing in 1986-87, the presentation of this table has been changed to agree the total ministerial return on investments amount as reported in Table 6 in Section 1 of Volume II (Part I) to the amount as reported in Table 3.1. The reconciling items include an adjustment to the Exchange Fund Account to reflect the net income of the account from January 1, 1989 to March 31, 1989, and the interest on loans to the Unemployment Insurance Account, the Western Grain Stabilization Account, and the interest on the Agricultural Commodities Stabilization Accounts. The return on investments internal to the Government has been deducted from the total net return on investments to obtain the total net return on investments from outside parties. Revenue credited to appropriations from outside parties has been added to the latter to obtain total gross return on investments from outside parties.

BUDGETARY EXPENDITURE

Budgetary expenditure consists of all charges to budgetary appropriations which affect the annual deficit or surplus of the Government. Such charges include those for work performed, goods received, services rendered, and transfer payments made, during the year and in the supplementary period including accounts payable at year end. In addition, budgetary expenditure may also include charges related to the provision for valuation of loans, investments and advances, the allowance for borrowings of agent Crown corporations, and accounts payable and other allowances related to statutory items and certain annual appropriations. As well, net expenditures of the Unemployment Insurance Account, the Western Grain Stabilization Account, the Crop Reinsurance Fund, the Agricultural Commodities Stabilization Accounts and other specified purpose accounts are also included.

Budgetary expenditure excludes amounts charged to the Canada Pension Plan Account, superannuation accounts, other specified purpose accounts, and other liability accounts.

Budgetary Expenditure in 1988-89

Total net budgetary expenditure with outside parties increased 5.7% to \$132,715 million in 1988-89, compared to an increase of 7.9% in 1987-88. All of the slowdown in the rate of growth in 1988-89 was attributable to program spending, which advanced by only 3.1%, compared to an increase of 7.6% in 1987-88. In contrast, the rate of growth in public debt charges accelerated sharply.

Public debt charges, which account for 25% of total Government spending, increased \$4,155 million, or 14.3%, to \$33,183 million in 1988-89. In 1987-88, public debt charges rose \$2,370 million or 8.9%. The increase in public debt charges in 1988-89 reflects both the increase in the stock of debt and the impact of higher interest rates throughout 1988-89. The strong economic growth witnessed in 1988 was accompanied by increasing inflationary pressures resulting from the tightening of labour and product markets. These pressures, in turn, lead to a substantial rise in interest rates. The compounding effects of these higher interest rates on debt servicing costs resulted in the substantially higher public debt charges in 1988-89.

Total program spending — that is — total Government spending excluding public debt charges — advanced 3.1% to \$99,532 million. This is less than half the increase recorded in 1987-88. Most of the slowdown in the rate of growth in program spending related to the timing of special ad hoc assistance payments to grain farmers as well as to the impact of the various restraint measures that the Government has introduced since November 1984. These measures included the phasing-out and reduction of various expenditure programs, limits on indexation, reductions in the number of person-years and other actions taken to control direct operating costs. Most of the increases during the year were in the areas of direct social assistance transfers to individuals and fiscal transfers to provinces.

The Social Development envelope accounts for about 60% of program spending. A major portion of spending in this envelope is formula-funded or demand-driven, with changes reflecting developments in economic activity and the underlying population bases. In 1988-89, spending increased 4.3%,

slightly above the increase recorded in 1987-88. Over two thirds of the advance in spending in 1988-89 was due to higher payments under old age security, unemployment insurance and the Canada Assistance Plan. The increase in old age security benefits reflects higher benefits, which are indexed to quarterly changes in the consumer price index, and an increase in the eligible population. Although the number of unemployed declined in 1988, increases in average benefits resulted in higher unemployment insurance payments. The inclusion of adjustments for prior years, coupled with increases in case-loads and in benefit rates, contributed to the higher Canada Assistance Plan payments. Although total entitlements under Established Programs Financing increased by 5.6% in 1988-89, the strength in the economy and the accompanying effect on the tax bases resulted in an increase in the value of tax points, which significantly moderated the growth in direct cash transfers.

Spending decreased by 6.3% in the Economic and Regional Development envelope, after advancing by 20.7% in 1987-88. Most of this decline is due to the timing of assistance payments to grain farmers. The sharp drop in world grain prices in 1986, largely provoked by the subsidy conflict between the United States and the European Economic Community countries, triggered large payments under the Western Grain Stabilization Account in 1987-88. For 1988-89, payments under the Western Grain Stabilization Account were somewhat lower than in 1987-88, given the payout formula of the program. In addition, the Government introduced the Special Canadian Grains Program as an income support program to farmers most severely hit by the lower grain prices. For the 1986 and 1987 crop years, total payments amounted to \$2.1 billion, of which \$1.5 billion was paid in fiscal year 1987-88. Although there was no Special Canadian Grain Assistance Program for the 1988 crop year, the Government did announce, in the fall of 1988, the Canadian Crop Drought Assistance Program, designed to assist those farmers hit hard by the 1988 drought. However, as most of the payments out of this program will be made in 1989-90, there was a net decline in ad hoc assistance payments in 1988-89, as compared to the record levels in 1987-88. Spending increases included higher spending on energy subsidies, science and technology, and regional spending.

Defence spending was projected to grow by 2% in real terms. However, the timing of capital expenditures in 1988-89 and the inclusion of extraordinary adjustments in 1987-88, restrained the increase to 2.4% in 1988-89.

The increase in the Fiscal Arrangements envelope of 16.0% in 1988-89 was due largely to higher equalization payments. This largely reflects the impact of robust economic growth on overall provincial revenues which had the effect of raising the five-province standard used in the equalization formula.

Spending in the Services to Government envelope declined in 1988-89 by 1.1% to \$4,149 million. Part of this decline was due to lower subsidies to the Canada Post Corporation as well as to the continuing impact of restraint measures on Government operations.

The External Affairs and Aid envelope rose by 3.5%. This increase is consistent with Canada's commitment to increase its Official Development Assistance in 1988-89 in line with the growth of the economy.

Expenditure by Envelope

Under the Policy and Expenditure Management System, the Government manages the resources available to it by "envelope". Each envelope represents the resources allocated to a particular policy sector for all elements of ministerial spending relating to that sector.

Expenditure by Envelope and Source

Table 4.1 presents the expenditure by envelope and source. The table is presented on both a gross and net basis and segregates expenditure with outside parties from expenditure internal to the Government. The difference between gross and net expenditure is revenue credited to appropriations.

In this table, expenditure with outside parties represents expenditure incurred as a result of transactions with organizations and individuals outside the Government of Canada as an accounting entity. Expenditure internal to the Government represents expenditure incurred as a result of transactions between organizations within the accounting entity. The Government of Canada as an accounting entity is defined in Note 1 to the audited financial statements in Section 2 of this volume.

Revenue credited to appropriations represents revenue that has been credited to budgetary expenditure rather than budgetary revenue where such authority has been granted by Parliament.

^[3] Additional information is provided in Table 4 in Section 1 of Volume II (Part I).

"Total net expenditure" represents all budgetary expenditure recorded in the accounts of Canada in accordance with the accounting policies of the Government. "Total gross expenditure" is derived by adding to "Total net expenditure" all "Revenue credited to appropriations".

SUPPLEMENTARY STATEMENTS

Public Debt Charges

Public debt charges include interest on unmatured debt (including Canada and Treasury bills), on specified purpose accounts and on other accounts, cost of issuing new loans, amortization of bond discounts, premiums and commissions, and the costs of servicing the public debt.

The increase of \$3,458 million in public debt charges related to unmatured debt is commensurate with an increase in the debt, which rose from \$252,058 million at March 31, 1988 to \$277,624 million at March 31, 1989. The increase of \$689 million in public debt charges related to specified purpose accounts was due mainly to an increase in the balances of superannuation accounts.

A comparative summary of public debt charges is presented in Table 4.3. Commencing in 1986-87, changes in the presentation of the table have been made in order to disclose in greater detail the consolidated specified purpose accounts and the reconciling items between total public debt charges as reported in the Finance ministerial section (Section 10) of Volume II (Part I) and the total net expenditure of the public debt envelope as per Table 4.1. The reconciling items include the expenditure of the consolidated specified purpose accounts. Expenditure internal to the Government has been deducted from the total net expenditure of the public debt envelope to obtain the total net expenditure with outside parties. Since no portion of revenue credited to appropriations applies to the public debt envelope, the total gross public debt envelope is identical to the total net public debt envelope.

Expenditure under Statutory Authority

The spending authority provided by statutory appropriations is for specified purposes and for such amounts and such time as the acts prescribe. This spending authority does not generally lapse at the end of the year in which it is granted. Expenditure under such authority accounts for more than half of the total net expenditure each year.

Table 4.4 presents a comparative summary of these statutory expenditures. Commencing in 1986-87, changes in the presentation of the table have been made in order to disclose the

reconciling items between the total ministerial expenditure under statutory authority and the total net statutory expenditure. The reconciling items include the statutory expenditure of the consolidated specified purpose accounts and the provision for valuation. Expenditure internal to the Government has been deducted from the total net statutory expenditure to obtain the total net statutory expenditure with outside parties. Revenue credited to appropriations from outside parties has been added to the latter to obtain the total gross statutory expenditure with outside parties.

CONSOLIDATED SPECIFIED PURPOSE ACCOUNTS

Consolidated specified purpose accounts are categories of budgetary revenue and expenditure which report transactions of certain accounts where enabling legislation requires that revenues be earmarked, and that related payments and expenditures be charged against such revenues. Such accounts collect primarily receipts of a tax nature, and include: the Unemployment Insurance Account, the Canadian Ownership Account, the Western Grain Stabilization Account, the Crop Reinsurance Fund, the Agricultural Commodities Stabilization Accounts and other specified purpose accounts.

In the past, earmarked revenues were credited to non-budgetary accounts, with related offsetting payments and

expenditures charged thereto. Commencing with 1985-86 (1984-85 for the Canadian Ownership Account), the transactions of these accounts are reported with budgetary revenue and expenditure, in order to provide a more comprehensive reporting of the Government's operating results.

Further, enabling legislation requires that the transactions in each of these accounts be accounted for separately. Table 5.1 presents a summary of the balances and transactions of these accounts, in the manner required by legislation.

The financial statements of the Unemployment Insurance Account, together with the Auditor General's report thereon, are presented at the end of this section.

Unemployment Insurance Account

The Unemployment Insurance Act provides for a compulsory contributory unemployment insurance program applicable to all employees, with few exceptions.

The Act authorizes an account in the accounts of Canada to be known as the Unemployment Insurance Account.

The Act provides that the following be credited to the Account: (a) premiums, fines, penalties and interest; (b) Government share of benefits paid; (c) refunds of overpayments of benefits, and benefit repayments; (d) amounts for services

rendered to other Government departments or agencies, or to the public; (e) amounts provided for any other purpose related to unemployment insurance and authorized by an appropriation administered by the Canada Employment and Immigration Commission; and, (f) interest on the balance of the Account at such rates as the Minister of Finance may authorize. The Act also provides that the following be charged to the Account: (a) benefits paid under the Act; (b) costs of administering the Act; and (c) interest on advances made by the Minister of Finance.

Maximum weekly employee premiums were \$13.28 from April 1, 1988 to December 31, 1988 and \$11.80 from January 1, 1989 to March 31, 1989. For the same periods, maximum weekly benefits were \$339 from April 1, 1988 to December 31, 1988 and \$363 from January 1, 1989 to March 31, 1989.

Interest-bearing loans are made to the Unemployment Insurance Account, under Section 119(1) of the Unemployment Insurance Act, as a result of deficiencies in contributions from employers and employees. During the year, all outstanding loans were repaid.

Balance at end of year	-27	-235

* Included in employee and employer contributions is \$256 million (\$260 million in 1987-88) from the Government as contribution for employees.

Within the Statement of Revenue and Expenditure and Accumulated Deficit, receipts and other credits of \$11,268 million (\$10,425 million in 1988) are reported as revenue, while payments and other charges of \$11,596 million (\$11,206 million in 1988) are reported as expenditure.

Receipts and other credits of \$2,687 million (\$3,122 million in 1988) and payments and other charges of \$2,150 million (\$2,286 million in 1988), internal to the operations of the Government, have been eliminated in order to present transactions with outside parties, only.

Canadian Ownership Account

This account was established under the authority of Energy, Mines and Resources Vote 5c, Appropriation Act No 4, 1980-81. The account was credited with amounts received from the Canadian Ownership special charge levied to increase public ownership of the oil and gas industry in Canada.

The special charge was cancelled due to deregulation on June 1, 1985. Therefore, any transactions since then are as a result of adjustments due to audits.

Within the Statement of Revenue and Expenditure and Accumulated Deficit, receipts and other credits of -\$1 million (\$6 million in 1988) are reported as revenue.

Western Grain Stabilization Account

The purpose of the Western Grain Stabilization Act is to protect prairie grain producers from unexpected and large income declines, through the stabilization of returns on the production and sale of wheat, oats, barley, rye, domestic mustard seed, canola, flax seed, triticale, mixed grain, sunflower seed, safflower seed, buckwheat, peas, lentils, fatabeans and canary seed as well as any other prescribed seed that is produced in the designated area and is a grain for which a grade has been established and designated as "Canada Western" by regulation under the Canada Grain Act.

This account records funds for this purpose which are received from:

- levies paid by participating producers—a levy rate ranging from 2% to 4% applied to a participant's grain sales proceeds not exceeding \$60,000 per year;
- Government contributions equal to levies paid by producers plus an additional 2% of the participating eligible grain sales proceeds of all participants on which levy has been paid by participants;
- interest on the amount standing to the credit of the Account at rates and in accordance with terms and conditions determined by the Minister of Finance; and,
- pursuant to Section 45 of the Western Grain Stabilization Act advances can be made from the Consolidated Revenue Fund when the balance in the Account is not sufficient for the payment of stabilization payments and other amounts required to be charged to the Account pursuant to Section 44 of the Western Grain Stabilization Act.

Section 24 of the Western Grain Stabilization Act, as amended, states: Notwithstanding section 44 of the said Act, \$750,000,000 of advances to the credit of the Stabilization Account under subsection 44(1) of the said Act are forgiven and written off from the accounts of Canada as a budgetary expenditure and shall be deleted from those accounts.

During the year, the Account was advanced \$654,558,819 and \$750,000,000 was forgiven. Interest on each advance is calculated quarterly at the rate in respect of borrowings by Crown corporations having a one year amortization period. The repayment period for each advance shall not exceed a term of one year.

Within the Statement of Revenue and Expenditure and Accumulated Deficit, receipts and other credits of \$201 million (\$30 million in 1988) are reported as revenue, while payments and other charges of \$954 million (\$1,396 million in 1988), are reported as expenditure.

Receipts and other credits of \$3,400 million (\$1,597 million in 1988), and payments and other charges of \$2,638 million (\$95 million in 1988), internal to the operations of the Government, have been eliminated in order to present transactions with outside parties, only.

Crop Reinsurance Fund

This Fund, established by Section 6(1) of the Crop Insurance Act, provides insurance to participating provinces for costs they incur in operating various crop insurance schemes.

The revenue of the Fund comes from moneys paid by the provinces for the purpose of reinsurance and the expenditure of the Fund are moneys paid to the provinces under the terms of reinsurance agreements.

Within the Statement of Revenue and Expenditure and Accumulated Deficit, receipts and other credits of \$43 million (\$39 million in 1988) are reported as revenue, while payments and other charges of \$3 million (\$1 million in 1988) are reported as expenditure.

Agricultural Commodities Stabilization Accounts

The purpose of these accounts is to reduce income loss to producers from market risks through stabilizing prices. Premiums are shared equally by the Government of Canada, the governments of participating provinces and participating producers. These premiums should equal the total paid over time. There are several active accounts as follows:

- (a) hogs;
- (b) slaughter cattle;
- (c) feeder calves;
- (d) lambs;
- (e) apples;

- (f) white beans;
- (g) other dry edible beans;
- (h) sugar beets;
- (i) honey; and,
- (j) onions.

These accounts were established in the accounts of Canada, pursuant to Section 13.1 of the Agricultural Stabilization Act.

Within the Statement of Revenue and Expenditure and Accumulated Deficit, receipts and other credits of \$90 million (\$75 million in 1988) are reported as revenue, while payments and other charges of \$244 million (\$3 million in 1988) are reported as expenditure.

Receipts and other credits of \$90 million (\$42 million in 1988) and payments and other charges of \$2 million (nil in 1988), internal to the operations of the Government, have been eliminated in order to present transactions with outside parties, only.

Other Specified Purpose Accounts

This group records consolidated specified purpose accounts not classified separately since they are not material by themselves.

Within the Statement of Revenue and Expenditure and Accumulated Deficit, receipts and other credits of \$0.1 million (\$1 million in 1988) are reported as revenue, while payments and other charges of \$0.2 million (\$2 million in 1988) are reported as expenditure.

There are no receipts and other credits in 1989 (\$2 million in 1988), internal to the operations of the Government, eliminated in order to present transactions with outside parties, only.

SUPPLEMENTARY STATEMENT

Canada Employment and Immigration
Commission relating to the Unemployment
Insurance Account

AUDITOR'S REPORT

TO THE MINISTER OF EMPLOYMENT AND IMMIGRATION

I have examined the balance sheet of the Canada Employment and Immigration Commission relating to the Unemployment Insurance Account as at December 31, 1988 and the statement of revenue, expenses and surplus for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Commission relating to the Unemployment Insurance Account as at December 31, 1988 and the results of its operations for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements applied on a basis consistent with that of the preceding year.

Kenneth M. Dye, F.C.A.
Auditor General of Canada

Ottawa, Canada
July 28, 1989

BALANCE SHEET AS AT DECEMBER 31, 1988
(in thousands of dollars)

Surplus (deficit) at end of the year	<u>355,790</u>	<u>-2,368,274</u>

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1988

1. Authority and objective

The Canada Employment and Immigration Commission, a departmental corporation named in Schedule II to the Financial Administration Act, administers the Unemployment Insurance Act. The objective of the Act is to provide short-term financial relief and other assistance to eligible workers. The financial transactions relating to this objective are reported through the Unemployment Insurance Account.

In the accounts of Canada, the Unemployment Insurance Account was established by Section 112 of the Act. All amounts received under this Act are deposited in the Consolidated Revenue Fund and credited to this Account. Benefits and the cost of administration of the Act are paid out of the Consolidated Revenue Fund and charged to this Account.

Under Part III of the Act, the Minister of National Revenue is responsible for collecting premiums from employers and employees.

The Minister of National Revenue is also responsible, under Part VII of the Act, to administer and enforce the provisions of the Act relating to Benefit repayments.

2. Accounting policies

(a) Premiums

The premiums are recorded based on an estimate of the amount to be collected in the current year and include adjustments between actual and estimated premiums of prior years.

(b) Penalties

Penalties, levied pursuant to Section 33 of the Act, are recorded on an accrual basis.

(c) Benefits

Benefits represent the warrants issued during the year less benefit overpayments established by the Commission during the year and benefit repayments estimated to be receivable under Section 123 of the Act including adjustments between actual and estimated repayments of prior years.

(d) Administration

The costs of administration of the Act are determined by the Unemployment Insurance Regulations and are charged to the Account by the Commission.

(e) Interest

Interest on the balance of the account with the Receiver General for Canada and interest on advances from Canada are recorded on an accrual basis.

(f) Government's share of benefits

The government's share of benefits is recorded on an accrual basis.

3. Due from claimants

	1988	1987
	(in thousands of dollars)	
Benefit overpayment and penalties	162,435	136,684
Less: allowance for doubtful accounts	44,631	34,040
	<u>117,804</u>	<u>102,644</u>
Estimated benefit repayments under Section 123 of the Act	30,498	29,649
	<u>148,302</u>	<u>132,293</u>

Uncollectable benefit overpayments and penalties written-off during the year under authority of Section 60(2) of the Regulations amounted to \$6.7 million (1987—\$5.9 million).

Canada Employment and Immigration Commission relating to the Unemployment Insurance Account—Continued

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1988—Continued

4. Due from (to) Canada

	1988	1987
	(in thousands of dollars)	
Government's share of benefits	4,756	8,572
Premiums	54,619	-34,231
Interest on balance of the account with Receiver General for Canada	2,072	631
Administration expenses	3,125	-23,833
Benefit repayments	111	177
Other	-205	-57
	64,478	-48,741

5. Advances from Canada

Advances from Canada were made under Section 119 of the Act and the Unemployment Insurance Account Advance Regulations, by means of promissory notes which bear annual interest compounded semi-annually at varying rates. As at December 31, 1988, all advances from Canada had been repaid.

6. Premiums

In 1988, the premium rate for employees was \$2.35 per \$100 of insurable earnings, the same as the 1987 rate. The premium rate for the employers, calculated at 1.4 times the employee rate, also remained unchanged at \$3.29 per \$100 of an employee's insurable earnings.

Employers with qualified wage loss insurance plans are entitled to premium reductions. Employers are required to share this reduction with their employees. In 1988, the total amount of premium reductions is estimated at \$426 million (\$389 million in 1987).

7. Overpayments and underpayments of benefits

The large number of claimants to be monitored and the requirement for prompt service require selective internal control procedures rather than universal and, therefore, the verification of claims is mainly done after claimants have begun to receive benefits.

As a result, overpayments and underpayments of benefits exist which the Commission estimated at \$344 million (\$342 million in 1987) and \$141 million (\$101 million in 1987) respectively. These amounts are included in the benefits for the year.

8. Administration costs

The actual administration costs of the Commission are calculated on a fiscal year basis (April 1 to March 31). For purposes of charging the Account on a calendar year basis, applicable administration costs are apportioned as 9/12 of the amount for the current fiscal year plus 3/12 of the amount for the previous fiscal year. The administration costs calculated in this way totalled \$975 million in 1988 (\$968 million in 1987). This amount was offset by approximately \$7 million (\$6 million in 1987) for the recovery of costs related to maintaining the Social Insurance Number registry and issuing replacement cards.

9. Contingent liabilities

In the normal course of the operations of the Unemployment Insurance Account, certain appeals against or by the Commission are presently outstanding. In the opinion of management, the result of these appeals will not have a significant impact on the operations of the Unemployment Insurance Account.

10. Subsequent events

On June 1, 1989, the Minister of Employment and Immigration Canada tabled Bill C-21, an Act to amend the Unemployment Insurance Act and the Employment and Immigration Department and Commission Act. The Bill received second reading and was referred to Committee on June 21, 1989.

The proposed legislation eliminates the government's share of benefits and affects various provisions of the U.I. program, including entrance requirements, benefits and imposition of penalties. This proposed legislation is scheduled for implementation January 1, 1990.

Canada Employment and Immigration Commission relating to the Unemployment Insurance Account—Concluded

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1988—Concluded

SCHEDULE OF BENEFITS FOR THE YEAR ENDED DECEMBER 31, 1988 (in thousands of dollars)

	1988		1987	
	Total	Government's share	Total	Government's share
Regular	9,216,704	2,249,358	8,989,012	2,420,871
Maternity	565,775		505,309	
Sickness	316,965		272,167	
Training	237,186	103,010	222,724	106,734
Job creation	102,250	41,092	87,696	37,225
Retirement	19,189		23,112	
Work sharing	16,860		16,955	
Adoption	4,718		4,633	
	10,479,647	2,393,460	10,121,608	2,564,830
Fishing	269,988	248,513	223,180	204,454
Gross benefits	10,749,635	2,641,973	10,344,788	2,769,284
Less: benefit repay- ment	34,123	9,071	18,920	2,737
	10,715,512	2,632,902	10,325,868	2,766,547

In accordance with Section 118 and 130 of the Unemployment Insurance Act, the government's share of benefits consists of extended benefits paid under Section 22, Subsections 25(8) and 26(3), and all benefits paid to fishermen less premiums paid by them and their designated employers.

Extended benefits paid under Section 22 of the Act are benefits paid to claimants who have exhausted their initial benefits (and labour force extended benefits, if they are entitled) and who reside in a region where the regional unemployment rate exceeds four per cent.

Extended benefits under Subsection 25(8) and 26(3) of the Act are benefits paid to claimants on job creation projects or training courses and whose entitlements are not enough to cover the duration of the project or course plus an additional maximum of three weeks of entitlement after the projects or courses end.

LOANS, INVESTMENTS AND ADVANCES

Loans, investments and advances is a category of financial claims represented by debt instruments and ownership interests held by the Government of Canada, acquired through the use of parliamentary appropriations. Some of these appropriations permit repayments to be used for further loans and advances. Many appropriations are non-lapsing, that is, unexpended balances may be carried forward from year to year. Details of the use of non-budgetary appropriations, for loans, investments and advances, can be found in the ministerial sections of Volume II (Part I).

Loans, investments and advances are recorded at cost and are subject to valuation to reflect estimated losses on realization. Foreign currency transactions are translated and recorded in Canadian dollar equivalents at the exchange rates prevailing at the transaction dates. Loans, investments and advances resulting from foreign currency transactions are, in turn, reported at year-end closing rates of exchange; net gains are credited to revenue as premium and discount on exchange, while net losses are charged to budgetary expenditure of the Department of Finance.

The allowance established to reflect estimated losses on realization of financial claims held by the Government has been authorized by the Minister of Finance and the President of the Treasury Board, under Section 63(2) of the Financial Administration Act.

Revenue received during the year on loans, investments and advances, is credited to return on investments; details are given

in Section 11 of Volume II (Part II). In accordance with stated accounting policies, accrued interest and interest due but not received are not reported as revenue. Table 6.23 gives details of recorded uncollected interest.

Transactions and year-end balances of loans, investments and advances are presented as follows:

- Crown corporations;
- provincial and territorial governments;
- national governments including developing countries;
- international organizations;
- Veterans' Land Act Fund advances;
- joint and mixed enterprises; and,
- miscellaneous.

Transactions and balances are further summarized in Sections 1 and 2 of this volume. In addition, Table 6.22 summarizes transactions by type.

Some tables in this section present the continuity of accounts, by showing the opening and closing balances, as well as receipts and other credits, and payments and other charges. In addition, the term "account(s) without current transactions" has been included in some tables, to show the net result of transactions in accounts which were closed out in the previous year.

CROWN CORPORATIONS

Loans and advances to, and investments in, Crown corporations represent the balance of financial claims held by the Government against corporations for working capital, capital expenditure and other purposes, investment in the capital stock of corporations, and loans and advances to corporations for re-lending.

A Crown corporation means a parent Crown corporation or a wholly-owned subsidiary; a parent Crown corporation is wholly-owned directly by the Crown; a wholly-owned subsidiary is wholly-owned by one or more parent Crown corporations directly or indirectly through any number of subsidiaries each of which is wholly-owned directly or indirectly by one or more parent Crown corporations. These include the corporations listed in Parts I and II of Schedule III of the Financial Administration Act, the Bank of Canada, the Canada Council, the Canadian Broadcasting Corporation, the Canadian Film Development Corporation, the Canadian Institute for International Peace and Security, the Canadian Wheat Board, the International Development Research Centre, and the National Arts Centre Corporation.

A Crown corporation is ultimately accountable to Parliament, through a minister of the Crown, for the conduct of its

affairs. Most of the Crown corporations listed in the schedules to the Financial Administration Act are agents of Her Majesty in right of Canada. This status is granted in one of the following ways:

- (i) designation by Parliament, through a special act of incorporation;
- (ii) statutory authorization; and,
- (iii) proclamation by the Government Corporations Operation Act.

Financial statements of parent Crown corporations can be found in Volume III of the Public Accounts. The financial statements of wholly-owned subsidiaries of Crown corporations are also included in that volume whenever their accounts are not consolidated with those of the parent corporation. These financial statements are appended to those of the related parent Crown corporation.

Lending Institutions

Table 6.2 presents a summary of the balances and transactions for the various types of loans, investments and advances which were made to Crown corporations whose primary activity is to provide financial assistance.

Canada Deposit Insurance Corporation

The Corporation was established by the Canada Deposit Insurance Corporation Act, to provide insurance, up to \$60,000 per depositor per institution, on deposits with federal member institutions and approved provincial institutions.

The Corporation is an agent of Her Majesty, reports through the Minister of Finance, and is listed in Part I of Schedule III of the Financial Administration Act.

Section 42 of the Canada Deposit Insurance Corporation Act provides that the Minister of Finance, with the approval of the Governor in Council, may advance to the Corporation amounts by way of loans on such terms and conditions as the Governor in Council may determine. The aggregate of such loans authorized to be outstanding at any time is \$3,000,000,000.

The loans bear interest at rates from 8.915% to 11.757% per annum, and are repayable between April 26, 1989 and July 5, 1991.

During the year, the Corporation paid interest of \$133.7 million to the Government.

Canada Mortgage and Housing Corporation

The Corporation was established by the Canada Mortgage and Housing Corporation Act, to promote the construction of new houses, the repair and modernization of existing houses, the improvement of housing and living conditions in Canada, and to promote the development of communities through the provision of infrastructure facilities.

The Corporation is an agent of Her Majesty, reports through the Minister of Public Works, and is listed in Part I of Schedule III of the Financial Administration Act.

During the year, the Corporation received financial assistance of \$1,597 million from budgetary appropriations. It paid interest of \$806.3 million and transferred \$38.9 million of profit to the Government.

Capital stock

The Government's investment in the capital of the Corporation is authorized by Section 16 of the Canada Mortgage and Housing Corporation Act.

Housing

Advances have been made to enable the Corporation to lend money under the following sections of the National Housing Act:

- (a) Section 24(1)—for rental housing projects on the security of a first mortgage and to sell or purchase loans made on rental housing projects;
- (b) Section 26(1)—to any person to assist in
 - (i) the construction, purchase or improvement of a low-rental housing project;
 - (ii) the purchase of existing buildings and the land upon which they are situated and their conversion into a low-rental housing project; or,

- (iii) the conversion of existing buildings into a low-rental housing project;

- (c) Section 27.5—to municipalities for selected neighbourhoods for the purpose of improving premises within the neighbourhood in respect of which the contribution is made;

- (d) Section 51(1)—

- (i) to the owner of a family housing unit or of housing accommodation of the hostel or dormitory type for the purpose of assisting in the repair, rehabilitation or improvement thereof;

- (ii) to an occupier of a family housing unit for the purpose of assisting in the repair, rehabilitation or improvement thereof; or,

- (iii) to a non profit corporation for the purpose of assisting in the conversion of an existing residential building owned by the corporation, to a building containing a different number of family housing units, housing accommodation of the hostel or dormitory type or a different number of hostel or dormitory beds;

- (e) Section 61(1)—to cooperatives for the purpose of assisting in the construction, acquisition or improvement of a housing project;

- (f) Section 76(1)—to any person that wishes to undertake a project

- (i) for individuals or families of low income; or,

- (ii) to meet the needs of individuals resulting from age, infirmity or other disability;

- (g) Section 80(1)—to provinces, municipalities or public housing agencies to assist in the acquisition and the servicing of land for housing purposes;

- (h) Section 81(1)—to a province, municipality or public housing agency for the construction or acquisition of a public housing project;

- (i) Section 97(1)—to persons to whom a loan is not being made available pursuant to Part I of Section 24, the Corporation may make such a loan subject to the same terms conditions and limitations that exist under Part I of Section 24; and,

- (j) Section 98—to Indians to assist in the purchase, improvement or construction of housing projects on Indian reserves.

During the year, additional advances were authorized by Public Works Vote L60, Appropriation Acts No 1 and No 2, 1988-89.

The advances bear interest at rates from 5% to 16.07% per annum, and are repayable over 18 to 50 years, with final instalments between June 30, 1992 and March 31, 2037.

Real estate

Section 92(1) the National Housing Act authorizes advances to: (a) acquire land or housing projects by way of purchase, lease or otherwise; (b) install services in and effect improvements to or in respect of land acquired, and develop and lay out such land for housing purposes; (c) construct, convert or improve housing projects; and, (d) acquire building materials and equipment and other personal property for use in connection with housing projects.

During the year, additional advances were authorized by Public Works Vote L55, Appropriation Acts No 1 and No 2, 1988-89.

The advances bear interest at rates from 2% to 16.157% per annum, and are repayable over 50 years, with the final instalment on September 30, 2036.

Joint projects

Section 79(1) of the National Housing Act authorizes advances to undertake projects jointly with the government of any province or any agency thereof, for (a) the acquisition and development of land for housing purposes or for any purpose incidental thereof; (b) the construction of housing projects or housing accommodation of the hostel or dormitory type for sale or for rent; and, (c) the acquisition, improvement and conversion of existing buildings for a housing project or for housing accommodation of the hostel or dormitory type.

The advances bear interest at rates from 3% to 14.8% per annum, and are repayable over 25 to 50 years, with final instalments between June 30, 1990 and September 30, 2038.

Urban renewal scheme

Advances have been made to enable the Corporation to lend money under Section 25(1) of the National Housing Act, to a province or municipality, to assist in the implementation of an urban renewal scheme.

The advances bear interest at rates from 5.81% to 7.81% per annum, and are repayable over 15 to 50 years, with final instalments between June 30, 1989 and June 30, 1999.

Student housing projects

Advances have been made to enable the Corporation to lend money under Section 88(1) of the National Housing Act, to a province or an agency thereof, a municipality or an agency thereof, or a hospital, school board, university, college, cooperative association or charitable corporation, to assist in (a) the construction, acquisition or improvement of a student housing project; (b) the acquisition of existing buildings and their conversion into a student housing project; or, (c) the conversion of existing buildings into a student housing project.

The advances bear interest at rates from 5% to 10.054% per annum, and are repayable over 20 to 50 years, with final instalments between September 30, 1994 and March 31, 2030.

Sewage treatment projects

Advances have been made to enable the Corporation to lend money under Section 51 of the National Housing Act, to any province, municipality or municipal sewerage corporation, to assist in the establishment or expansion of a sewage treatment project, and in the construction of a trunk storm sewer system.

The advances bear interest at rates from 5% to 10.376% per annum, and are repayable over 18 to 50 years, with final instalments between September 30, 1993 and December 31, 2022.

Ownership assistance

Advances have been made to enable the Corporation to lend money under Sections 57(1) and 58(1) of the National Housing Act, to assist in (a) the construction of a house or a condominium unit by a person who owns the house or condominium unit and intends to occupy the house, one of the family housing units thereof or the condominium unit, or by a builder who intends to sell the house or condominium unit to a person who will own and occupy the house, one of the family housing units thereof or the condominium unit; or, (b) the acquisition of a house or condominium unit by a prospective qualified owner.

The advances bear interest at rates from 7.625% to 9.618% per annum, and are repayable over 20 to 50 years, with final instalments between December 31, 1992 and June 30, 2003.

Export Development Corporation

The Corporation was established by the Export Development Act, to facilitate and develop export trade by the provision of loans, insurance, guarantees and other financial facilities.

The Corporation is an agent of Her Majesty, reports through the Minister for International Trade, and is listed in Part I of Schedule III of the Financial Administration Act.

During the year, the Corporation received financial assistance of \$59.5 million from budgetary appropriations.

Capital stock

The Government's investment in the capital of the Corporation is authorized by Section 11(1) of the Export Development Act.

Loans

Loans to the Corporation are authorized by Sections 12 and 13 of the Export Development Act. Pursuant to Section 12, the Corporation may borrow money from public and private sources by any means, including the issuing and selling of bonds, debentures, notes and other evidences of indebtedness of the Corporation. Pursuant to Section 13, loans to the Corporation may be made out of the Consolidated Revenue Fund on terms and conditions fixed by the Minister of Finance.

Section 14 limits the Corporation's outstanding borrowings under Sections 12 and 13 to an amount that shall not exceed at any time ten times the aggregate of the paid-in capital of the Corporation from time to time and the retained earnings, if any, determined in accordance with the most recent statements of accounts of the Corporation for a financial year, that have been audited by the Auditor General of Canada.

For the purposes of the Export Development Act, Section 31(1) also authorizes the making of loans by the Government of Canada through the Corporation. These loans are administered by the Corporation on behalf of the Government and are reported further in this section under "National governments including developing countries" and "Miscellaneous loans, investments and advances".

During the year, the loan was repaid in full.

In 1988-89, the Corporation paid interest of \$2.1 million to the Government.

Farm Credit Corporation

The Corporation was established by the Farm Credit Act, to assist Canadian farmers to establish and develop sound farm enterprises through the use of long-term credit.

The Corporation is an agent of Her Majesty, reports through the Minister of Agriculture, and is listed in Part I of Schedule III of the Financial Administration Act.

Contributed capital

The Government's contribution to the capital of the Corporation is authorized by Section 12(1) of the Farm Credit Act.

The total amount authorized is not to exceed \$225,000,000.

Notes

Promissory notes are issued to the Minister of Finance in respect of loans made pursuant to Section 13 of the Act, to provide the Corporation with funds for making loans to farmers. The total amount of such loans outstanding at any time may not exceed twenty-five times the capital of the Corporation.

The terms and conditions of the loans, with their year-end balances, are as follows:

- (a) repayable over 20 years, bearing interest at rates from 9% to 12% per annum, with final instalments between July 1, 1997 and July 1, 2000, \$803,986,075;
- (b) repayable over 20 years, bearing interest at rates from 6% to 9% per annum, with final instalments between July 1, 1989 and July 1, 1999, \$1,284,176,440;
- (c) repayable over 12 to 18 years, bearing interest at rates from 10.02% to 10.145% per annum, with final instalments between January 1, 1994 and January 1, 1997, \$28,412,947;
- (d) repayable over 10 years, bearing interest at rates from 9.245% to 11.625% per annum, with final instalments between July 1, 1993 and July 1, 1997, \$544,764,215;
- (e) repayable over 2 to 9 years, bearing interest at rates from 9.135% to 11% per annum, with the final instalment on July 1, 1997, \$521,658,550; and,

- (f) repayable within 1 year, bearing interest at rates from 9.855% to 11.661% per annum, \$66,000,000.

During the year, the Corporation paid interest of \$300.7 million to the Government.

Farm syndicates loan fund

Advances have been made by the Minister of Finance, pursuant to Section 8 of the Farm Syndicates Credit Act, to enable the Corporation to make loans. Section 3(1) of the Act allows the Corporation to make loans to a farm syndicate for:

- (a) the purchase of farm machinery;
- (b) the purchase, erection or improvement of buildings; or,
- (c) the purchase or improvement of land on which buildings are or are to be erected for use primarily by the syndicate or its members, in their farming operations.

The total amount authorized to be outstanding at any time is \$25,000,000.

The advances bear interest at rates from 9.275% to 11% per annum, and are repayable in equal semi-annual instalments over 5 to 7 years, with final instalments between July 1, 1989 and July 1, 2001.

Federal Business Development Bank

The Corporation was established by the Federal Business Development Bank Act, to promote and assist in the establishment and development of business enterprises in Canada, by providing financial assistance, management counselling, management training, information and advice, and such other services as are ancillary or incidental to any of the foregoing.

The Corporation is an agent of Her Majesty, reports through the Minister of Regional Industrial Expansion, and is listed in Part I of Schedule III of the Financial Administration Act.

During the year, the Corporation received financial assistance of \$63.4 million from budgetary appropriations.

The Government's contribution to the paid-in capital of the Corporation is authorized by Sections 28 and 52 of the Federal Business Development Bank Act.

All Other Crown Corporations

Table 6.3 presents a summary of the balances and transactions for the various types of loans, investments and advances which were made to Crown corporations engaged in activities other than providing financial assistance.

⁽¹¹⁾ This account is now reported in Table 6.20.⁽¹²⁾ This account is now reported in Table 6.21.

Atomic Energy of Canada Limited

The Corporation was incorporated pursuant to the Canada Corporations Act, and continued under the Canada Business Corporations Act, to develop the utilization of atomic energy for peaceful purposes.

The Corporation is an agent of Her Majesty, reports through the Minister of Energy, Mines and Resources, and is listed in Part I of Schedule III of the Financial Administration Act.

During the year, the Corporation received financial assistance of \$203.1 million from budgetary appropriations. It paid interest of \$60.6 million and a dividend of \$16.4 million to the Government.

Capital stock

The Government's investment in the capital of the Corporation is recorded in this account.

Contributed capital

The Government's contribution to the capital of the Corporation is recorded in this account.

Housing

Loans have been made to finance the construction of housing near the Whiteshell Nuclear Research Establishment.

The loans bear interest at rates from 5% to 8.5% per annum, and are repayable in equal monthly instalments over 30 years, with final instalments between September 30, 1990 and June 30, 2003.

Bruce heavy water plant

Loans have been made to finance the construction of the Bruce heavy water plant at Douglas Point, Ontario.

The loans bear interest at rates from 6.687% to 8.5% per annum, and are repayable in equal monthly instalments over 17 years, with the final instalment on December 31, 1992.

Commercial products division

Loans have been made to finance the construction of manufacturing facilities and a laboratory at South March, Ontario.

The loans bear interest at rates from 6.687% to 7.625% per annum, and are repayable in equal monthly instalments over 20 years, with final instalments due September 30, 1992.

Gentilly II nuclear power station

Loans have been made to finance a share in the construction of the CANDU-PHW 600 generating station at Gentilly, under an agreement with the Province of Quebec and Hydro-Quebec.

The loan, consolidated in 1983-84, bears interest at the rate of 9.18% per annum, and is repayable in equal annual instalments over 25 years, with the final instalment on April 7, 2008.

Heavy water inventory

Loans have been made to finance the production and purchase of heavy water for lease or resale to Canadian and foreign users.

The loans bear interest at the rate of 10% per annum until May 1, 1989. Thereafter, they will bear interest at the rate established every May 1st and November 1st by the Minister of Finance, in respect of borrowings having a six month term by Crown corporations. The loans are repayable in equal semi-annual instalments over 20 years, with the final instalment on May 1, 2008.

Lepreau nuclear station

Loans have been made to finance a share in the construction of the nuclear generating station at Lepreau.

The loan, consolidated in 1980-81, bears interest at the rate of 9.706% per annum, and is repayable in equal annual instalments over 25 years, with the final instalment on April 1, 2008.

Canada Development Investment Corporation

The Corporation was incorporated pursuant to the Canada Business Corporations Act, to:

- (a) assist in the creation or development of businesses, resources, properties and industries of Canada;
- (b) expand, widen and develop opportunities for Canadians to participate in the economic development of Canada through the application of their skills and capital in any activities carried on by the Corporation;
- (c) invest in the shares or securities of any corporation owning property or carrying on business related to the economic interests of Canada;
- (d) invest in ventures or enterprises, including the acquisition of property, likely to benefit Canada; and,
- (e) carry out all activities in the best interests of Canada, operating in a commercial manner.

The Corporation is an agent of Her Majesty, reports through the Minister of State (Privatization), and is listed in Part II of Schedule III of the Financial Administration Act.

The Government's investment in the capital of the Corporation is recorded in this account. The balance in the account represents the value of 101 common shares of the Corporation without nominal or par value.

Eldorado Nuclear Limited

The Corporation was incorporated pursuant to the Canada Corporations Act, and continued under the Canada Business Corporations Act, to provide for the mining and refining of uranium, and the production of nuclear fuel in Canada. The Corporation is a wholly-owned subsidiary of the Canada Development Investment Corporation.

Interest due but not received, totalling \$10,093,433 as of March 31, 1989, was recorded in the accounts of Canada in previous years by being debited to a loan account and credited to an uncollected interest account (see Table 6.23 of this section). Since the Government's policy is to report revenue only as received, this uncollected interest was deducted from the loan account, to present it on a net basis.

During the year, the Corporation paid interest of \$0.9 million to the Government.

Canadian National Railway Company

The Corporation was established by the Canadian National Railways Act, to provide, operate and manage a national system of railways.

The Corporation is not an agent of Her Majesty, reports through the Minister of Transport, and is listed in Part II of Schedule III of the Financial Administration Act.

During the year, the Corporation received financial assistance of \$14 million from budgetary appropriations.

Capital stock

The Government's investment in the capital of the Corporation is recorded in this account.

Consolidated loan

The loan bears interest at the rate of 8.75% per annum, and is repayable in semi-annual instalments over 20 years, with the final instalment on June 30, 1998.

During the year, the Corporation paid interest of \$15.9 million to the Government.

Petro-Canada

The Corporation was established by the Petro-Canada Act, to explore, research, develop, produce and distribute hydrocarbons and other types of fuel and energy, and to engage or invest in ventures related thereto.

The Corporation is an agent of Her Majesty, reports through the Minister of Energy, Mines and Resources, and is listed in Part II of Schedule III the Financial Administration Act.

During the year, Petro-Canada International Assistance Corporation (a wholly-owned subsidiary of Petro-Canada) received financial assistance of \$60.5 million from budgetary appropriations.

The Government's investment in the capital of the Corporation is authorized by Sections 5, 22, 24 and 26 of the Petro-Canada Act.

Bank of Canada

The Bank of Canada was established by the Bank of Canada Act, to regulate credit and currency, in the best interests of the economic life of the nation, to control and protect the external value of the national monetary unit, and to mitigate, by its influence, fluctuations in the general levels of production, trade, prices and employment so far as may be possible within the scope of monetary action, and generally to promote the economic and financial welfare of Canada.

The Bank is not an agent of Her Majesty and reports through the Minister of Finance.

The Government's investment in the capital of the Bank is authorized by Section 17 of the Bank of Canada Act. An amount of \$5,000,000 represents the par value of 100,000 shares, and the remaining balance of \$920,000 represents premiums paid in respect of the acquisition, in 1938, of shares held by the public.

During the year, the Bank remitted profit of \$1,937.7 million to the Government.

Canada Ports Corporation

The Corporation was established by the Canada Ports Corporation Act, to administer, manage and control Canadian harbours, and any other harbour, work or property of Canada transferred by the Governor in Council.

The Corporation is an agent of Her Majesty, reports through the Minister of Transport, and is listed in Part II of Schedule III of the Financial Administration Act.

During the year, the Corporation received financial assistance of \$2.8 million from budgetary appropriations.

Under the authority of the Canada Ports Corporation Act, loans are made to finance capital expenditures of various harbours under the jurisdiction of the Canada Ports Corporation. A summary of the balances and transactions for the loans made to various harbours follows:

	April 1/1988	Receipts and other credits	Payments and other charges	March 31/1989
	\$	\$	\$	\$
Belledune	912,303	46,967		865,336
Chicoutimi	649,487	28,128		621,359
	1,561,790	75,095		1,486,695

The loans bear interest at rates from 6.44% to 9.09% per annum, and are repayable in equal annual instalments over 20 years, with final instalments on December 31, 2000.

During the year, the Corporation paid interest of \$117,791 to the Government.

Saint John Harbour Bridge Authority

Loans have been made to the Saint John Harbour Bridge Authority in respect of a vehicular bridge across the harbour of Saint John. An agreement between Canada, the Province of New Brunswick, the City of Saint John and the Saint John Harbour Bridge Authority, dated July 7, 1966, requires that debentures issued by the Authority and acquired by the Canada Ports Corporation shall be related exclusively to the financing of the total capital costs of the bridge (see also Table 6.21, Miscellaneous loans, investments and advances).

The loans bear interest at rates from 6.687% to 8.5% per annum, and are repayable in equal semi-annual instalments over 50 to 51 years, with final instalments between January 1, 2020 and January 1, 2021.

During the year, the Authority paid interest of \$1 million to the Government.

Canada Post Corporation

The Corporation was established by the Canada Post Corporation Act, to make postal services available to the public.

The Corporation is an agent of Her Majesty, reports through the Minister or Regional Industrial Expansion and is listed in Part I of Schedule III of the Financial Administration Act.

During the year, the Corporation received financial assistance of \$250.1 million from budgetary appropriations.

In 1988-89, a loan of \$80,000,000 has been made to the Corporation pursuant to Section 28(2) of the Canada Post Corporation Act, to finance capital and extraordinary restructuring costs.

The Corporation paid interest of \$3.9 million to the Government in 1988-89.

The loan bears interest at the rate of 9.705% per annum, and is repayable in semi-annual instalments over 10 years, with the final instalment on April 27, 1998.

Canadian Broadcasting Corporation

The Corporation was established by the Broadcasting Act, to provide a national broadcasting service in both official languages, and an international broadcasting service predominantly Canadian in content and character.

The Corporation is an agent of Her Majesty and reports through the Minister of Communications.

During the year, the Corporation received financial assistance of \$915.2 million from budgetary appropriations.

Advances have been made to the Corporation for purposes of working capital. The total amount authorized to be outstanding at any time is \$33,000,000.

The advances are non-interest bearing and are repayable using the amounts on hand (cash and marketable securities) which, at any time, are in excess of what is required by the Corporation for working capital purposes.

Canadian Dairy Commission

The Corporation was established by the Canadian Dairy Commission Act, to provide, to efficient producers of milk and cream, the opportunity of obtaining a fair return for their labour and investment, and to provide, to consumers of dairy products, a continuous and adequate supply of high quality dairy products.

The Corporation is an agent of Her Majesty, reports through the Minister of Agriculture, and is listed in Part I of Schedule III the Financial Administration Act.

During the year, the Corporation received financial assistance of \$4.5 million from budgetary appropriations.

Loans have been made to the Corporation, to finance its dealings in dairy products. The total amount authorized to be outstanding at any time is \$300,000,000.

The loans bear interest at rates from 8.417% to 12.280% per annum, and are repayable within 1 year.

The Corporation paid interest of \$4.6 million to the Government in 1988-89.

Canadian National (West Indies) Steamships Ltd

The Corporation was incorporated pursuant to the Canada Corporations Act, and continued under the Canada Business Corporations Act, to provide steamship services between Canada and the West Indies.

The Corporation is an agent of Her Majesty, reports through the Minister of Transport, and is listed in Part I of Schedule III of the Financial Administration Act. The Corporation was authorized to be dissolved pursuant to the Crown Corporations Dissolution Authorization Act.

Steps have been initiated to wind-up the Corporation and assign the accounts receivable to the Minister of Finance. As of the year end, however, dissolution had not taken place because of unresolved legal implications with the BankAmerica International (formerly the Bank of America) and the United States Government.

Capital stock

The Government's investment in the capital of the Corporation is recorded in this account.

Advances

The advances are repayable from moneys to be received upon collection of the final instalment on the sale of the eight vessels to Cuban interests which was due to be paid August 19, 1963 by an irrevocable letter of credit issued through the BankAmerica International. However, on July 3, 1963, the United States Cuban Assets Control Regulations became effective which prohibited the BankAmerica International from honouring payment of the draft. Since that time, negotiations to obtain a preferred status, in order to collect the receivable, have not been successful. It is the opinion of management, based on legal counsel, that these moneys plus applicable interest will be collected when the regulations are repealed.

A waiver of the application of the statute of limitations has been obtained until January 1, 1989, and further extensions will be obtained as required.

Canadian Saltfish Corporation

The Corporation was established by the Saltfish Act, to improve the earnings of primary producers of cured cod fish.

The Corporation is an agent of Her Majesty, reports through the Minister of Fisheries and Oceans, and is listed in Part I of Schedule III of the Financial Administration Act.

Loans have been made to the Corporation, pursuant to Section 16 of the Saltfish Act, to enable it to carry on its operations.

The aggregate amount of loans authorized to be outstanding at any time, borrowed from all lenders, is \$50,000,000.

The loans bear interest at rates from 11.045% to 10.251% per annum, and are repayable between May 1, 1989 and August 5, 1989.

During the year, the Corporation paid interest of \$3.4 million to the Government.

Cape Breton Development Corporation

The Corporation was established by the Cape Breton Development Corporation Act, to stimulate economic adjustment and expansion on Cape Breton Island, while rationalizing the coal industry.

The Corporation is an agent of Her Majesty, reports through the Minister of Regional Industrial Expansion, and is listed in Part I of Schedule III of the Financial Administration Act.

During the year, the Corporation received financial assistance of \$35.8 million from budgetary appropriations.

Advances have been made for the purpose of providing working capital for the coal division of the Corporation. The total amount authorized to be outstanding at any time is \$25,000,000.

The advances are non-interest bearing and have no fixed repayment dates.

Freshwater Fish Marketing Corporation

The Corporation was established by the Freshwater Fish Marketing Act, to regulate interprovincial and export trade in freshwater fish, and to market and trade in fish.

The Corporation is an agent of Her Majesty, reports through the Minister of Fisheries and Oceans, and is listed in Part I of Schedule III of the Financial Administration Act.

Loans have been made to the Corporation, pursuant to Section 16 of the Freshwater Fish Marketing Act, to enable it to carry on its operations.

The aggregate amount of loans authorized to be outstanding at any time, borrowed from all lenders, is \$30,000,000.

The loans bear interest at rates from 10.045% to 10.978% per annum, and are repayable between November 16, 1989 and January 13, 1990.

During the year, the Corporation paid interest of \$183,066 to the Government.

Halifax Port Corporation

The Corporation was established by the Canada Ports Corporation Act, to administer, manage and control the Port of Halifax.

The Corporation is an agent of Her Majesty, reports through the Minister of Transport, and is listed in Part II of Schedule III of the Financial Administration Act.

Loans have been made to finance capital expenditures related to the Port of Halifax.

The remaining loan bears interest at the rate of 10% per annum, and is repayable in equal annual instalments over 10 years, with the final instalment on December 31, 1996.

During the year, the Corporation paid interest of \$412,392 to the Government.

Mingan Associates, Ltd

The Corporation was established by letters patent, granted under the laws of the Province of Quebec.

The Corporation is not an agent of Her Majesty, reports through the Minister of Indian Affairs and Northern Development, and is listed in Part I of Schedule III of the Financial Administration Act.

In 1983-84, the Government purchased all of the 21,606 common shares without par value of the Corporation for an amount of \$355,000, which was charged to budgetary expenditure (Indian Affairs and Northern Development Vote 10). These shares were purchased to gain ownership of a parcel of land owned by the Corporation which was required to be converted into reserve land. Parliamentary authority will be sought to wind-up the Corporation.

Montreal Port Corporation

The Corporation was established by the Canada Ports Corporation Act, to administer, manage and control the Port of Montreal.

The Corporation is an agent of Her Majesty, reports through the Minister of Transport, and is listed in Part II of Schedule III of the Financial Administration Act.

Loans have been made to finance capital expenditures related to the Port of Montreal.

The remaining loan bears interest at the rate of 6.25% per annum, and is repayable in equal annual instalments over 20 years, with the final instalment on December 31, 2000.

During the year, the Corporation paid interest of \$459,450 to the Government.

Royal Canadian Mint

The Corporation was established by the Royal Canadian Mint Act, to:

- (a) produce and arrange for the production and supply of coins of the currency of Canada;
- (b) produce coins of the currency of other countries;
- (c) melt, assay, refine, buy and sell gold, silver and other metals for the account of Canada; and,
- (d) make medals, plaques and other things as are incidental to the powers of the Mint.

The Corporation is an agent of Her Majesty, reports through the Minister of Supply and Services, and is listed in Part II of Schedule III the Financial Administration Act.

Section 3.1(1) of the Royal Canadian Mint Act states that the authorized capital of the Mint is \$40,000,000 divided into four thousand shares of ten thousand dollars each.

Section 17(1) of the Act states that the Mint may borrow money from the Consolidated Revenue Fund or any other source but the aggregate of the amounts loaned to the Mint and outstanding at any time shall not exceed \$50,000,000.

Section 17(3) of the Act states that the Mint shall not borrow money without the approval of the Minister of Finance with respect to the time and the terms and conditions of the transaction.

The loans bear interest at rates from 8.25% to 12% per annum, and are repayable over 1 to 10 years, with final instalments between April 1, 1989 and April 1, 1998.

During the year, the Corporation paid interest of \$2.6 million to the Government.

Saint John Port Corporation

The Corporation was established by the Canada Ports Corporation Act, to administer, manage and control the Port of Saint John.

The Corporation is an agent of Her Majesty, reports through the Minister of Transport, and is listed in Part II of Schedule III of the Financial Administration Act.

Loans have been made to finance capital expenditures related to the Port of Saint John.

The terms and conditions of the loans, with their year-end balances, are as follows:

- (a) bearing interest at rates from 11% to 11.875% per annum, repayable at maturity on December 31, 1993 and December 31, 1994, \$10,817,600;
- (b) bearing interest at the rate of 12.43% per annum, repayable at maturity on December 31, 2000, \$6,665,062; and,
- (c) bearing interest at the rate of 11.625% per annum, repayable at maturity on December 31, 2005, \$2,569,795.

During the year, the Corporation paid interest of \$2.4 million to the Government.

St John's Port Corporation

The Corporation was established by the Canada Ports Corporation Act, to administer, manage and control the Port of St John's.

The Corporation is an agent of Her Majesty, reports through the Minister of Transport, and is listed in Part II of Schedule III of the Financial Administration Act.

Loans have been made to finance capital expenditures related to the Port of St John's. During the year, additional loans were

authorized by Transport Vote L50, Appropriation Acts No 1 and No 2, 1988-89.

The terms and conditions of the loans, with their year-end balances, are as follows:

- (a) bearing interest at the rate of 9.33% per annum, repayable in equal annual instalments over 20 years, with the final instalment on December 31, 2000, \$1,395,484;
- (b) bearing interest at the rate of 10.015% per annum, repayable in equal annual instalments over 10 years, with the final instalment on December 31, 1997, \$937,300;
- (c) bearing interest at the rate of 9.785% per annum, repayable in equal annual instalments over 10 years with the final instalment on December 31, 1998, \$750,000; and,
- (d) bearing interest at the rate of 9.375% per annum, repayable in equal annual instalments over 10 years, with the final instalment on December 31, 1998, \$250,000.

During the year, the Corporation paid interest of \$259,468 to the Government.

Vancouver Port Corporation

The Corporation was established by the Canada Ports Corporation Act, to administer, manage and control the Port of Vancouver.

The Corporation is an agent of Her Majesty, reports through the Minister of Transport, and is listed in Part II of Schedule III of the Financial Administration Act.

Loans have been made to finance capital expenditures related to the Port of Vancouver.

The remaining loan bears interest at the rate of 7.5% per annum, and is repayable in equal annual instalments over 20 years, with the final instalment on December 31, 2000.

During the year, the Corporation paid interest of \$311,097 to the Government.

VIA Rail Canada Inc

The Corporation was incorporated pursuant to the Canada Business Corporations Act, to revitalize passenger rail services in Canada, and to manage and market them on an efficient commercial basis, reducing the financial burden on the Government.

The Corporation is not an agent of Her Majesty, reports through the Minister of Transport, and is listed in Part I of Schedule III of the Financial Administration Act.

During the year, the Corporation received financial assistance of \$607.4 million from budgetary appropriations.

The Government's investment in the capital of the Corporation is recorded in this account.

Summary Financial Statements of Crown Corporations

The following tables display details of the assets, liabilities, revenues and expenses of the two classifications of Crown corporations—Enterprise and non-enterprise.

Tables 6.6 and 6.7 present the assets, liabilities, revenues, expenses and changes to the equity of enterprise corporations grouped in five segments. The segment of competitive, self-sustaining corporations consists of those corporations named in Schedule III, Part II of the Financial Administration Act.

Tables 6.8 and 6.9 present the same accounting information for non-enterprise corporations.

For those corporations having other year ends, the data are based on unaudited interim financial statements which have been prepared on a basis consistent with the most recent audited financial statements.

The tables summarize the financial transactions and results of operations of each Crown corporation in accordance with its own respective accounting policies. Most Crown corporations follow the generally accepted accounting principles used by private sector companies, as outlined in the Handbook of the Canadian Institute of Chartered Accountants.

Financial assets include cash, receivables, loans and investments. Physical assets and deferred charges represent the unexpensed portion of non-financial assets such as buildings, machinery and equipment in use or under construction, inventories and other items of expenditure which will be expensed as these assets are used. Financial assets and liabilities in respect of the Government and other Crown corporations represent the unpaid balances arising from financing transactions and normal operating activities. Borrowings from outside parties represent amounts repayable to institutional and other investors. Other liabilities are amounts due in respect of purchases, employee termination and pension benefits, accrued interest on borrowings, long-term capital leases and sundry accounts payable.

Revenues include financial assistance received or receivable from the Government in respect of the current year's operations. Expenses are segregated between those relating to outside parties, Government and other Crown corporations as well as other adjustments and dividends paid to outside parties. These adjustments may increase or reduce the amount of income accruing to the Government. Equity transactions with the Government include dividends declared, transfers of profits to the Government and non-current financial assistance provided by the Government. In the case of non-enterprise corporations, the line "Conversion to the Government's modified cash basis of accounting" represents the adjustments required to bring the corporations' generally accepted accounting principles basis of accounting to the Government's basis of accounting. Details are provided in the introduction to Tables 6.4 and 6.5.

Crown corporations are defined to include either parent Crown corporations or wholly-owned subsidiaries. A wholly-owned subsidiary is wholly-owned by one or more parent Crown corporations. These tables present consolidated financial information on parent Crown corporations and financial information on unconsolidated wholly-owned subsidiaries.

Volume III of the Public Accounts includes a complete list of all parent Crown corporations, wholly-owned subsidiaries, other subsidiaries and associates.

Crown corporations are also categorized as being either agents or non-agents of the Crown. Agency status may be expressly stated in the incorporating legislation or conferred under the provisions of the Government Corporations Operation Act. In accordance with Section 54 of the Financial Administration Act, the payment of all money borrowed by agent Crown corporations and interest thereon is a charge on and payable out of the Consolidated Revenue Fund. Such borrowings therefore constitute obligations of the Government and are recorded as such in the summary financial statements of Canada net of borrowings expected to be repaid directly by these corporations. The gross amounts of such borrowings are included under "Liabilities, Outside Parties". A summary of such borrowings and the changes during the year ended March 31, 1989 is presented in Table 6.10.

Borrowings by non-agent Crown corporations are not, in law, obligations of the Government. However, when the Government expressly guarantees such borrowings, they become potential obligations of the Government. Such guarantees amounted to \$0.3 million as at March 31, 1989. A summary of borrowing transactions by non-agent Crown corporations is presented in Table 6.11. The maturity and currency of all Crown corporations' borrowings is presented in Table 6.12. Contingent liabilities of Crown corporations are presented in Table 6.13.

A summary of financial assistance under Government budgetary appropriations to Crown corporations for the year ended March 31, 1989 is provided in Table 6.14. Differences in figures reported in Tables 6.7 and 6.9 and those reported in Table 6.14 result from the use of different accounting policies and from items in transit.

Consolidation

Note 8 to the audited financial statements in Section 2 of this volume, presents condensed financial statements applying the recommendations of the Public Sector Accounting and Auditing Committee (PSAAC) of the Canadian Institute of Chartered Accountants which, in November 1988, defined the Government reporting entity. PSAAC defined the Government reporting entity as all organizations which are accountable for the administration of their financial affairs and resources either to a Minister of the Government or directly to the legislature and which are owned or controlled by the Government. Based on the definition, the Government's reporting entity would include all Crown corporations as well as all other organizations as described in note 1 (i), Section 2 of this volume.

As disclosed in Note 1 (i) to the audited financial statements, the assets, liabilities, revenues and expenditures reported in the separate financial statements of Crown corporations are not consolidated in the Government's financial statements.

PSAAC recommended the classification of Crown corporations into two groups: enterprise and non-enterprise corporations. The principal criteria differentiating these two groups is their reliance on Government funding as their princi-

pal source of revenue. An enterprise corporation does not rely on Government funding as its principal source of revenue and thus would be accounted for using the modified equity basis of accounting. Non-enterprise corporations would be consolidated.

Modified equity accounting reports the net financial position and operation results of enterprise corporations in Government financial statements without adjusting their accounting principles which are generally accepted for business enterprises.

Consolidation involves the combination of the accounts of non-enterprise corporations on a line-by-line and uniform basis of accounting and eliminating inter-organizational balances and transactions. Before these balances and transactions can be eliminated, the non-enterprise corporations' accounts must be adjusted to the Government's modified cash basis of accounting. Most non-enterprises follow generally accepted accounting principles (GAAP) used by private sector companies. The most significant difference between GAAP and the Government's basis of accounting is that under GAAP, non-financial assets such as buildings, machinery, equipment and

inventories are reflected as assets and written-off over their respective lives or as they are consumed or used. The Government treats the acquisition of non-financial assets as expenditures in the year of acquisition. A further difference is that the Government does not accrue revenue. Details of this conversion of accounting principles can be found in Tables 6.8 and 6.9.

Table 6.4 presents summarized details of the consolidation process as recommended by PSAAC. The data is based on the audited financial statements of the Government and the summary combined financial statements of enterprise Crown corporations (Table 6.5) and its supporting Tables (6.6 and 6.7) and the detailed financial statements of non-enterprise Crown corporations (Tables 6.8 and 6.9). Enterprise corporations show adjustments to Revenues, Financial assets, Annual and Accumulated deficit which represent income of these corporations accruing to the Government for the year. Elimination of inter-entity balances and transactions were made for non-enterprise corporations where material and determinable, as well as the elimination of the investment relating to these corporations.

TABLE 6.4

DETAILS OF THE CONSOLIDATION OF THE GOVERNMENT AND CROWN CORPORATIONS

AS AT MARCH 31, 1989

(in millions of dollars)

	Government	Enterprise	Non-enterprise	Adjustment	Consolidated
CONDENSED STATEMENT OF REVENUE AND EXPENDITURE AND ACCUMULATED DEFICIT

⁽¹⁾ All Crown corporations listed in this table are parent Crown corporations except the Seaway International Bridge Corporation, Ltd which is an unconsolidated subsidiary.

⁽²⁾ An act to provide the continuance of Air Canada under the Canada Business Corporations Act and for the issuance and sale of shares thereof to the public received Royal Assent August 18, 1988. The Corporation's name has been deleted from the Financial Administration Act, Part II, Schedule III. During the 1988-89 fiscal year, the Corporation sold 30,769,469 common shares to the public, reducing the Government's equity in Air Canada to 57% of share capital in circulation. On July 5, 1989, the remaining shares held by the Government were offered to the public.

⁽³⁾ Canada Development Investment Corporation: Eldorado Nuclear Limited, a wholly-owned corporation, substantially disposed of its assets effective October 5, 1988, to Cameco—a Canadian Mining & Energy Corporation, in consideration for a 38.5% shareholding and notes. The remaining assets and liabilities are consolidated as at March 31, 1989. The net income of CDIC includes the income of Eldorado calculated on an equity basis of accounting to September 1988. On September 30, 1988, CDIC acquired the shares of Nordion International Inc. and Theratronics International Limited, two former divisions of Atomic Energy of Canada Limited. These corporations are accounted for on the equity basis of accounting by CDIC with the net result that their net assets of \$116,587 as at March 31, 1989 are reflected under Assets-Government and other Crown corporations.

⁽⁴⁾ Subsequent to March 31, 1989, Petro-Canada announced a retroactive change in accounting policy. This change is not reflected in the values reported in Tables 6.5, 6.6, and 6.7. However, it has been reflected in the adjustments in Table 6.4. The effect was to reduce the government's equity by \$1.18 billion.

⁽⁵⁾ On April 4, 1987, the Teleglobe Canada Reorganization and Divestiture Act received Royal Assent pursuant to the letter of intent signed February 11, 1987 selling the assets of Teleglobe Canada to Memotec Data Inc. The Corporation is potentially liable for bills of exchange. The liability amounts to £20,635,442 (\$44,576,682) as at March 31, 1989 and matures in 1993.

⁽⁶⁾ Cape Breton Development Corporation's Industrial Development Division was incorporated as the Enterprise Cape Breton Corporation, a non-enterprise corporation, on December 1st 1988.

⁽⁷⁾ The Act enabling the Northern Canada Power Commission to issue shares, to authorize the sale of those shares to the Government of the Northwest Territories and to repeal the Northern Canada Power Commission Act as well as deleting it from Schedule III of the Financial Administration Act received Royal Assent on April 27, 1988.

⁽¹⁾ This column records only that portion of financial assistance received or receivable from the federal Government that has been credited to operations. A further amount of \$88,964 representing capital and operating appropriations received by the corporations is included in "Equity transactions with Government". Revenues "Other" include amounts generated from the sale of goods and services, investment income as well as grants where the corporations qualify as a member of a general class of recipients. The total financial assistance accounted for by the corporations during the year does not agree with the amount reported in Table 6.14 because of differences resulting from the different accounting policies followed.

⁽²⁾ This amount represents Air Canada's net assets as at March 31, 1988. As the Corporation is no longer listed as a Crown corporation in the Financial Administration Act Part II Schedule III, it is now reported in Table 6.20-Joint and Mixed Enterprises.

⁽²⁾ On October 20, 1985, an Act procuring the dissolution of certain Crown corporations authorized the Minister responsible for Canadian National (West Indies) Steamships Ltd, to dissolve the Corporation.

⁽³⁾ The Corporation is inactive.

⁽⁴⁾ Petro-Canada has been authorized to dissolve Canertech Inc. and dispose of its investments on October 9, 1986.

⁽⁵⁾ The Corporation is being wound up.

⁽⁶⁾ Cape Breton Development Corporation's Industrial Development Division was incorporated as Enterprise Cape Breton Corporation on December 1, 1988, a non-enterprise corporation.

⁽¹⁾ This column records only that portion of financial assistance received or receivable from the federal Government that has been credited to operations. A further amount of \$252,729 representing capital and operating appropriations received by the corporations is included in "Equity transactions with Government". Revenues "Other" include amounts generated from the sale of goods and services, investment income as well as grants where the corporations qualify as a member of a general class of recipients. The total financial assistance accounted for by the corporations during the year does not agree with the amount reported in Table 6.14 because of differences resulting from the different accounting policies followed.

Borrowings by Agent Crown Corporations

Table 6.10 summarizes the borrowing transactions by agent Crown corporations made on behalf of Her Majesty. This information is published to satisfy Section 49 of the Financial Administration Act (FAA) which requires that "An annual statement of all borrowing transactions on behalf of Her Majesty shall be included in the Public Accounts". The borrowings are from other than the Government. In accordance with Section 54 of the FAA, the payment of all money borrowed by agent Crown corporations and interest thereon is a charge on and payable out of the Consolidated Revenue Fund. Such borrow-

ings therefore constitute obligations of the Government and are recorded as such in the summary financial statements of Canada net of borrowings expected to be repaid directly by these corporations. As at March 31, 1989, an allowance for borrowings expected to be repaid by the Government was established at \$450 million.

Borrowings by non-agent Crown corporations are not included in this table because such borrowings are not on behalf of Her Majesty. Table 6.11 provides information on borrowings of such corporations.

TABLE 6.10

BORROWINGS BY AGENT CROWN CORPORATIONS (in thousands of dollars)

	Balance April 1/1988	Borrowings and other credits	Repayments and other charges	Balance March 31/1989

Financial Assistance Under Budgetary Appropriations to Crown Corporations

Table 6.14 summarizes financial assistance under budgetary appropriations for both agent and non-agent Crown corporations. It should be read in conjunction with Tables 6.7 and 6.9. The purpose for which payments have been made under budgetary

appropriations is segregated between: (a) amounts to cover operating expenses and (b) amounts for capital expenditures.

All amounts reported represent charges to appropriations or authorities approved by Parliament.

TABLE 6.14

Special areas and highways agreement

Loans have been made to finance the development of community and industrial infrastructure projects for special areas, and for highway development, pursuant to terms and conditions of agreements between Canada and the provinces, with the approval of the Governor in Council.

The loans bear interest at rates from 5.768% to 10.164% per annum, and are repayable in equal annual instalments over 1 to 21 years, with final instalments between April 1, 1989 and March 31, 2009.

Federal-provincial employment loans program

Loans have been made, to provinces, provincial agencies and municipalities, to assist in the creation of employment.

The loans bear interest at rates from 6.1% to 7% per annum, and are repayable either in annual instalments over 10 to 20 years, or at maturity, with final repayments between October 1, 1989 and November 30, 1994.

Federal-provincial fiscal arrangements

These amounts represent overpayments in respect of provincial equalization entitlements under the Constitution Acts 1867 to 1982, the Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act, and other statutory authority. These overpayments are non-interest bearing and are recovered in the subsequent year.

Municipal Development and Loan Board

Loans have been made, to provinces and municipalities, to augment or accelerate municipal capital works programs.

The loans bear interest at rates from 5.25% to 5.625% per annum, and are repayable in annual or semi-annual instalments over 15 to 50 years, with final instalments between October 1, 1989 and March 31, 2016.

Special development loans program

Loans have been made, to provinces, provincial agencies and municipalities, to assist in the creation of employment.

The loans bear interest at rates from 6.12% to 7.54% per annum, and are repayable either in annual or semi-annual instalments over 10 to 20 years, or at maturity, with final repayments between March 1, 1991 and March 30, 1993.

Winter capital projects fund

Loans have been made, to provinces, provincial agencies and municipalities, to assist in the creation of employment.

The loans bear interest at rates from 7.2% to 9.84% per annum, and are repayable either in annual instalments over 5 to 20 years, or at maturity, with final repayments between January 16, 1990 and February 28, 1999.

Atlantic Development Board carry-over projects

Loans have been made to finance certain water projects that were carried over from the Atlantic Development Board. Loans were made pursuant to terms and conditions of agreements between Canada and the provinces in the Atlantic region, with the approval of the Governor in Council.

The terms and conditions of the loans, with their year-end balances, are as follows:

- (a) bearing interest at the rate of 7.5% per annum, repayable over 11 years at various anniversary amortization dates, with the final instalment on July 31, 1999, \$749,255; and,
- (b) bearing interest at rates from 7.161% to 8.5% per annum, repayable over 18 years at various anniversary amortization dates, with final instalments between March 31, 2002 and April 1, 2006, \$4,351,486.

Atlantic Provinces Power Development Act

Loans have been made to the Atlantic provinces, to assist in the generation of electrical energy by steam driven generators in the provinces, and in the control and transmission of electric energy.

The loans bear interest at rates from 4.5% to 8.5% per annum, and are repayable in equal annual instalments over 4 to 26 years, with final instalments between March 31, 1992 and March 31, 2014.

Regional electrical interconnections

Loans have been made to assist in financing regional electrical interconnections, under agreements between the Government of Canada and the Provinces of Manitoba, New Brunswick and Nova Scotia.

During the year, additional loans were authorized by Energy, Mines and Resources Vote L20, Appropriation Acts No 1 and No 2, 1988-89.

The loans bear interest at rates from 9% to 9.625% per annum, and are repayable in annual instalments over 29 to 31 years, with final instalments between March 31, 2008 and March 31, 2011.

Comprehensive development plan agreement

Loans have been made to the Province of Prince Edward Island, to assist in financing the realization of a comprehensive and co-ordinated development plan of the province, pursuant to an agreement with the province, whose territory has been designated a "special rural development area".

The terms and conditions of the loans, with their year-end balances, are as follows:

- (a) repayable over 17 years in equal instalments due at various anniversary dates, bearing interest at rates from 6.688% to 9.375% per annum, with final instalments between March 25, 2000 and March 27, 2005, \$4,891,000; and,
- (b) repayable in equal annual instalments over 17 years, bearing interest at rates from 6.688% to 9.375% per annum, with final instalments between March 31, 2001 and March 31, 2005, \$5,933,743.

Agricultural service centres

Loans have been made to provincial and municipal authorities, to assist in the construction or expansion of water supply and waste disposal facilities in key agriculture service centres, which are essential to rural adjustment and urban development in the agricultural portion of the Prairie region.

The loans bear interest at rates from 6.747% to 14.129% per annum, and are repayable in equal annual instalments over 20 years, with final instalments between March 31, 1992 and March 31, 2004.

Government of the Northwest Territories

Loans have been made to the Government of the Northwest Territories, for the following purposes:

	April 1/1988	Receipts and other credits	Payments and other charges	March 31/1989
	\$	\$	\$	\$
Second mortgage . . .	118,437	11,882		106,555
Low cost housing . . .	154,417	25,667		128,750
	272,854	37,549		235,305

The loans bear interest at rates from 5.375% to 8.875% per annum, and are repayable in equal annual instalments over 20 to 25 years, with final instalments between April 1, 1989 and August 27, 1996.

Government of the Yukon Territory

Loans have been made to the Government of the Yukon Territory, for the following purposes:

	April 1/1988	Receipts and other credits	Payments and other charges	March 31/1989
	\$	\$	\$	\$
Second mortgage . . .	83,567	12,712		70,855

Capital projects . . .	5,220,167	560,051		4,660,116
	6,414,007	671,318		5,742,689

The loans bear interest at rates from 5.375% to 12.5% per annum, and are repayable in equal annual instalments over 10 to 35 years, with final instalments between April 1, 1989 and November 24, 2003.

Yukon Territory small business loans

Loans have been made for the establishment or expansion of small businesses in the Yukon Territory.

The total amount authorized to be outstanding at any time is \$5,000,000.

The loans bear interest at rates from 9% to 12% per annum, and were repayable in annual instalments over 10 years, with the final instalment on April 1, 1988. As of March 31, 1989, the loans have not been reimbursed in full.

NATIONAL GOVERNMENTS INCLUDING DEVELOPING COUNTRIES

Loans to national governments consist mainly of the loan to the Government of the United Kingdom under the United Kingdom Financial Agreement Act, international development assistance to developing countries, and loans for development of export trade (administered by the Export Development Corporation).

Table 6.16 presents a summary of the balances and transactions for the loans and advances that were made to national governments including developing countries.

China

A loan to China was authorized under the Export Credits Insurance Act.

Jamaica

Economic assistance

A loan has been made to the Government of Jamaica, to provide economic assistance. The maturity date under the April 20, 1985 loan agreement was August 9, 1989. The applicable interest rate for payments due between August 9, 1985 and August 9, 1989 is 13.375% per annum.

Deferred principal

The loan agreement has been amended by the following Rescheduling Agreements:

- (a) the Rescheduling Agreement dated October 18, 1985, provided for the deferment of principal repayments in the amount of \$5,000,000 due on August 9, 1985; and,

- (b) the Rescheduling Agreement dated June 4, 1987, provided for the deferment of principal repayments totalling \$10,000,000 due on August 9, 1986 and August 9, 1987. The repayment of the deferred principal is to commence on June 30, 1989 and continue until August 15, 1997.

United Kingdom

The United Kingdom Financial Agreement Act, 1946

Under authority of the United Kingdom Financial Agreement Act, a credit of \$1,250,000,000 was extended to the Government of the United Kingdom to facilitate purchases by the United Kingdom of goods and services in Canada and to assist the United Kingdom in meeting transitional post-war deficits in its current balance of payments, in maintaining adequate reserves of gold and dollars, and in assuming the obligations of multilateral trade. The amount of the credit drawn by December 31, 1951 was to be repaid in 50 annual instalments beginning on that date, with interest at the rate of 2% per annum, with the final instalment on December 31, 2000.

Deferred principal

The agreement, as amended in 1957, provides for the deferment of interest in respect of the year 1956 and of seven instalments of principal and interest after December 31, 1956, under certain conditions. Interest for 1956, and interest and principal for 1957, 1964, 1965, 1968 and 1976 were deferred. The maturity of the deferrals is to commence December 31, 2001, and continue until December 31, 2006.

Developing countries—International development assistance

Loan assistance has been made to developing countries for international development assistance. Since April 1, 1986, loans under negotiated loan agreements in existence at March 31, 1986 were made under various budgetary authorities (including External Affairs Vote 30, Appropriation Acts No 1 and No 2,

1988-89). Previous to this date, all loans to developing countries were paid under non-budgetary authority.

During the year, loans totalling \$68,068,291 were forgiven pursuant to the Forgiveness of Certain Official Development Assistance Debts Act.

The following table presents the balances and transactions for the loans made to developing countries, together with their terms and conditions of repayments. The closing balance of loans to individual countries includes, where applicable, total payments made under both budgetary and non-budgetary authorities. The total budgetary payments to all countries are deducted as a lump sum amount under the caption "Payments made under budgetary authority" at the end of the table to arrive at the amount reported in Table 6.16 as international development assistance to developing countries.

Note: Grace period refers to interval from date of issuance of the loan to first repayment of loan principal.

⁽¹⁾ Sub-Saharan countries became eligible to benefit from Canada's 5 year official development assistance debt moratorium announced in 1986.

⁽²⁾ Joint project involving Kenya, Tanzania and Uganda.

⁽³⁾ Joint project involving Mali and Senegal.

⁽⁴⁾ The Forgiveness of Certain Official Development Assistance Debts Act authorized the forgiveness of official development assistance debts of the East African Community, Mauritania and Togo.

Similar assistance has been provided to developing countries by way of subscriptions to the capital of the International Development Association and loans to other international financial institutions. These are reported later in this section under the heading "International organizations".

Development of export trade

Pursuant to Section 31 of the Export Development Act, the Governor in Council may authorize the Corporation to make loans to foreign customers where the liability is for a term, or in an amount in excess of that normally assumed by the Corporation. Such loans are financed directly by payments out of the Consolidated Revenue Fund and are administered by the Corporation on behalf of the Government of Canada.

Since April 1, 1987, certain loans for the development of export trade are made under budgetary authority.

The following table presents the balances and transactions for the loans made to national governments, together with their terms and conditions of repayments. The closing balance of loans to national governments includes, where applicable, total payments made under both budgetary and non-budgetary authorities. The total budgetary payments are deducted as a lump sum amount under the caption "Payments made under budgetary authority" at the end of the table to arrive at the amount reported in Table 6.16.

	April 1/1988	Receipts and other credits	Payments and other charges	March 31/1989
	\$	\$	\$	\$
(a) 1 to 5 year term, 7.5% interest per annum, with final repayments in July 1995:

Pakistan	1,393,832	77,042	2,806,852	4,123,642
	19,380,852	3,008,476	65,299,214	81,671,590
	580,078,831	45,160,489	109,538,394	644,456,736
Less: payments made under budgetary authority	17,946,104	52,769,603		70,715,707
	562,132,727	97,930,092	109,538,394	573,741,029

During the year, receipts and other credits included loan repayments of \$34,650,242, a valuation adjustment of \$10,510,247 in respect of loans totalling \$63,930,468 US and \$6,298,480 ECU (European Currency Unit), while payments and other charges included loans and guarantees of \$109,538,394. Interest of \$27.1 million was received and credited to non-tax revenue.

North Atlantic Treaty Organization—Damage claims recoverable

Article VIII of the NATO Status of Forces Agreement signed April 4, 1949, as amended, deals with claims for damages to third parties arising from accidents in which a member of a visiting force is involved. This account is charged with the amount recoverable from other states, for claims for damages which took place in Canada, and is credited with recoveries.

The advances are non-interest bearing and have no specific repayment terms.

INTERNATIONAL ORGANIZATIONS

This group records Canada's subscriptions to the capital of the African Development Bank, the Asian Development Bank, the Caribbean Development Bank, the Inter-American Development Bank, the International Bank for Reconstruction and Development (i.e. World Bank), the International Development Association and the International Finance Corporation. It also includes loans and advances to other international organizations.

Capital subscriptions are made in part by the issuance of non-interest bearing, non-negotiable demand notes. The amounts advanced or loaned vary according to the needs of the organizations concerned, and the terms of the agreements.

The net position of the Government vis-à-vis the international organizations has been obtained by deducting from subscriptions, loans and advances, the non-interest bearing notes issued by Canada to these organizations. These notes, payable on demand, represent that portion of the investment by Canada in these organizations which has not yet been encashed by them. These notes are encashed subject to the financial requirements of these organizations.

Since April 1, 1986, note encashments, and cash subscriptions/loans to international financial institutions are now made under budgetary authority. However, subscriptions/loans made by the issuance of non-interest bearing notes continue to be under non-budgetary authority.

Table 6.17 presents a summary of the balances and transactions for the subscriptions, loans and advances to international organizations. The closing balance of loans/subscriptions to international financial institutions includes, where applicable, total loans/subscriptions made under both budgetary and non-budgetary authorities. The total budgetary payments to all international financial institutions are deducted as a lump sum amount under the caption "Payments made under budgetary authority" at the end of the table to arrive at the total amount reported in Table 6.1 as International organizations (net). In addition, Table 6.18 presents additional disclosure of information related to subscriptions to the capital of international development institutions.

⁽¹⁾ The subscriptions to the Association and the loans to the international financial institutions are used to lend funds to developing countries at rates favourable to the borrowers. In addition, as described earlier in this section, under the heading "National governments including developing countries", international development assistance has also been provided to developing countries.

⁽¹⁾ Foreign currencies were translated into Canadian dollars using the closing rates of exchange at March 31, 1989 (\$1US = \$1.1925 Cdn; 1SDR = \$1.54156 Cdn).

⁽²⁾ Commitments to the institutions will require future "Maintenance of value" payments.

According to the Articles of Agreement of the World Bank, countries are obliged to maintain the value of certain portions of their paid-in capital subscriptions and contributions. The World Bank has not had a workable standard of value since 1978 when the formal link between the US dollar and gold was broken. The World Bank agreed not to seek payment of these obligations pending the establishment of a new standard of value for the Bank. Maintenance of value obligations do not exist for International Development Association contributions. In October 1986, the Executive Board agreed upon the "1974 SDR" as a successor standard of value. The 1974 SDR is a fixed US dollar equivalent of the value of the SDR prevailing in 1974 (\$1.20635 US = 1 SDR). Maintenance of value payments resumed July 1, 1987. It is expected that other institutions will follow this lead.

⁽³⁾ Canadian currency equivalent of 42,000,000 units of account. One unit = \$1.20635 US = \$1.1556 Cdn as of May 1979.

⁽⁴⁾ Canadian currency equivalent of 126,000,000 units of account. One unit = \$1.20635 US = \$1.1556 Cdn as of May 1979.

⁽⁵⁾ These amounts are reflected as non-lapsing non-budgetary authorities in the External Affairs ministerial section of Volume II, Part I (Section 9).

⁽⁶⁾ This amount excludes a maintenance of value payment of \$1,192,625.

⁽⁷⁾ Canada's subscription is for 23,164 shares. Payments are accounted for as a proportion of each share.

⁽⁸⁾ Total subscription valued at \$2,768,962,000 US. Callable value translated at \$1 US = \$1.1925 Cdn, representing approximately 91% of the total subscription.

⁽⁹⁾ Subscription and payment authorities are annual budgetary voted items presented in the Finance ministerial section of Volume II, Part I (Section 10).

⁽¹⁰⁾ There are no outstanding subscriptions other than the notes payable in Table 6.17. Accounting is based on dollar values rather than number of shares.

⁽¹¹⁾ This represents a commitment by Canada to the capital of the Corporation to be paid by 1990, rather than a "callable" amount.

⁽¹²⁾ Canada has agreed to lend the Enhanced Structural Adjustment Facility SDR 300 million and to subsidize the interest rate on the loan through a grant of approximately SDR 165 million.

African Development Bank

This account records Canada's subscriptions to the capital of the African Development Bank, as authorized by the International Development (Financial Institutions) Assistance Act, and various appropriation acts (including External Affairs Vote L40, Appropriation Acts No 1 and No 2, 1988-89).

During the year, payments and other charges included additional subscriptions in non-interest bearing demand notes.

Asian Development Bank

This account records Canada's subscriptions to the capital of the Asian Development Bank, as authorized by the International Development (Financial Institutions) Assistance Act, and various appropriation acts (including External Affairs Vote L40, Appropriation Acts No 1 and No 2, 1988-89).

During the year, there were no additional subscriptions made.

Caribbean Development Bank

This account records Canada's subscriptions to the capital of the Caribbean Development Bank, as authorized by the International Development (Financial Institutions) Assistance Act, and various appropriation acts (including External Affairs Vote L40, Appropriation Acts No 1 and No 2, 1988-89).

During the year, there were no additional subscriptions made.

Inter-American Development Bank

This account records Canada's subscriptions to the capital of the Inter-American Development Bank, as authorized by the International Development (Financial Institutions) Assistance Act, and various appropriation acts (including External Affairs Vote L40, Appropriation Acts No 1 and No 2, 1988-89).

During the year, there were no additional subscriptions made.

International Bank for Reconstruction and Development (World Bank)

This account records Canada's subscriptions to the capital of the International Bank for Reconstruction and Development (IBRD), as authorized by the Bretton Woods and Related Agreements Act, and various appropriation acts (including Finance Vote L5, Appropriation Acts No 1 and No 2, 1988-89).

During the year, payments and other charges included additional subscriptions in cash.

International Development Association

This account records Canada's subscriptions to the capital of the International Development Association, as authorized by the Bretton Woods and Related Agreements Act, and various appropriation acts (including Finance Vote L10, Appropriation Acts No 1 and No 2, 1988-89). The subscriptions to the Association, which is part of the World Bank Groups, are used to lend funds to developing countries for development purposes, at rates highly favourable to the borrower (no interest, with a 50 year maturity and 10 years of grace).

During the year, payments and other charges included additional subscriptions in the form of non-interest bearing, non-negotiable demand notes.

International Finance Corporation

This account records Canada's subscriptions to the capital of the International Finance Corporation, which is part of the World Bank Groups, as authorized by various appropriation acts (including Finance Vote 5, Appropriation Acts No 1 and No 2, 1988-89).

During the year, payments and other charges included additional subscriptions in cash.

Multilateral Investment Guarantee Agency

This account records Canada's subscriptions to the capital of the Multilateral Investment Guarantee Agency as authorized by an Act to amend the Bretton Woods and Related Agreements Act.

During the year, payments and other charges included subscriptions in cash and in non-interest bearing demand notes.

International financial institutions

This account records loans for assistance to international financial institutions, as authorized by the International Development (Financial Institutions) Assistance Act, and various appropriation acts (including External Affairs Vote L35, Appropriation Acts No 1 and No 2, 1988-89).

The balances and transactions for loans to various international financial institutions are as follows:

	April 1/1988	Receipts and other credits	Payments and other charges	March 31/1989
	\$	\$	\$	\$
African Development Bank	4,093,896	125,000		3,968,896

International Tin Council

This account records Canada's subscriptions to the International Tin Council, as authorized by previous appropriation acts. The subscriptions are for the investment in the buffer stock previously established and carried forward under the Sixth International Tin Agreement.

International Natural Rubber Agreement

This account records Canada's contributions to the financing of the natural rubber buffer stock, as authorized by previous appropriation acts. Pursuant to the International Natural Rubber Agreement, 1979, Canada is committed to participate in the funding of the rubber buffer stock up to \$12,500,000.

International Monetary Fund—Enhanced Structural Adjustment Facility

This account records the loan to the International Monetary Fund in order to provide assistance to debt distressed, low-income countries as authorized by an Act to amend the Bretton Woods and Related Agreements Act.

During the year, payments and other charges included a loan in cash.

International organizations and associations

These items represent the historical value of payments made by the Canadian Government to working capital funds maintained by international organizations of which Canada is a member. Participation in the financing of these working capital funds, on the basis of the scale of assessments, is prescribed by financial regulations for membership in the organizations. Payments into the funds are not subject to interest or repayment schedules, but are recorded by the organizations as credits from member states. Payments by Canada were authorized by appropriation acts.

During the year, an additional advance to the working capital fund of the Food and Agriculture Organization was authorized by Governor General's special warrants. The adjournment of Parliament on December 30, 1988 and its prorogation on February 28, 1989, before the final Supplementary Estimates for 1988-89 had been granted, necessitated recourse to Governor General's special warrants.

During the year, Canada made a payment of \$202,675 US valued at \$241,183 Cdn to the Food and Agriculture Organization.

VETERANS' LAND ACT FUND ADVANCES

Advances have been made, under Parts I and III of the Veterans' Land Act, for the acquisition of land, permanent improvements, removal of encumbrances, purchase of stock and equipment, and protection of security. The total amount authorized to be outstanding at any time is \$605,000,000.

A provision equal to 1/10 of the benefits to veterans was established each year up to and including 1978-79. Since that time, a forecast of requirements has been performed each year, and provisions are established as necessary. These provisions are charged to budgetary expenditure and credited to the allowance for conditional benefits account. The allowance for conditional benefits account represents the accumulated net provisions for benefits to veterans in the form of forgiveness of loans authorized by the Veterans' Land Act. These benefits come into effect only after certain conditions are fulfilled by the veterans. At the end of 10 years, the conditions having been met, the accumulated provision is charged to the allowance for conditional benefits account, and credited to the veteran's loan account.

Table 6.19 summarizes the balances and transactions for advances to the Veterans' Land Act Fund.

TABLE 6.19

VETERANS' LAND ACT FUND

	April 1/1988	Receipts and other credits	Payments and other charges	March 31/1989	Net increase or decrease (—)

JOINT AND MIXED ENTERPRISES

Joint and mixed enterprises are entities with share capital owned jointly by the Government and other governments and/or organizations to further common objectives. This group records and/or reports the Government's loans, investments and advances to such entities. Additional information on these entities is provided in Volume III of the Public Accounts.

Under the terms of Section 147 of the Bankruptcy Act, the Superintendent of Bankruptcy has received shares in a number

of corporations in lieu of a cash levy payable to the Crown. The Government's purpose in sharing ownership in these corporations with other entities is not to further common operating objectives.

Table 6.20 presents a summary of the balances and transactions for the various types of loans, investments and advances to joint and mixed enterprises.

TABLE 6.20

⁽¹⁾ This account was previously reported in Table 6.3.

Air Canada

The Corporation was established by the Air Canada Act, and continued under the Canada Business Corporations Act, to provide scheduled domestic and international air services to North America, the British Isles, continental Europe and the Caribbean.

Capital stock

During the year, the Air Canada Public Participation Act, which came into force on August 18, 1988, authorized the Government to dispose of its shares in the Corporation. It also

authorized the Corporation to issue shares to the public. On October 13, 1988, the Corporation issued common shares to the public and at that time, ceased to be a Crown corporation.

The Government's investment in the capital of the Corporation is recorded in this account.

Consolidated loan

The loan bears interest at the rate of 7.243% per annum, and is repayable in semi-annual instalments over 15 years, with the final instalment on April 13, 1993.

Canarctic Shipping Company Limited

The Corporation was incorporated under the Canada Corporations Act, and continued under the Canada Business Corporations Act, to acquire, sell, lease, charter and otherwise deal in and with ships of every description, and to do all other things necessary or incidental thereto.

In 1977-78, 305,996 common shares of Canarctic Shipping Company Limited having a total value of \$305,996, and representing 51% of the common shares outstanding, were purchased and charged to budgetary expenditure (Transport Vote 10—Marine operating expenditures). The balance of outstanding shares is owned by North Water Navigation Ltd.

Cooperative Energy Corporation

The Corporation was incorporated under the Cooperative Energy Act, to operate an energy corporation whose primary activity is to explore and develop new Canadian oil and gas resources. The Corporation is a holding company whose shareholders are the participating co-operatives and the Government of Canada. The objective of the Government's participation is to bring together a number of co-operative financial, agricultural, service and marketing institutions to participate in the Canadian oil and gas industry.

The Minister of Energy, Mines and Resources may subscribe for, acquire and hold shares and equity debentures of the Corporation for the Government of Canada.

The Government's investment in the capital of the Corporation, as authorized by the Cooperative Energy Act, is recorded in this account.

As of March 31, 1989, the Government's investment was made up of 578,040 class B shares with a value of \$57,804,000.

The Government's holding of shares represents 25% ownership of the Corporation.

Lower Churchill Development Corporation Limited

The Corporation was incorporated under the Companies Act of Newfoundland, to establish a basis for the development of all or part of the hydroelectric potential of the Lower Churchill basin and the transmission of this energy to markets.

This account records the Government's investment in the capital of the Corporation. In respect of Canada's participation with the Government of Newfoundland in the development of the hydroelectric power potential of the Lower Churchill River in Labrador, the Government is authorized to purchase approximately 49% of the shares of the Lower Churchill Development Corporation Limited.

The Government has purchased 1,475 class A shares, representing 49% of the shares outstanding. The balance of the outstanding shares is owned by Newfoundland and Labrador Hydro (an agent of the Government of Newfoundland and Labrador).

Mohawk St Régis Lacrosse Ltd

The Corporation was incorporated under the Business Corporations Act of Ontario, to acquire assets of an insolvent lacrosse stick manufacturing company located on St Régis Reserve, Cornwall Island.

The Government's holding in the Corporation consists of 1,000 common shares, which represent 10% of the authorized capital.

The formal dissolution of Mohawk St Régis Lacrosse Ltd was completed on March 21, 1989.

National Sea Products Ltd

The Corporation was incorporated under the Nova Scotia Companies Act, to process and market fish, seafoods and fish by-products. The objective of the Government's participation is to restructure the Nova Scotia fishery.

Pursuant to the Atlantic Fisheries Restructuring Act, the Government has acquired shares in the Corporation. The Government's holding consists of 1,552,976 no par value common shares and 1,552,976 no par value non-voting equity shares. This represents 19.6% of the shares outstanding.

Newfoundland and Labrador Development Corporation Limited

The Corporation was incorporated under the Companies Act of Newfoundland, to assist small and medium-sized businesses in Newfoundland and Labrador through loan and equity financing, management advisory services, and other related services.

Capital stock

The Government has purchased 200 ordinary \$1 par value common shares of Newfoundland and Labrador Development Corporation Limited, in accordance with an agreement between Canada and Newfoundland pursuant to Section 5(3)(c) of the Special Areas Act. This represents 40% of the authorized shares. The balance of the outstanding shares is owned by the Government of Newfoundland and Labrador. On March 29, 1989, an agreement was reached between Canada and Newfoundland whereby the Newfoundland Government will purchase these shares as part of an agreement to effect the withdrawal of the Government of Canada from the Corporation.

Loans

Loans have been made to provide financing and other services to small and medium-sized businesses in Newfoundland.

The loans bear interest at rates from 10.5% to 17% per annum, and are repayable between April 1, 1989 and April 1, 1999.

North Portage Development Corporation

The Corporation was incorporated under the Manitoba Corporations Act, to foster the social and economic development of the North Portage area in the core area of Winnipeg. The objective of the Government's participation is to stimulate economic recovery in Canada and Manitoba.

The Government's holding of common shares represents 33.3% of the shares outstanding. The Corporation is owned equally by the City of Winnipeg, the Province of Manitoba and the Government of Canada.

NPM Nuclear Project Managers Canada Inc

The Corporation was incorporated under the Canada Business Corporations Act, to manage nuclear projects and construction. The objective of the Government's participation is to transfer this activity from Atomic Energy of Canada Ltd to the private sector.

The Government has purchased 60 no par value common shares.

The Government's holding of shares represents 13.34% of the shares outstanding. The balance of the outstanding shares is owned by four private sector corporations.

Société Inter-Port de Québec

The Corporation was incorporated by a Special Act of the Government of Quebec, to develop and implement plans and programs for an industrial complex, using the infrastructure of the Quebec harbour, and contributing to the development of that same infrastructure.

The Government has purchased 400 common shares of the Corporation at \$1 per share. This represents 40% of the authorized shares. The balance of the outstanding shares is owned by the Government of Quebec.

Telesat Canada

The Corporation was incorporated by the Telesat Canada Act, to establish multi-purpose satellite telecommunication systems.

The Government has purchased 3,000,000 common shares of the Corporation at \$10 per share, for \$30,000,000. This investment represents 49.99% of the common shares outstanding.

MISCELLANEOUS

This group records loans, investments and advances not classified elsewhere.

Table 6.21 presents a summary of the balances and transactions for the various types of miscellaneous loans, investments and advances.

TABLE 6.21

⁽¹⁾ This account was previously reported in Table 6.3.

Missions abroad

Non-interest bearing advances have been made for interim financing of expenditures at missions abroad, pending distribution to appropriations of External Affairs and other departments and agencies.

During the year, the amount authorized to be outstanding at any time was increased to \$50,000,000 by Treasury Board (Government contingencies) Vote 5, Appropriation Acts No 1 and No 2, 1988-89.

Personnel posted abroad

A working capital advance account was established to finance loans and advances to employees posted abroad, including employees of other Government departments and agencies, as well as medical advances to locally-engaged staff.

During the year, the amount authorized to be outstanding at any time was increased to \$18,500,000 by Treasury Board (Government contingencies) Vote 5, Appropriation Acts No 1 and No 2, 1988-89.

The closing balance consists of loans to employees, \$782,462; advances for medical expenses, \$1,650,359; security and other deposits under Foreign Service Directives, \$15,804; and, school debentures, \$217,978.

The loans to employees bear interest at rates from 8% to 11% per annum, and are repayable over 4 years, with final instalments between April 1, 1989 and June 30, 1992.

Imprest accounts, standing advances and authorized loans

This account was established for the purpose of financing: (a) public funds imprest and public funds advance accounts; (b) standing advances; (c) authorized loans and advances to employees posted abroad; and, (d) authorized recoverable advances to establish military messes and canteens.

The total amount authorized to be outstanding at any time is \$60,000,000.

Personnel posted in Canada

This account records imprest bank account advances made to regional offices.

The total amount authorized to be outstanding at any time is \$1,950,000.

Miscellaneous accountable advances

The closing balance reflects amounts outstanding in the hands of departments, agencies and individuals, at year end, to be expended in the following year.

Miscellaneous accountable imprest and standing advances

This account is operated to provide standing travel advances, petty cash and imprest bank account advances, to departments and agencies.

The total amount authorized to be outstanding at any time is \$17,000,000.

Construction of multi-purpose exhibition buildings

Loans have been made to finance the construction of multi-purpose exhibition buildings.

The terms and conditions of the loans, with their year-end balances, are as follows:

- (a) repayable over 28 to 30 years, bearing interest at rates from 7.432% to 9.684% per annum, with final instalments between May 31, 1995 and May 1, 2008, \$17,224,793;
- (b) repayable over 20 to 26 years, bearing interest at rates from 7.266% to 9.420% per annum, with final instalments between December 31, 1992 and February 15, 2005, \$1,867,654; and,
- (c) repayable over 15 years, bearing interest at a rate of 8.209% per annum, with the final instalment on August 1, 1989, \$29,769.

Loans to assist industry in the Cape Breton area

Loans have been made for the purpose of promoting the establishment, growth, efficiency and international competitiveness of Canadian industry or to assist them in their financial restructuring and to foster the expansion of Canadian trade to a person engaged or about to engage in a manufacturing, processing or service industry in the Cape Breton area.

During the year, additional loans were authorized by Atlantic Canada Opportunities Agency, Vote L10, Appropriation Acts No 1 and No 2, 1988-89.

The loans bear interest at rates from 11% to 13.25% per annum, and are repayable at various dates between September 30, 1989 to September 30, 1993.

Cultural property

Loans have been made to institutions and public authorities in Canada, for the purchase of objects in respect of which export permits have been refused under the Cultural Property Export and Import Act, or for the purchase of cultural property situated outside Canada which is related to the national heritage.

During the year, additional loans were authorized by Communications Vote L20, Appropriation Acts No 1 and No 2, 1988-89. The total loan authority is \$10,000 per year.

The terms and conditions of the loans, with their year-end balances, are as follows:

- (a) bearing interest at the rate of 8.995% per annum, repayable over 5 years, with the final instalment on March 23, 1993, \$8,000; and,
- (b) bearing interest at the rate of 10.455% per annum, repayable over 5 years, with the final instalment on September 30, 1993, \$3,182.

Assisted passage scheme

Section 119 of the Immigration Act authorizes the making of loans to immigrants and other such classes of persons.

The total amount authorized to be outstanding at any time is \$90,000,000.

The terms and conditions of the loans, with their year-end balances, are as follows:

- (a) repayable by monthly instalments over 1 to 5 years, with a possible deferment of 2 years, bearing interest at rates from 6% to 15% per annum, with final instalments between April 1, 1989 and April 1, 1994, \$4,408,225; and,
- (b) repayable by monthly instalments over 1 to 5 years, with a possible deferment of 2 years, non-interest bearing, with final instalments between April 1, 1989 and April 1, 1994, \$72,460,218.

Hydro-Quebec Research Institute

Loans have been made to the Hydro-Quebec Research Institute, guaranteed by the Province of Quebec, to provide financial assistance for construction and operation of the Institute.

The loans bear interest at rates from 7.187% to 7.937% per annum, and are repayable in equal annual instalments over 25 years, with the final instalment on March 25, 1999.

Development of export trade

Pursuant to Section 31 of the Export Development Act, the Governor in Council may authorize the Corporation to make loans where the liability is for a term, or in an amount in excess of that normally assumed by the Corporation. Such loans are financed directly by payments out of the Consolidated Revenue Fund and are administered by the Corporation on behalf of the Government of Canada.

Since April 1, 1987, certain loans for the development of export trade are made under budgetary authority.

The following table presents the balances and transactions for the loans made to the private sector, together with their terms and conditions of repayments. The closing balance of loans to the private sector includes, where applicable, total payments made under both budgetary and non-budgetary authorities. The total budgetary payments are deducted as a lump sum amount under the caption "Payments made under budgetary authority" at the end of the table to arrive at the amount reported in Table 6.21.

	April 1/1988	Receipts and other credits	Payments and other charges	March 31/1989
	\$	\$	\$	\$
(a) 1 to 5 year term, 0% to 9.5% interest per annum, with final repayments between September 1988 and September 1992:				
Cuba	19,724,617	20,970,007	1,377,808	132,418
Nigeria	82,939			82,939
Norway	25,227,243	866,171		24,361,072
United States	14,839,503	509,511		14,329,992
	59,874,302	22,345,689	1,377,808	38,906,421
(b) 6 to 10 year term, 0% to 8.75% interest per annum, with final repayments between September 1988 and August 1996:				
India	1,818,704	1,818,704		
(c) 11 to 15 year term, 6.25% to 9.5% interest per annum, with final repayments between October 1991 and April 1995:				
Brazil	13,629,675	5,535,032		8,094,643
Zambia	150,111			150,111
	13,779,786	5,535,032		8,244,754
(d) 40 year term, 0% interest per annum, with final repayment in March 2036:				
Antigua	35,019,285	2,572,462		32,446,823
	110,492,077	32,271,887	1,377,808	79,597,998
	1,818,704		1,818,704	
Less: payments made under budgetary authority				
	108,673,373	32,271,887	3,196,512	79,597,998

During the year, receipts and other credits included loan repayments of \$29,425,548, and a valuation adjustment of \$2,846,339 in respect of loans totalling \$26,375,628 US, while

payments and other charges included loans of \$1,377,808. Interest of \$2.6 million was received and credited to non-tax revenue.

Canadian Commercial Bank

Advances have been made to the Canadian Commercial Bank representing the Government's participation in the support group as authorized by the Canadian Commercial Bank Financial Assistance Act. These funds represent the Government's participation in the loan portfolio that was acquired from the Bank (the Government of Canada's share is \$60 million) and the purchase of outstanding debentures from existing holders (\$13 million).

Ottawa Civil Service Recreational Association

Loans have been made to the Ottawa Civil Service Recreational Association, to assist in the building and development of the W Clifford Clark Memorial Centre.

The loans bear interest at rates from 4.25% to 5.375% per annum, and are repayable in equal semi-annual instalments over 25 and 45 years, with final instalments between September 30, 1990 and September 30, 2005.

Saint John Harbour Bridge Authority

Advances have been made to the Saint John Harbour Bridge Authority in connection with the financing, construction and operation of a toll bridge across the harbour of Saint John, NB. The total amount of advances in each year is to be based on the difference for the year between the operating and financing costs of the toll bridge, and the revenue of the Bridge Authority, repayable when the revenue of the Bridge Authority for the year exceeds the amount of the operating and financing costs for such year. The advances bear interest at rates from 5.875% to 16.375% per annum.

Advances made to the Authority to meet payments on Municipal Development and Loan Board loans and/or Canada Ports Corporation loans, have also been charged to this account. During the year, additional loans were authorized by Finance Vote L25, Appropriation Acts No 1 and No 2, 1988-89.

Town of Oromocto Development Corporation

Loans have been made to the Town of Oromocto Development Corporation, for housing projects in the Town of Oromocto, New Brunswick. The total loan authority is \$750,000.

The loans bear interest at rates of 5% and 5.75% per annum, and are repayable in equal semi-annual instalments over 30 years, with final instalments between June 1, 1989 and February 15, 1992.

Canadian producers of frozen groundfish

Loans have been made to Canadian producers of frozen groundfish, canned and frozen crabmeat, and canned and frozen lobster meat, to assist in the financing of inventories. The total loan authority is \$5,500,000.

The loans bore interest at the rate of 13% per annum, and were repayable in equal annual instalments over 7 years, with the final instalment in December 1987.

Groundfish processors

Loans have been made to assist processors of groundfish in Canada, who, as determined by the Fisheries Prices Support Board, are unable to obtain sufficient financing on reasonable terms from other sources, to maintain raw fish prices, i.e. prices to primary producers, at the 1966-68 level. The total loan authority is \$6,000,000. The loans bear interest at the rate of 8.75% per annum, and were repayable in equal annual instalments over 7 years, with the final instalment in December 1984. No loan repayments nor interest were received since November 1982.

Loans, in the amount of \$3,000,000, have also been made to ice-affected fish plants in Newfoundland, Labrador and North Shore, Quebec, to provide advances for working capital assistance to Canadian producers of groundfish products in Newfoundland and Quebec, who were affected by severe ice conditions in May and June 1974. The loans bear interest at rates from 8% to 10% per annum, and were repayable in equal annual instalments over 7 years, with the final instalment in December 1985.

Haddock fishermen

Loans have been made to Nova Scotia haddock fishermen whose fishery was closed from February 1 to May 31, 1975, pursuant to an agreement under the International Agreement for the Northwest Atlantic Fisheries. The total loan authority is \$1,650,000.

The loans bore interest at the rate of 8% per annum, and were repayable in equal annual instalments over 4 years, with the final instalment in 1979. Parliamentary authority is required to write-off the balance.

Chippewa Band of Kettlepoint

A non-interest bearing loan was made to the Chippewa Band of Kettlepoint, to purchase Lots 60 and 61 in Lake Road, West Concession, in the Township of Bosanquet, County of Lambton, Ontario.

During the year, the loan was repaid in full.

Council for Yukon Indians

Loans have been made to the Council for Yukon Indians, to provide interim benefits to elderly Yukon Indians pending settlement of Yukon Indians land claims.

During the year, additional loans were authorized by Indian Affairs and Northern Development Vote L25, Appropriation Acts No 1 and No 2, 1988-89.

The loans are repayable in full upon settlement of land claims, and are non-interest bearing before an Agreement-in-Principle for the settlement of a claim is reached.

Eskimo loan fund

Loans have been made to individual Eskimos or groups of Eskimos, to promote commercial activities and gainful occupations. Loans have also been made to co-operative associations,

credit unions, caisses populaires or other credit societies incorporated under provincial laws, where the majority of members are Eskimos, or to corporations incorporated under the laws of Canada, or provincial laws, where the controlling interest is held by Eskimos.

The total amount authorized to be outstanding at any time is \$7,072,000.

The loans bear interest at rates from 5% to 19.5% per annum, and are repayable over 1 to 15 years, with final instalments between April 1, 1989 and February 2, 2003.

Indian economic development fund

Loans have been made for the purposes of economic development of Indians, to Indians or Indian bands, or to individuals, partnerships or corporations, the activities of which contribute or may contribute to such development.

The total amount authorized to be outstanding at any time is \$70,000,000.

The loans bear interest at rates from 5% to 21% per annum, and are repayable over 4 month to 15 years, with final instalments between April 1, 1989 and April 1, 2004.

Indian housing assistance fund

Second mortgage loans have been made to provide financial assistance to Indians and Inuit, for the construction and acquisition of houses and land, in areas other than Indian reserves. The purposes of the account were extended to authorize loans and advances to Indians and Inuit, for repairs or improvements to houses at time of purchase, in areas other than Indian reserves.

The total amount authorized to be outstanding at any time is \$20,000,000.

The loans are non-interest bearing, and are repayable in full by equal annual instalments or forgiveness, or, when the borrower sells the property. Whenever certain conditions of occupancy and maintenance are satisfied, instalments are forgiven at the rate of 10% per annum for up to 10 years.

During the year, \$44,180 was forgiven under the authority of Northern Affairs and National Resources Vote L51a, Appropriation Act No 9, 1966.

Inuvialuit Regional Corporation

A loan has been made to the Inuvialuit Regional Corporation pursuant to Section 6 of the Western Arctic (Inuvialuit) Claims Settlement Act to meet the monetary obligations of the Government under Section 15(4) of the agreement dated June 5, 1984, between the Committee for Original Peoples' Entitlement representing the Inuvialuit of the Inuvialuit Settlement Region, and the Government of Canada.

The total loan authority is \$30,000,000 per year as long as the total outstanding loans do not exceed \$79,091,000.

The loan bears interest at the rate of 8% per annum, calculated semi-annually, not in advance, and any accrued interest or loans outstanding, exceeding \$80,543,000 are repayable on December 31, 1989.

Native claimants

Loans have been made to native claimants, to defray the costs related to the research, development and negotiation of claims.

During the year, additional loans were authorized by Indian Affairs and Northern Development Vote L20, Appropriation Acts No 1 and No 2, 1988-89.

The terms and conditions of the loans are as follows:

- (a) loans made before an Agreement-in-Principle for the settlement of a claim is reached are non-interest bearing;
- (b) loans made after the date on which an Agreement-in-Principle for the settlement of a claim has been reached, bear interest at a rate equal to the rate established by the Minister of Finance in respect of borrowings for equivalent terms by Crown corporations; and,
- (c) loans are due and payable, as to principal and interest, on the date on which the claim is settled, or on a date fixed in the agreement, which shall be not later than March 31, 1998, whichever date is earlier.

Northern Canada Power Commission

The Corporation was established by the Northern Canada Power Commission Act, to construct, purchase, rent or otherwise acquire, operate and maintain electrical power plants within the Northwest Territories and the Yukon Territory and, with the approval of the Governor in Council, but subject to the laws of the provinces, elsewhere in Canada.

Loans

Loans have been made to the Corporation for capital expenditures. During the year, additional loans were authorized under the authority of Indian Affairs and Northern Development Vote L55, Appropriation Acts No 1 and No 2, 1988-89.

The loans bear interest at rates from 4% to 15.625% per annum, and are repayable annually up to March 31, 2024.

The Northern Canada Power Commission (Share Issuance and Sale Authorization) Act, as passed by the House of Commons on April 13, 1988, authorized:

- the conversion of debt due to Her Majesty of \$96 million into share capital of \$43 million and a promissory note of \$53 million (Sections 4(1) and 5);
- the transfer of the property, rights and interests of Her Majesty held in the name of the Corporation and used in relation to its operations in the Northwest Territories to the Corporation (Section 6(1));
- the transfer of all outstanding liabilities and obligations of Her Majesty incurred by the Corporation in relation to its operations in the Northwest Territories to the Corporation (Section 6(2));
- the sale of shares and the assignment of the promissory note to the Government of the Northwest Territories (Section 7); and,

- the write-off to budgetary expenditure and the deletion from the accounts of Canada of the excess of the value of the shares issued and of the promissory note as recorded in the accounts of Canada over the proceeds from the sale of shares and the assignment of the promissory note (Section 9(1)).

During the year, the shares were sold and the promissory note was assigned for a total cash amount of \$53 million. In addition, an amount of \$43 million was written-off to budgetary expenditure and deleted from the accounts of Canada. The Government recuperated \$1.5 million of accrued interest from April 1, 1988 to the date of the sale.

Advances

Section 16 of the Northern Canada Power Commission Act authorized the payment to the Commission of \$50,000 for the purpose of meeting expenditures incurred in carrying out investigations in accordance with Section 15 of the Act.

Yukon Energy Corporation

In accordance with Section 4(2) of the Northern Canada Power Commission Yukon Assets Disposal Authorization Act, the Northern Canada Power Commission (formerly a Crown corporation) transferred its assets in the Yukon Territory to the Yukon Energy Corporation effective March 31, 1987.

Loans have been made to assist the Yukon Energy Corporation in acquiring the Northern Canada Power Commission Yukon Assets pursuant to Section 7(1) of the Northern Canada Power Commission Yukon Assets Disposal Authorization Act.

The terms and conditions of the loans, with their year-end balances, are as follows:

- (a) loans in the amount of \$15,200,000 bear interest at the rate of 9% per annum, are repayable in equal principal annual instalments of \$400,000 plus interest, with the final principal instalment on March 31, 1997 of \$12,000,000 plus interest; and,
- (b) loans in the amount of \$38,250,000 bear interest at the rate of 7% per annum, are repayable in equal principal annual instalments of \$1,000,000 plus interest with the final instalment on January 1, 2028. The instalment is subject to certain principal deferral and interest abatement provisions depending on the sales volume of electrical power.

Provincial workers' compensation boards

This account is operated under the authority of Section 4(6) of the Government Employees Compensation Act, to provide operating funds to enable provincial compensation boards to administer the Act on behalf of the Crown, and pay claims to Canadian Government employees injured in the course of their employment.

The total amount of advances that is authorized to be made to all provincial workers' compensation boards is not to exceed three months' disbursements for compensation.

The advances are non-interest bearing and are to be repaid on termination of agreements with provincial boards.

Canadian Forces housing projects

Advances have been made to the Canada Mortgage and Housing Corporation, in respect of loans arranged by the Corporation for housing projects for occupancy by members of the Canadian Forces.

The loans bear interest at rates from 4% to 5.75% per annum, and are repayable over 35 to 48 years, with final instalments between August 1, 1996 and November 1, 2010.

Burgeo Leasing Limited

Loans have been made to Burgeo Leasing Limited, for the construction of an extension to the wharf at Burgeo, Newfoundland. The total loan authority is \$240,000.

The loans bear interest based on the composite rate of 7.147% per annum, and are repayable in equal annual instalments over 25 years, with the final instalment on September 1, 1996.

Sydney Steel Corporation

Loans have been made to Sydney Steel Corporation, for the construction of wharf facilities at Sydney, Nova Scotia. The total loan authority is \$6,000,000.

The loans bear interest at the rate of 9.078% per annum, and are repayable in equal annual instalments over 20 years, with the final instalment on June 12, 1998. The instalments are in arrears since June 1, 1979. Parliamentary authority is required to write-off the balance.

Canadair Limited

The Corporation was incorporated pursuant to the Canada Corporations Act, and continued under the Canada Business Corporations Act, to manufacture and sell aircraft.

Loans have been made to the Corporation for the financing of water bomber aircraft, such loans to be recovered on the sale of the aircraft.

The loans are non-interest bearing and are repayable only when the aircraft are sold.

Canadian defence industry

Advances have been made to assist Canadian defence industry with plant modernization.

The advances are non-interest bearing, and are repayable over 1 to 7 years, with final instalments between April 1, 1989 and December 31, 1994.

Company stock option

This account records the purchase by the General Adjustment Assistance Board and the Enterprise Development Board, on behalf of Her Majesty in right of Canada, of the capital stock of a company in order to exercise a stock option in such company that has been taken by the Board in connection with the provision of a loan, or of insurance of a loan or a letter of credit made or issued to the company in accordance with the General Adjustment Assistance Regulations, the Automotive Manufacturing Assistance Regulations, or under the Enterprise Development Program, where, in the opinion of a Board estab-

lished pursuant to Section 12 of the Department of Regional Industrial Expansion Act:

- (i) the value of the capital stock of the company has increased as a result of the assistance provided and the stock option should be exercised, in order to permit Her Majesty in right of Canada to benefit from the increased value of the capital stock of the company; or,
 - (ii) the stock option should be exercised, to protect the Crown's interest in respect of the loan made or insurance provided; and,
- to authorize the sale or other disposition of any capital stock so acquired.

During the year, additional purchases were authorized by Regional Industrial Expansion Vote L20, Appropriation Acts No 1 and No 2, 1988-89.

Industrial and regional development program

Loans have been made to firms and industries to help them adjust to changing competitive conditions and to produce new, more viable and competitive products and services.

The remaining loan bears interest at the rate of 12.625% per annum, and is repayable between April 1, 1989 and December 31, 1998.

Manufacturing, processing and service industries in Canada

This account records loans made to persons engaged or about to engage or assist in manufacturing, processing or service industries in Canada in order to promote the establishment, improvement, growth, efficiency or international competitiveness of such industries or to assist them in their financial restructuring.

During the year, an additional loan was authorized by Regional Industrial Expansion Vote L25, Appropriation Acts No 1 and No 2, 1988-89. One of the loans bears interest at rates from 9.375% to 10.375% per annum, and is repayable over 7 to 8 years, with final instalments between December 31, 1994 and December 1, 1995. The other loan is interest-free unless it is in default, and it will be repaid in one instalment of \$110 million on April 1, 2017.

Parolees

Loans have been made to parolees and individuals under mandatory supervision, to assist in their rehabilitation.

The total amount authorized to be outstanding at any time is \$50,000.

The loans are non-interest bearing and are repayable before the expiration of the parole period, or within one year from the date the loans were made, whichever period is the shorter. The repayment of a loan or any part thereof may be forgiven by the Solicitor General, if certain conditions are met.

During the year, loans totalling \$13,431 were forgiven pursuant to Solicitor General Vote L103b, Appropriation Act No 1, 1969.

Canadian Commercial Bank

This account represents the amount the Receiver General for Canada had on deposit with the Canadian Commercial Bank at the time the Bank ceased operation on September 1, 1985. Since this amount was not covered for reimbursement under the Financial Institutions Depositors Compensation Act, parliamentary authority is required to write-off the balance.

Defence production loan account

This account was established pursuant to Section 18 of the Defence Production Act, to record loans or advances for any purpose other than to assist in the construction, acquisition, extension or improvement of capital equipment or works by any person.

Section 19 of the Defence Production Act stated that the aggregate of expenditures charged to the Defence production revolving fund (budgetary account), and to this account, shall not at any time exceed by more than \$100,000,000 the aggregate of amounts:

- (a) received from the sale or disposition of materials, substances or defence supplies;
- (b) charged to another appropriation in respect of costs of acquisition, storage, maintenance or transportation of stocks of materials or substances purchased, or of stocks of defence supplies acquired, where such materials, substances or defence supplies may be acquired under that appropriation;
- (c) charged to an appropriation or paid by an agent of Her Majesty or by an associated government, to pay costs incurred in respect of defence supplies, payment for which was made out and charged to the Defence production revolving fund; and,
- (d) received in repayment of a loan or advance previously charged to this account.

The balance in the account represents:

- a repayment of \$1.7 million owed to this account by CAE Aircraft, which is in dispute concerning the date when repayment is due. Legal counsel is of the opinion that no loss to the Government will be incurred; and,
- loans of \$25 million which have been issued to Expro Chemical Products Inc for the specific purpose of meeting its working capital requirements.

The loans bear interest at rates from 9.865% to 10.590% per annum, and are repayable in quarterly instalments over 5 to 10 years, with the final instalment in October, 1998.

Corporation of the City of Montreal

A loan has been made to the Corporation of the City of Montreal, for the construction of a vehicular tunnel under the Lachine Canal at Atwater Avenue.

The loan bears interest at the rate of 3.125% per annum, and is repayable in equal annual instalments over 30 years, with the final instalment on June 20, 1991.

Hamilton Harbour Commissioners

Loans have been made to the Hamilton Harbour Commissioners, to assist in the development of the harbour.

The total amount authorized to be outstanding at any time is \$4,000,000.

The loan bears interest at the rate of 4.125% per annum, and is repayable in semi-annual instalments over 39 years, with the final instalment on January 31, 2001.

Northern Transportation Company Limited

A loan has been made to 141606 Canada Limited, to finance the acquisition of the former Northern Transportation Company Limited. On July 15, 1985, both corporations were amalgamated under the name of Northern Transportation Company Limited.

The loan bears interest at the rate of 4% per annum, is repayable in annual instalments equal to 40% of the annual cash flow of the Company, and has an indefinite maturity date.

Port Alberni Harbour Commission

Loans have been made to the Port Alberni Harbour Commission, to finance the construction of a new lumber assembly wharf.

The terms and conditions of the loans, with their year-end balances, are as follows:

- (a) bearing interest at the rate of 8.062% per annum, repayable in semi-annual instalments over 20 years, with the final instalment on June 30, 1991, \$112,841; and,
- (b) bearing interest at the rate of 7.187% per annum, repayable in semi-annual instalments over 20 years, with the final instalment on June 30, 1991, \$314,350.

Thunder Bay Harbour Commission

Loans have been made to the Thunder Bay Harbour Commission, for the expansion of the Keefer terminal.

The loans bear interest at the rate of 7.437% per annum, and are repayable in semi-annual instalments over 15 years, with the final instalment on June 30, 1989.

Commonwealth War Graves Commission

Advances have been made to the working capital fund of the Commonwealth War Graves Commission, to maintain graves and cemeteries.

At year end, the balance of the advances was £30,000 UK. This balance was converted to \$60,300 Cdn, using the year-end rate of exchange (£1UK = \$2.0100 Cdn).

The advances are non-interest bearing and have no fixed terms of repayments.

ALLOWANCE FOR VALUATION

In accordance with the comprehensive policy on valuation, assets are subject to an annual valuation to reflect reductions from the recorded value to the estimated realizable value.

The allowance for valuation, for loans, investments and advances, represents the estimated losses on the realization of the loans, investments and advances included in the accounts of Canada at year end.

SUPPLEMENTARY STATEMENTS

Loans, Investments and Advances by Type

Table 6.22 reports the balances and transactions by type for loans, investments and advances. The types of transactions identify the causes for increases and decreases to loans, investments and advances.

Recorded Uncollected Interest

In accordance with the Government's stated accounting policies, interest due but not received is not reported as revenue. In certain cases, this uncollected interest is recorded by being added to the applicable loan and advance account, and credited to an uncollected interest account. Since the Government's policy is to report revenue only as received, the balance of the uncollected interest account is deducted from the loan and advance account, to present it on a net basis.

Table 6.23 reports the balances and transactions for the year in respect of the recorded uncollected interest.

SPECIFIED PURPOSE ACCOUNTS

Specified purpose accounts represent the recorded value of the financial obligations of the Government of Canada in its role as administrator of certain public moneys received or collected for specified purposes, under or pursuant to the legislation, trusts, treaties, undertakings or contracts. These public moneys may be paid out only for the purposes specified in or pursuant to the legislation, trusts, treaties, undertakings or contracts.

Because of the dedicated purposes of these moneys, specific accounts are required to be maintained to provide an accounting mechanism to ensure that the moneys are used only for the purposes for which they were received or collected. Legislation relating to some accounts permits investments to be made and, in certain cases, the balances of the accounts earn interest.

This section gives details of specified purpose accounts on which summary information was given in Sections 1 and 2 of this volume.

Some tables in this section present the continuity of accounts, by showing the opening and closing balances, as well as receipts and other credits, and payments and other charges. In addition, the term "account(s) without current transactions" has been included in some tables, to show the net result of transactions in accounts which were closed out in the previous year.

The financial statements of the Canada Pension Plan Account and the Canada Pension Plan Investment Fund, the Government Annuities Account and the Royal Canadian Mounted Police (Dependants) Pension Fund, together with the Auditor General's reports thereon, are presented at the end of this section.

Note: the balances and the transactions of the Unemployment Insurance Account, the Canadian Ownership Account, the Western Grain Stabilization Account, the Crop Reinsurance Fund, the Agricultural Commodities Stabilization Accounts and other specified purpose accounts are reported in Section 5 of this volume since the transactions in these accounts are treated as budgetary.

Canada Pension Plan Account

The Canada Pension Plan is a compulsory contributory social insurance plan which enables members of the labour force to acquire and retain protection for themselves and their families against loss of income due to retirement, disability or death. Established in 1965, the Plan applies in all parts of Canada, except the Province of Quebec which has a comparable plan.

Under existing arrangements, all benefits and costs incurred in the administration of the program are financed from contribu-

tions made by employees, employers and self-employed persons, and the interest earned from the investment of funds.

The Government's financial obligation, as administrator of the Canada Pension Plan, is limited to the balance in the Account.

Table 7.2 presents a summary of the balances and transactions in the Canada Pension Plan Account less investment in securities of the provinces and territories held by the Canada Pension Plan Investment Fund.

Total	4,775,873,899	13,696,225,336	12,926,734,649	5,545,364,586	769,490,687	1,001,760,871

Receipts and other credits include:

- (a) contributions of: (i) 2.0% of earnings by employees earning over \$2,600 for the 1988 calendar year and 2.1% of earnings over \$2,700 for the 1989 calendar year, subject to maximum payments of \$478 for the 1988 calendar year and \$525 for the 1989 calendar year, with matching contributions by employers and (ii) 4.0% of earnings of self-employed persons over \$2,600 for the 1988 calendar year and 4.2% of earnings over \$2,700 for the 1989 calendar year, subject to maximum payments of \$956.20 for the 1988 calendar year and \$1,050 for the 1989 calendar year;
- (b) interest received from securities of the Canada Pension Plan Investment Fund, and from the average daily operating balance; and,
- (c) funds received from the federal and provincial governments for securities which have been redeemed.

Payments and other charges include:

- (a) benefits paid under the Canada Pension Plan as retirement pensions, survivors' benefits paid to widows, widowers and orphans, or as lump sum death benefits, and disability pensions and benefits to children of disabled contributors;
- (b) benefits paid and recovered from the Canada Pension Plan, in accordance with an agreement with a province providing a comprehensive pension plan;
- (c) payments that are required to be charged to the Canada Pension Plan Account, in accordance with reciprocal agreements with other countries;
- (d) the costs of administration of the Plan; and,
- (e) funds invested during the year in the securities of the federal, provincial and territorial governments.

When the operating balance exceeds the estimated amount required to meet all payments in the following three-month period, the excess is available for the purchase of securities of the provinces, territories and Canada.

Provinces and territories are advised monthly of the amount of excess moneys in the Canada Pension Plan Account that is available for the purchase of provincial and territorial securities. The amount available to each province and territory is the proportion that contributions made to the Plan during the preceding ten years in respect of employment in the province or territory bears to total contributions. Contributions received in respect of employment from employees outside Canada as well as any excess funds not invested in the securities of the provinces and territories are invested in the special non-marketable bonds of the Government of Canada.

Certain federal employees, such as members of the Canadian Armed Forces, who are resident in the Province of Quebec, contribute to the Canada Pension Plan. The securities of Quebec which are purchased by the Plan relate to the contributions of these employees.

On the Statement of Assets and Liabilities of the Government of Canada, the investment in securities issued by provinces and territories, as charged to the Canada Pension Plan Investment Fund, is deducted from the Canada Pension Plan Account. The liability of the Government of Canada of \$5,545,364,586 at March 31, 1989 (\$4,775,873,899 as at March 31, 1988) is comprised of \$3,005,600,000 (\$2,491,847,000 in 1988) in special non-marketable bonds issued to the Canada Pension Plan Investment Fund (Section 10 in this volume) with the balance of \$2,539,764,586 (\$2,284,026,899 in 1988) being held on deposit in the Consolidated Revenue Fund to cover three months operating costs and the April purchase of securities.

⁽¹⁾ Amends reporting in the previous year's Public Accounts.

Superannuation Accounts

The Government provides pensions to retired employees or their dependants through pension schemes authorized by the Public Service Superannuation Act, the Canadian Forces Superannuation Act and the Royal Canadian Mounted Police Superannuation Act. These pensions are indexed to the cost of living under authority of the Supplementary Retirement Benefits Act. The Government's liabilities in its role as sponsor and administrator of these pension plans in respect of its employees and certain other contributors, are recorded in the relevant superannuation accounts.

Legislation for basic pensions provides for employee contributions (6 1/2% of salary less contributions to the Canada Pension Plan), employer contributions (prior year's employee contributions for members of the Public Service, and approximately 1.8 and 2.0 times current year's employee contributions for members of the Canadian Forces and the Royal Canadian Mounted Police respectively), allocation of interest (average market yield of 20 year Canada bonds weighted by the quarterly excess of receipts over disbursements in the three accounts each quarter over 20 years), and actuarial valuation deficiencies.

Legislation for indexing basic pensions does not require actuarial valuations but does provide for additional employee contributions (1% of salary), matching employer contributions and allocation of interest (current rate of 5 year Canada bonds).

Receipts and other credits for the superannuation accounts consist of contributions from personnel, related contributions from the Government and participating Public Service corporations, transfers from other pension funds, other Government contributions related to actuarial liability adjustments (not applicable to the Supplementary Retirement Benefits Account), and interest. Payments and other charges for the superannuation accounts consist of payments of pensions, minimum benefits, cash termination allowances (lump sum payments to employees suffering a disability), refunds of contributions and transfers to other plans.

The Public Pensions Reporting Act, as passed by the House of Commons on February 10, 1986, requires that actuarial reviews be conducted at a date not later than four years after the last review date and, thereafter, at dates not more than three years apart, for each of the employer-sponsored pension plans, and the portion of the Supplementary Retirement Benefits Account that relates to these plans. As specified in that Act, the last review dates are deemed to be December 31, 1983 for the Public Service Superannuation Account, December 31, 1983 for the Canadian Forces Superannuation Account, and December 31, 1985 for the Royal Canadian Mounted Police Superannuation Account.

In accordance with the legislation governing the basic portion of the three superannuation plans, the Minister of Finance has the authority to direct that any actuarial deficiency found will be credited to the appropriate account, charged to unamortized portion of actuarial deficiencies, and amortized to expenditure in five equal annual instalments commencing in the year in which the actuarial report is laid before Parliament. In addition, the cost of added liabilities, created by the authorization of salary increases each year, is credited to the superannuation accounts, charged to unamortized portion of actuarial deficiencies, and amortized to expenditure over a period of five years commencing in the year in which the increases are authorized. In the current year, there were no actuarial deficiencies relating to each of the basic accounts.

Since the quarter ending September 30, 1969, the regulations, made pursuant to each of the superannuation acts, have provided for the calculation of interest on the basic accounts at a rate related to the Canada Pension Plan interest rate. The acts further provide that the amount by which the calculated interest rate (currently about 11% per annum) exceeds the amount of interest calculated at the rate used in the latest actuarial report (currently 6.5% per annum for the Public Service, Canadian Forces and Royal Canadian Mounted Police Superannuation Accounts), may be used to reduce the amortization of actuarial deficiency adjustments charged to budgetary expenditure. Any of these interest earnings not needed to reduce amortization charges are credited to the respective Accounts.

Table 7.4 presents a summary of the balances and transactions for the superannuation accounts including the amortization of actuarial deficiencies.

Table 7.5 presents a summary of transactions in the superannuation accounts that resulted in charges to budgetary expenditure. In 1988-89, \$7,550 million was charged to budgetary expenditure on account of superannuation plans. This was

composed of Government contributions, \$903 million; increased superannuation benefits paid during the year due to indexation in excess of the superannuates' share of contributions plus interest to the Supplementary Retirement Benefits Account, \$899 million; and, interest, \$5,748 million.

Supplementary Retirement Benefits Account

This account was established by the Supplementary Retirement Benefits Act, to provide for the payment of increased pension benefits resulting from indexation.

The Chief Actuary of the Office of the Superintendent of Financial Institutions has estimated that the actuarial present value of unfunded supplementary retirement benefits, including provision for future indexation, in respect of benefits earned or in pay as at March 31, 1989, could be between \$850 million and \$6 billion. These estimates are based on dynamic economic assumptions which incorporate, initially, the current high interest rates as well as current price and salary increase levels. These economic assumptions are blended gradually into long-term economic assumptions which in the case of the \$850 million estimate are: interest on new funds of 4.5%, general wage increases of 2.5% and an inflation rate of 2%. In the case of the \$6 billion estimate, the economic assumptions are: interest on new funds of 6%, general wage increases of 5% and an inflation rate of 3.5%. In both instances, the assumed fund yield has been reduced by 1% over the medium term to provide a margin to take into account possible adverse economic experience.

Increased superannuation benefits paid during the year due to indexation amounted to \$970 million (\$893 million in 1987-88), of which \$899 million (\$839 million in 1987-88) represents benefits to superannuates in excess of their share of contributions to the account which has been charged to budgetary expenditure. The payments charged to budgetary expenditure on behalf of contributors amounted to \$528 million (\$501 million in 1987-88) for the Public Service Superannuation Account of which it is estimated that \$43 million (\$40 million in 1987-88) pertains to former employees of Public Service corporations, \$344 million (\$314 million in 1987-88) for the Canadian Forces Superannuation Account, and \$27 million (\$24 million in 1987-88) for the Royal Canadian Mounted Police Superannuation Account. An amount of \$71 million (\$54 million in 1987-88) was charged to the Supplementary Retirement Benefits Account.

Government Annuities Account

This account was established by the Government Annuities Act, and modified by the Government Annuities Improvement Act, which discontinued sales of annuities in 1975. The account is valued on an actuarial basis each year, with the deficit or surplus charged or credited to the Consolidated Revenue Fund.

The purpose of the Government Annuities Act was to assist Canadians to provide for their later years, by the purchase of Government annuities. The Government Annuities Improvement Act increased the rate of return and flexibility of Government annuity contracts.

Receipts and other credits consist of premiums received, funds reclaimed from the Consolidated Revenue Fund for previously unlocated annuitants, earned interest and items transferred from previous years' revenue to cover the actuarial deficit. Payments and other charges represent matured annuities,

the commuted value of death benefits, premium refunds and withdrawals, and actuarial surpluses and unclaimed items transferred to non-tax revenue. The amounts of unclaimed annuities, related to annuitants who cannot be located, are transferred to non-tax revenue.

Deposit and Trust Accounts

Deposit and trust accounts is a group of liabilities representing the Government's financial obligations in its role as administrator of certain moneys that it has received or collected for specified purposes and that it will pay out accordingly. To the extent that the funds received are represented by securities, these are deducted from the corresponding accounts to show the Government's net liability.

Table 7.10 presents a summary of the balances and transactions in deposit and trust accounts.

⁽¹⁾ This account is now reported in Table 7.14.⁽²⁾ This deposit account was previously reported under Consumer and Corporate Affairs in this table.⁽³⁾ This trust account was previously reported under Communications in this table.**Canadian Dairy Commission account**

The Canadian Dairy Commission is a Crown corporation listed in Part I of Schedule III of the Financial Administration Act, and uses the Consolidated Revenue Fund for banking purposes. This account was established by Section 15 of the Canadian Dairy Commission Act, to record the Government's liability to the Commission.

Guarantee deposits—Canada Agricultural Products Standards Act

This account was established to record bonds deposited as guarantees required by the Canada Agricultural Products Standards Act and the Licensing and Arbitration Regulations.

Immigration guarantee fund

This account was established by Sections 18, 23, 92 and 103 of the Immigration Act, to record amounts collected and held pending final disposition, either by refund to the original depositor, or forfeiture to the Crown.

Guarantee deposits—Oil and gas

This account records securities in the form of cash, promissory notes, letters of credit and letters of guarantee which are required to be issued to, and held by the Government of Canada pursuant to a signed Exploration Agreement in accordance with Section 74 of the Canada Petroleum Resources Act. These securities are a performance guarantee that the agreed exploration will be performed in the manner and time frame specified. Interest is not paid on these deposits.

Guarantee deposits—Environment

This account was established by Section 21 of the Financial Administration Act, to record amounts deposited to ensure compliance with terms and conditions of contracts.

Fairs and missions

This account was established by Section 21 of the Financial Administration Act, to record deposits which may be refunded, in part or in total, in accordance with contractual agreements concerning the participation of Canadian sector enterprises at international trade fairs.

Canadair Limited—Canada Development Investment Corporation

This account was established pursuant to Section 129(1) of the Financial Administration Act. This special purpose money is to be used to meet costs incurred on the sale of Canadair and demand for payment by Bombardier pursuant to the acquisition agreement and costs incurred by the Canada Development Investment Corporation in connection with the sale of the shares of Canadair.

The de Havilland Aircraft of Canada, Limited—Canada Development Investment Corporation

This account was established pursuant to Section 129(1) of the Financial Administration Act. This special purpose money is to be used to satisfy demands for payment by the Boeing Company pursuant to the acquisition agreement and costs incurred by

the Canada Development Investment Corporation in connection with the sale of the shares of The de Havilland Aircraft of Canada, Limited.

Crown corporations' surplus moneys

These accounts were established pursuant to Section 129(1) of the Financial Administration Act, to record moneys received from Crown corporations as directed by the Minister of Finance with the concurrence of the appropriate Minister. Interest can be paid in accordance with and at rates fixed by the Minister of Finance with the approval of the Governor in Council.

Field British Columbia and Yukon Operations of the Northern Canada Power Commission

This account was established by Section 21 of the Financial Administration Act, to record amounts deposited by the Northern Canada Power Commission to reimburse liabilities pertaining to Field British Columbia and Yukon Operations of the Northern Canada Power Commission.

Guarantee deposits—Indian Affairs and Northern Development

Pursuant to Section 8 of the Arctic Waters Pollution Prevention Act, Section 29 of the Northern Inland Waters Act and Sections 12 and 18 of the Territorial Lands Act, this account records cash and securities deposited as guarantees for oil, mineral and timber rights and licences. Interest is not allowed on cash deposits.

Guarantee deposits—Reserve resources

This account was established by Section 21 of the Financial Administration Act, to record cash and bond security deposits with respect to Indian reserve licences and contracts for the development of resources, pursuant to the provisions of Section 57 of the Indian Act.

Guarantee deposits—Rotating herds

This account was established by Section 21 of the Financial Administration Act, to record guarantee deposits given by Indians who sign herd agreements under the rotating herd program.

Indian contributions to the subsidy housing program

This account was established by Section 21 of the Financial Administration Act, to record amounts deposited by Indians, to ensure compliance with terms and conditions of the subsidy housing program.

Indian savings accounts

Pursuant to Section 52 of the Indian Act, savings accounts are maintained for individual Indians.

During the year, interest was credited to the accounts and charged to interest on public debt.

Security for costs

This account records security to the value of \$500 deposited by the Appellant with the Registrar of the Supreme Court of

Canada in accordance with Section 60(1)(b) of the Supreme Court Act. As per Section 66 of the Rules of the Supreme Court of Canada, interest is paid on money deposited as security.

Guarantee deposits—Customs and Excise

Pursuant to Section 166 of the Customs Act, cash and securities are collected to guarantee payment of customs duties and excise taxes on imported goods, and of sales and excise taxes payable by licensees.

Temporary deposits received from importers

This account was established by Section 21 of the Financial Administration Act, to record temporary security deposits received from importers to ensure compliance with various departmental (Customs and Excise) regulations regarding temporary entry of goods.

Candidates' election deposits

This account records candidates' election deposits, received in respect of general elections and by-elections, less amounts refunded to candidates, or transferred to non-tax revenue, pursuant to the provisions of the Canada Elections Act.

During the year, \$168,400 was transferred to non-tax revenue.

Harbourfront capital account

This account was established by Section 21 of the Financial Administration Act, to record funds received from and held for Harbourfront Corporation regarding moneys derived from the capitalized leasing, sale or resale of lands or development rights.

During the year, interest was credited to the account and charged to interest on public debt.

Canada Post Corporation account

The Canada Post Corporation is a Crown corporation listed in Part I of Schedule III of the Financial Administration Act, and uses the Consolidated Revenue Fund for banking purposes. This account was established to record the Government's liability to the Corporation.

Contractors' security deposits

This account was established by Section 20 of the Financial Administration Act, to record contractors' securities that are required for the satisfactory performance of work in accordance with the Government Contracts Regulations.

During the year, interest was credited to the account and charged to interest on public debt.

The debit balance in the account for certified cheques results from adjustments which have been made in the new year rather than the current year.

Royal Canadian Mint account

The Royal Canadian Mint is a Crown corporation listed in Part II of Schedule III of the Financial Administration Act, and uses the Consolidated Revenue Fund for banking purposes. This account was established to record the Government's liability to the Mint.

The debit balance in the account was incurred when retroactive salary revisions were paid to employees as a result of collective bargaining.

Canagrex trust fund

This account was established by Section 21 of the Financial Administration Act, pursuant to legal requirements arising from the winding-up of the Corporation.

Special operating account—National Library

This account was established by Section 14 of the National Library Act, to record moneys received for the purpose of the National Library, by way of donation, bequest or otherwise. Amounts required for the purposes of the National Library Act may be paid out of this account, or out of money appropriated by Parliament for such purposes.

Trust account—National Museums of Canada

This account was established by Section 10 of National Museums Act, and is credited with moneys received by the Corporation, by way of gift, bequest or otherwise, interest on securities, rent or sales of any real property acquired by the Corporation by way of gift, bequest or otherwise, and an amount representing interest on the balance from time to time to the credit of the account. The account is to be charged with such amounts as are authorized by the Board of Trustees of the Corporation to be expended for the purpose for which such money or property were given, bequeathed or otherwise made available to the Corporation. Securities in connection with this account amount to \$2,000 consisting of two Government of Canada marketable bonds bequeathed by the late J Dazell McKee and the late Hugh de T Glazebrook.

During the year, interest was credited to the account and charged to interest on public debt.

Income from securities in trust—Bankruptcy Act

This account was established by Sections 78, 84, 154 and 194 of the Bankruptcy Act, to record dividends paid on stocks originally held by a bankrupt stockbroker but subsequently sold to clients. As the stocks were not registered in the clients' names, the dividends must be paid to the last registered owner, in this case, the stockbroker. The dividends are now forwarded to the Superintendent of Bankruptcy for safekeeping.

Securities in trust—Bankruptcy Act

This account was established by Section 67 of the Bankruptcy Act, to record the value of securities originally held by a bankrupt stockbroker, on behalf of clients who have not been located.

Unclaimed dividends and undistributed assets—Bankruptcy Act

This account represents amounts credited to the Receiver General in accordance with the provisions of Section 154 of the Bankruptcy Act, pending distribution to creditors.

Unclaimed dividends and undistributed assets—Canada Business Corporations Act

This account was established in accordance with Sections 227 and 228 of the Canada Business Corporations Act, for the purpose of recording liabilities to creditors and shareholders who have not been located. The account is charged when funds are paid to them.

Unclaimed dividends and undistributed assets—Winding-up Act

This account records amounts credited to the Receiver General, in accordance with Sections 138 and 139 of the Winding-up Act, pending distribution.

Marconi celebration trust fund

This account was established by Section 21 of the Financial Administration Act, for the purpose of raising moneys through public subscriptions and others to construct, operate and maintain a National Historic Site in Glace Bay, Nova Scotia to commemorate the efforts and accomplishments of Guglielmo Marconi in the field of wireless communications.

Devonian Foundation deposit account

This account was established by Section 21 of the Financial Administration Act, for the purpose of accepting donations to design and construct a new trailhead facility within the Wood Bison area of Elk Island National Park.

During the year, this account was closed.

Mackenzie King trust account

The late The Right Hon W L Mackenzie King bequeathed Laurier House, Ottawa, and the sum of \$225,000, to the Government of Canada. The amount of \$225,000 was credited to the account. Interest computed, in accordance with the terms of Section 3 of the Laurier House Act, is to be credited to the account at the end of each year, and charged to interest on public debt. The interest is to be used to assist in the maintenance of the Laurier House, which is to be preserved as a place of historic interest, and also to provide accommodation for study and research.

During the year, interest of \$22,815 was credited hereto. In accordance with the Act, Public Works Canada is authorized to expend an annual sum not to exceed 70% of the interest earned in the previous year for the maintenance and upkeep of the buildings on the Laurier House property. Environment Canada is authorized to expend an annual sum not to exceed 30% of the interest earned for the maintenance of the Laurier House as a museum and study centre, and for the provision of sundry purchases therefrom, and the unspent balance of the interest earned be credited at the end of the year to non-tax revenue.

Trust fund—National Battlefields Commission

This account was established by Section 21 of the Financial Administration Act, at the creation of the National Battlefields Commission, for the purpose of acquiring various properties for the development of the park. The moneys are received by way of private contributions, contributions from municipal corporations, provincial governments and others, and deposited for the purposes of the Commission, as prescribed for in its Act of incorporation. Following the land acquisitions of the Commission, an amount of money remained in the account and increased over a period of years as a result of interest earned, while the Commission was listed in Schedule III of the Financial Administration Act, prior to September 1, 1984.

During the year, interest was credited to the account and charged to interest on public debt.

Canada Foundation account

This account was established by Vote 6g, Appropriation Act No 2, 1967, to record moneys received in connection with the Civilian Relief Agreement of 1950, and the Cultural Agreement of 1954 between Canada and Italy, and disbursements for the purposes of the said agreements.

The account is maintained in Italian lira in the Banco di Roma, Italy, and all transactions recorded in foreign currencies during the year are converted at the rate of exchange prevailing at the close of the year (1988-89, 1 Lira/\$0.00859 Cdn; 1987-88, 1 Lira/\$0.001005 Cdn).

During the year, income derived from the operation of the account amounted to Lira 19,230,405—\$16,519 Cdn, and disbursements for cultural activities and administrative expenses were Lira 41,912,551—\$36,003 Cdn. Adjustment of the book value carried forward from the previous year resulted in valuation increases of \$45,900 to securities held in trust, and \$6,598 to cash on deposit. The closing balance consists of securities at cost and cash on deposit.

International agencies—Travel account

This account was established by Section 21 of the Financial Administration Act, to record funds made available by international agencies, to provide for payment of transportation of fellows and scholars who travel in Canada, under the sponsorship of such agencies.

Common school funds—Ontario and Quebec

This account was established under 12 Victoria 1849, Chapter 200, to record the proceeds from the sale of lands set apart for the support and maintenance of common schools in Upper and Lower Canada, now Ontario and Quebec. Interest of \$133,888, apportioned on the basis of population, is paid semi-annually to these provinces, at the rate of 5% per annum, and is charged to interest on public debt.

Foreign claims fund

This account was established by Vote 22a, Appropriation Act No 9, 1966, to record: (a) such part of the money received from the Custodian of Enemy Property, proceeds of the sale of property and the earnings of property, and, (b) all amounts received from governments of other countries pursuant to agreements entered into after April 1, 1966 relating to the settlement of Canadian claims, and also records payment of claims submitted, including payment of the expenses incurred in investigating and reporting on such claims.

During the year, interest was credited to the account and charged to interest on public debt.

Halifax 1917 explosion pension account

This account was established by Sections 4, 5 and 6 of the Halifax Relief Commission Pension Continuation Act, to provide for the continuation of pensions, grants and allowances following the dissolution of the Halifax Relief Commission.

During the year, interest was credited to the account and charged to interest on public debt.

War claims fund—World War II

This account was established by Vote 696, Appropriation Act No 4, 1952, to record moneys received from the Custodian of Enemy Property or from other sources, and payments: (a) to eligible claimants for compensation in respect of World War II; (b) of a supplementary award amounting to 50% of the original award (PC 1958-1467, October 23, 1958); and, (c) of expenses incurred in investigating and reporting on claims.

A War Claims Commission was established to enquire into and report on claims made by Canadians arising out of World War II for which compensation may be paid from this or any other fund established for the purpose. The expenses of the Commission are chargeable hereto.

Great Lakes Fishery Commission—Lamprey research and control

This account was created by Article III of the Great Lakes Fisheries Convention Act, to record funds received from the Great Lakes Fishery Commission, covering control and research work in respect to lampreys in the Great Lakes, carried out on behalf of the Commission, on a contract basis.

Indian agencies revenue trust bank accounts

This account was established by Section 20 of the Financial Administration Act, to record moneys held for Indians in authorized banks across Canada. These moneys include such items as deceased estates, deposits and payments on leases held for individual Indians, and those to be split between individual Indians and Indian bands.

Indian band funds

The Indian band funds were established by Sections 61 to 69 of the Indian Act and represent moneys belonging to Indian bands throughout Canada.

During the year, interest was credited to the account and charged to interest on public debt.

Indian band funds—Shares and certificates

This account was established by Section 61 of the Indian Act, to record the historical value of Transalta Utilities Ltd shares of stock as compensation for a power line right-of-way on the Blood Indian reserve. These shares are held in the name of the Receiver General of Canada for the credit of the Blood Indian Band. Any dividends received are credited to the revenue account of the Blood Indian Band.

Indian compensation funds

Pursuant to Sections 35 and 61 of the Indian Act, moneys received from the sale of Indian lands and easement compensation, where the title has not been cleared nor the land survey completed, are recorded in this account pending completion of documentation.

Indian estate accounts

These accounts were established by Sections 42, 43, 51 and 61 of the Indian Act, to record the estates of deceased Indians, minor Indian children who have guardians, or mentally incompetent Indians.

During the year, interest was credited to the accounts and charged to interest on public debt.

Indian moneys suspense account

This account was established by Section 21 of the Financial Administration Act, to record moneys held for individuals and bands, received from rentals and leases of Indian lands, such as agricultural leases, easements, oil and gas leases and permits, etc, pending proper documentation.

Indian special accounts

Pursuant to Section 52 of the Indian Act and Section 21 of the Financial Administration Act, these Indian special accounts represent a number of non-interest bearing accounts which are maintained for specific purposes and include the following:

- (a) *Absent or missing heirs*—Assets in an estate to which a missing heir might be entitled are held in this account for a period of seven years, after which time, if the heirs are not located, the assets are distributed to other persons according to entitlement.
- (b) *Abitibi fur preserve*—This account records moneys received from the sale of pelts trapped on reserves in the Abitibi District in Quebec, to defer charges for tallymen's wages, freight costs, etc.
- (c) *Abitibi fishery*—This account records charges for the operation of the Abitibi sturgeon fish catching project.
- (d) *Indian off-reserve housing*—This account records personal contributions held in trust until paid to the vendor, the builder or legal representative.

1924 Ontario lands agreement

This account was established by Section 21 of the Financial Administration Act, to record the Province of Ontario's share of the receipts from mineral activity on Indian reserves in accordance with the terms of the 1924 Ontario lands agreement. Payment of these funds to Indian bands is awaiting the passage of federal and provincial legislation to enact a new Indian Lands Agreement for Ontario.

Federal Court special account

Pursuant to Section 21 of the Financial Administration Act, the Court maintains trust accounts on behalf of litigants before the Court. Those accounts record the moneys paid into the Federal Court of Canada, pursuant to an order of the Court, rules of the Court or statutes, to be held in trust pending payment of such moneys, in accordance with a judgment of the Court.

During the year, interest was credited to the account and charged to interest on public debt.

Fair wages suspense account

This account is operated under the authority of Section 13 of the Fair Wages and Hours of Labour Regulations. Where an investigation in respect of a contract on Government works results in an award of wages, the amount received from the contractor is credited to this account, and is subsequently distributed to employees.

The account also records amounts received from departments and agencies, representing wages in respect of contracts, withheld from final payment to contractors.

Labour standards suspense account

This account is operated under the authority of the Canada Labour Code, Part III, Section 251, and the Canada Labour Standards, Regulation 23.

The account records:

- (a) funds received from employers as a result of assessments made by inspectors regarding underpayments of minimum wages, overtime, vacation pay, holiday pay, termination, severance or bereavement pay. The assessments are payable either directly to the employee, or to the Minister of Labour who is required to transmit the payment to the employee;
- (b) payments received from employers who are in arrears in paying their employees. Such amounts are repaid to employees; and,
- (c) wages received by the Minister of Labour from employers who cannot locate employees. Efforts are then made to locate employees.

Estates—Armed services

Pursuant to Section 42 of the National Defence Act, this account is credited with the service estates of deceased members of the Canadian Forces. Net assets of estates are distributed to legal heirs under the administration of the Judge Advocate General, in his capacity as Director of Estates.

Herbert Lott naval trust fund

This account was established by Section 21 of the Financial Administration Act, to record the Canadian naval portion of the Herbert Lott naval trust fund, which is administered by the British Admiralty. These funds are allocated to active or reserve force units which show marked efficiency in fighting practices, or contribute in signal degree to the improvement of the fighting appliances of naval or maritime forces.

During the year, this account was closed.

Canadian Sports Pool Corporation—Other outstanding liabilities

This account was established by Section 21 of the Financial Administration Act, to record moneys received at the dissolution of the Canadian Sports Pool Corporation which are used to pay any liabilities of the Corporation.

Donation—Construction of Olympic Complex

This account was established by Section 21 of the Financial Administration Act, to record transactions relating to a donation for the construction of an Olympic Complex at Canada Olympic Park in Calgary.

Inuvik General Hospital

This account was established by Section 21 of the Financial Administration Act, to record transactions relating to a donation by the Lions Club for the purchase of items for Ward 300 at the Inuvik General Hospital.

Post-occupancy evaluation methodology

This account was established by Section 21 of the Financial Administration Act, to record transactions relating to the provinces' share of costs incurred under a cost-sharing agreement with provinces (except Quebec) and territories for a project entitled "Development of a post-occupancy evaluation methodology for hospitals".

Review of liability and compensation issues in health care

This account was established by Section 21 of the Financial Administration Act, to record transactions relating to funds provided by the provinces and territories under a cost-shared arrangement for a review of liability and compensation issues in health care.

Sioux Lookout Zone Hospital

This account was established by Section 21 of the Financial Administration Act, to record transactions relating to a donation made by the Hospital for Sick Children Foundation, to be used to finance a paediatric play program and volunteer service at Sioux Lookout Zone Hospital.

Ted Harrison poster fund

This account was established by Section 21 of the Financial Administration Act, to accumulate money received from the sale of posters donated to the Whitehorse General Hospital in Whitehorse, Yukon Territory by local artist Ted Harrison. The proceeds from the sales will be used to purchase special equipment for the hospital.

Donations for research

This account was established by Section 21 of the Financial Administration Act, as a result of the Government's "Matching Grants" policy and records contributions received from organizations and individuals for biomedical research.

During the year, interest was credited to the account and charged to interest on public debt.

Dyskinesia and torticollis research

This account was established by Section 15 of the Medical Research Council Act, to record a bequest of \$75,000 made by an anonymous donor, to establish a fund for research in the fields of dyskinesia and torticollis. The interest received is used for the payment of research grants. Other donations are also credited to this fund.

During the year, interest was credited to the account and charged to interest on public debt.

Farquharson scholarships

This fund was established by Section 15 of the Medical Research Council Act, to record an award received from the St Boniface General Hospital Research Foundation. The fund will provide research scholarships to undergraduate medical students and graduate high school students.

During the year, interest was credited to the account and charged to interest on public debt.

Donation trust fund

This account was established by Section 27 of the Government Organization (Scientific Activities) Act, 1976, to record moneys, securities or other property received by way of gift, bequest or otherwise as approved by the Natural Sciences and Engineering Research Council. The account is charged with payments and with the disposal of such moneys, securities or other property, subject to the terms upon which such moneys are given, bequeathed or otherwise made available to the Council, and subject to the approval of the Council.

Trust fund—Natural Sciences and Engineering Research Council

This account was established by Section 27 of the Government Organization (Scientific Activities) Act, 1976, to record funds received from other governments and organizations, to cover expenditures made on their behalf, and to record this agency's liability to other organizations.

During the year, interest was credited to the account and charged to interest on public debt.

Claudia de Hueck trust fund

This account was established by Section 15 of the Science Council of Canada Act, to record a bequest made by Mrs Claudia de Hueck to be used to promote the study of humanities and for general educational purposes.

During the year, interest was credited to the account and charged to interest on public debt.

Sir William Stephenson academy—Meritorious graduate awards

This account was established by Section 21 of the Financial Administration Act, to record a donation of \$11,000 to be used for the presentation of meritorious awards to employees attending the Academy.

During the year, interest was credited to the account and charged to interest on public debt.

Sir William Stephenson academy—Scholastic awards

This account was established by Section 21 of the Financial Administration Act, to record a donation of \$15,000 to be used for the presentation of scholarship awards to children of employees of the Canadian Security Intelligence Service to encourage university studies.

During the year, interest was credited to the account and charged to interest on public debt.

Inmates' trust fund

Pursuant to Section 32 of the Penitentiary Regulations, this account is credited with moneys received from inmates at the time of incarceration, net earnings of inmates from employment inside institutions, moneys received for inmates while in custody, moneys received from sales of hobbycraft, money earned through work while on day parole, and interest. Payments to assist in the reformation and rehabilitation of inmates are charged to this account.

During the year, interest was credited to the account and charged to interest on public debt.

Benefit fund

Pursuant to Section 23 of the Royal Canadian Mounted Police Act, this account records moneys received by personnel of the Royal Canadian Mounted Police, in connection with the performance of duties, over and above their pay and allowances.

During the year, interest was credited to the account and charged to interest on public debt.

Petro-Canada Enterprises Inc—Shares

This account was established by Section 21 of the Financial Administration Act, to record the liability to shareholders who have not presented their shares for payment. The closing balance represents 10,981 shares of Petro-Canada Enterprises Inc at \$120.14 per share.

Canadian National (West Indies) Steamships Ltd

This account was established pursuant to Section 129(1) of the Financial Administration Act, to record a deposit by the Canadian National (West Indies) Steamships Ltd, covering a transfer of funds to be held pending the wind-up of the Corporation.

During 1985-86, the Corporation was authorized to be dissolved pursuant to the Crown Corporations Dissolution Authorization Act.

Unclaimed moneys due to Canadian seamen

Pursuant to Sections 222 and 223 of the Canada Shipping Act, unpaid wages of deceased members of ships' crews, as well as any amount of cash on their person at time of death, are credited to this account pending direction as to payees.

Administered trust accounts

Pursuant to Section 41 of the Pension Act and Section 15 of the War Veterans Allowance Act, these accounts are under the jurisdiction of the Canadian Pension Commission and the Department. Moneys held in these accounts include: (a) pensions placed under the administration of the Canadian Pension Commission; (b) war veterans and civilian war allowances and assistance fund payments placed under the administration of the Department of Veterans Affairs; and, (c) benefits from other sources such as Old Age Security, Guaranteed Income Supplement or Canada Pension Plan, placed under administration with the consent of the client. These persons have demonstrated the inability to manage their own affairs.

Payments are made out of the accounts, to provide food, shelter, clothing, comforts and other necessities.

Army benevolent fund

Pursuant to Section 3 of the Army Benevolent Fund Act, this account was credited with certain canteen profits and other funds from World War II. Interest at the rate of 12.62% per annum is credited semi-annually for the period June 29, 1985 to June 28, 1990, on the minimum monthly balances.

Payments are made out of the fund to or for the benefit of veterans or their dependants or the widows, children or other dependants of deceased veterans.

During the year, interest was credited to the account and charged to interest on public debt.

Estates fund

Pursuant to Sections 5, 6 and 7 of the Veterans' Estates Regulations, this account is credited with the proceeds from the estates of those veterans who died while receiving hospital treatment or institutional care. Individual accounts are maintained and payments are made to beneficiaries.

Ste-Anne's Hospital

Pursuant to Section 9 of the Guardianship of Veterans' Property Regulations, this account records moneys deposited for safekeeping by patients in the veterans' hospital in Ste-Anne-de-Bellevue, Quebec.

The debit balance in the account is the result of a coding error which will be adjusted in the new year.

Veterans' Land Act trust account general

Pursuant to Sections 11, 13, 20 and 73 of the Veterans' Land Act, receipts and other credits to this account consist mainly of initial and excess payments by veterans and civilian purchasers, as provided under the Act, which are held pending approval of sales. Other items included are veterans' sales proceeds held pending redispbursement on their present or second establishment, insurance fire loss proceeds to pay for restoration of fire damage, and moneys sent in by veterans and civilian purchasers, to be held for payment of taxes and insurance, and other related items.

During the year, this account was closed.

Veterans administration and welfare trust fund

Pursuant to Section 9 of the Guardianship of Veterans' Property Regulations, moneys held in this account include: (a) donations, legacies, gifts, bequests, etc. received, to be disbursed for the benefit of veterans or their dependants under certain conditions, and for the benefit of patients in institutions; and, (b) donations, legacies, gifts, bequests, etc. received by the Canadian Pension Commission, to be disbursed for the use of pensioners or dependants in distressed circumstances.

Veterans care trust accounts

Pursuant to Section 5 of the Department of Veterans Affairs Act, if the Minister of Veterans Affairs so directs, a client receiving adult residential care service or nursing home intermediate care service assigns or pays any or all of his income and resources, to be administered in the manner prescribed. Moneys held in these individual accounts may include: (a) war service gratuities held for mental, tubercular and other long-term treatment cases; (b) pensions paid by the Canadian Pension Commission; (c) war veterans and civilian war allowances; and, (d) income from other sources such as Old Age Security, Guaranteed Income Supplement and retirement pensions. The moneys are used to pay the charges for board and lodgings, and to provide clothing, comforts and other necessities.

Provincial Tax Collection Agreements Account

This account records income taxes collected by the Government of Canada on behalf of provinces and territories participating in the joint-collection provision of the Federal-Provincial Fiscal Arrangements Act, and related payments made to them.

Under the Federal-Provincial Fiscal Arrangements Act, the Government of Canada is empowered to enter into agreements with provincial and territorial governments, to collect income taxes on their behalf, and to make payments to them with respect to such taxes.

The Government of Canada entered into agreements with provinces and territories (Quebec excepted), to collect individual income tax, and, with provinces and territories (Ontario and Quebec excepted), to collect corporation income tax, and, to pay in equal monthly instalments to such provinces and territories, the estimated revenue to be produced by the respective provincial and territorial taxes.

At the beginning of each year, the Minister of Finance estimates the amount of the payments, for the taxation year ending in that year, to provinces and territories that have entered into agreements. These estimates are adjusted to actual amounts at a later date. Adjustments are to be made not later than March 31 of the year following that in which the taxation year ends.

Table 7.13 presents a summary of the balances and transactions in the provincial tax collection agreements account.

⁽¹⁾ This account was previously reported in Table 7.10.

Nuclear liability reinsurance account

This account was established pursuant to Sections 16 and 17 of the Nuclear Liability Act, to record premiums and to provide for payment of claims arising from accidents at an insured facility.

Investors' indemnity account

Section 57 of the Financial Administration Act provides for this account, and for the crediting thereto of the sum of \$25,000, such further amounts as are appropriated by Parliament for the purposes of this Section, and any recovery of losses referred to in Section 58 of the Act.

Section 58 states that the Minister may, in accordance with and subject to regulations, pay out of the account, any losses sustained by subscribers for Government securities, who have paid all or part of the purchase price but have not received the security or repayment of the amount so paid, and losses sustained by any person in the redemption of securities.

Civil service insurance fund

This fund was established by the Civil Service Insurance Act, to provide life insurance coverage for civil servants who bought policies before 1955-56. The purchase of policies was discontinued in 1954-55, pursuant to Section 62(2) of the Public Service Superannuation Act.

During the year, receipts and other credits consisted of premiums of \$17,643 and, an amount of \$448,632 (charged to

budgetary expenditure) representing an adjustment to bring the balance in the fund into agreement with the actuarial valuation as at March 31, 1988. Payments and other charges consisted of death benefits, \$565,567; cash surrender value, \$66,048; annuities, \$33,227; and premium refunds, \$167.

Fishing Vessel Insurance Plan

The Fishing Vessel Insurance Plan is administered in accordance with Vote 540, Appropriation Act No 5, 1955, extended by Vote L38b, Appropriation Act No 1, 1970, to insure fishermen against abnormal capital losses. The account is credited with premiums and recoveries, and with advances in accordance with the regulations, such advances not to exceed at any time \$150,000. The account is charged with refunds of premiums and payments in settlement of third party vessel collision damage claims against fishermen, where the collision involves a vessel insured under the Fishing Vessel Insurance Plan. Administration costs are paid from Fisheries and Oceans Vote 1.

Land assurance fund

This account was established by Sections 160 to 164 of the Land Titles Act, to indemnify title holders who suffer loss through misdescriptions in titles, and from other causes specified in the Land Titles Act. Fees are collected from the parties who register deeds with the Registrar of Land Titles in the Northwest Territories and the Yukon Territory. Interest is added to the fund annually, the present rate being 3% per annum.

Regular forces death benefit account

This account was established by the Canadian Forces Superannuation Act, to provide life insurance to contributing members of the Armed Forces. Receipts and other credits consist of: (a) contributions by participants; (b) Government's contribution (1/6 of benefits paid in respect of participants who, at the time of death, were members of the regular forces, or who were elective regular forces participants, to whom pensions were payable under the Canadian Forces Superannuation Act or the Defence Services Pension Continuation Act); (c) single premiums payable by the Government in respect of regular forces participants who become entitled to a basic benefit of \$500 without contribution; and, (d) interest.

Payments and other charges consist of: (a) benefits paid in respect of participants who, at the time of death, were members of the regular forces, or who were elective regular forces participants, to whom pensions were payable under the Canadian Forces Superannuation Act or the Defence Services Pension Continuation Act, upon their retirement from the regular forces; (b) benefits paid in respect of elective regular forces participants, to whom pensions were not payable under the Canadian Forces Superannuation Act or the Defence Services Pension Continuation Act, upon their retirement from the regular forces; and, (c) the portion of benefit payable for which a single premium has been paid by the Government.

Closing balance	95,819,641	85,236,692

Health insurance supplementary account

This account was established by Vote L16b, Appropriation Act No 2, 1973, to record payments in respect of persons who, through no fault of their own, have lost or been unable to obtain

coverage for the insured health services under the Canada Health Act, and in accordance with Federal-Provincial Agreement on Eligibility and Portability. Contributions are made by all provinces to the account in proportion to population, and are matched by the federal Government.

Maritime pollution claims fund

This account was established by Sections 666 and 681 of the Canada Shipping Act, to record levy tonnage payments for oil carried by ships in Canadian waters. The payment of the levy was revoked effective September 1, 1976.

Maritime pollution claims, the fee of the Fund Administrator, and related oil pollution control expenses, are to be financed out of the fund.

During the year, interest was credited to the account and charged to interest on public debt.

Public Service death benefit account

This account was established under the Public Service Superannuation Act, to provide life insurance to contributing members of the Public Service.

The account is credited with: (a) contributions by employees; (b) contributions by the Government and Public Service corporations; and, (c) interest. Payments and other charges represent: (a) benefits paid in respect of participants who, at the time of death, were employed in the Public Service, or were in receipt of an annuity under Part I of the Public Service Superannuation Act; and, (b) benefits of \$500 paid in respect of participants who, at the time of death, were employed in the Public Service, or were in receipt of an annuity under Part I of the Public Service Superannuation Act, and on whose behalf a single premium for \$500 death benefit coverage for life has been made.

Returned soldiers' insurance fund

This fund was established by the Returned Soldiers' Insurance Act, to provide life insurance to contributing veterans of World War I. The account is credited with premiums and is charged with disbursements for death benefits and cash surrender values. The account is actuarially maintained and an actuarial liability adjustment as at March 31, 1988 of \$17,701 was credited to the account during the year and was charged to budgetary expenditure. The final date on which application for this insurance could have been received, was August 31, 1933.

Veterans insurance fund

This fund was established by the Veterans' Insurance Act, to provide life insurance to contributing veterans of World War II. The account is credited with premiums and is charged with disbursements for death benefits and cash surrender values. The account is actuarially maintained and an actuarial liability adjustment as at March 31, 1988 of \$554,895 was credited to the account during the year and was charged to budgetary expenditure. The final date on which application for this insurance could have been received, was October 31, 1968.

Annuities agents' pension account

This account was established by Vote 181, Appropriation Act No 1, 1961, to provide pension benefits to former eligible Government employees who were engaged in selling Government annuities to the public.

During the year, interest was credited to the account and charged to interest on public debt.

Members of Parliament retiring allowances account

This account was established by the Members of Parliament Retiring Allowances Act, to provide pension benefits to eligible Members of Parliament who contributed to the plan. "Member" means a member of the Senate or House of Commons. Benefits are also available to widows and dependent children of members who served on or after April 9, 1963 and contributed under the Act.

Receipts and other credits consist of: (a) contributions reserved from current indemnities, based on the full amount paid; (b) contributions reserved from additional salaries, based on the percentage of contribution elected, up to 10% of the full amount of salary; (c) contributions for previous sessions, where members elect to pay arrears, and interest on arrears; (d) interest and mortality insurance on any unpaid balance, based on Canada Life Tables; (e) contributions by the Government, of an amount equal to contributions paid or which have become payable in the year; (f) interest credited quarterly; and, (g) the repayment of pensions after elections to transfer Members of Parliament retiring allowances to the Public Service Superannuation Account.

Payments and other charges consist of: (a) payments of annual allowances; (b) withdrawal allowances and related interest; (c) refunds of contributions which are in excess of the maximum required; and, (d) transfers of funds to the Public Service Superannuation Account.

Dependants' pension fund

This fund which pertains to Part IV of the Royal Canadian Mounted Police Pension Continuation Act, provides pension benefits to certain widows and other dependants of contributing members of the Royal Canadian Mounted Police. The fund is credited with a 5% contribution from the pay of members of the Force, other than commissioned officers. There are no longer any active contributing members.

During the year, interest was credited to the account and charged to interest on public debt.

Locally-engaged contributory pension account

This account, which pertains to Part II of the Locally-Engaged Pension Regulations, provides pension benefits to locally-employed Government employees who contributed to the plan. The account is credited with contributions from locally-engaged employees, and charged with the subsequent payment of benefits.

Retirement fund

This fund provides pension benefits to certain eligible Government employees who are not covered by the Public Service Superannuation Account and who contributed to the fund.

Contributions are made to the fund in the form of monthly deductions from the salaries of certain prevailing rate or seasonal and certain other employees. Other credits are interest at the rate of 4% per annum on the balance to the credit of each contributor, the off-setting charge being to interest on public debt. Payments and other charges represent payment of the amounts to the employees' credit upon resignation or death, or, if they become contributors to the Public Service Superannuation Account, transfers to that account.

Canada/Provinces livestock drought agreements

This account was established by Section 21 of the Financial Administration Act, to record advance payments by the provinces of their share of the costs incurred under the livestock drought agreements. The account is reduced as payments are made to eligible livestock producers.

Canada/Saskatchewan agricultural community water infrastructure

This account was established pursuant to the 1984 Canada-Saskatchewan Subsidiary Agreement on Agricultural Community Water Infrastructure, to record deposits from the Province of Saskatchewan whenever a city or town is able to finance part of the water supply or water disposal facilities and separate construction is not possible. Money is paid out of the account as eligible billing costs are received.

Cost-shared agreements—Research

This account was established by Section 21 of the Financial Administration Act, to record amounts deposited by external agencies for cost-shared research projects. Moneys are disbursed on behalf of the depositors as the specific projects are undertaken.

Fees paid in advance—Importation of foreign cattle

This account was established by Section 21 of the Financial Administration Act, to record deposits made in connection with the importation of foreign cattle, pregnancy tests on cattle, and applications for the registration of feeds, fertilizers and pesticides, which are credited to this account pending assessment of actual costs on completion of the particular services required.

On final accountability and at such time as the services are completed, the deposits are either credited to non-tax revenue, or are returned to the depositor.

Importation of Dutch bulbs

This account was established by Section 21 of the Financial Administration Act, to record deposits made in connection with the importation of Dutch bulbs. The inspections are made in Holland before the bulbs are containerized. When the inspections are completed, the actual fees are credited to non-tax revenue, with any excess returned to depositors.

Miscellaneous projects deposits—Canadian Forestry Service Program

This account was established by Section 21 of the Financial Administration Act, to record contributions received from organizations and individuals for the furtherance of forestry research work.

National forestry awareness campaign

This account was established by Section 21 of the Financial Administration Act, to record moneys to be used to make the Canadian public more aware of the economic importance of the forest sector and the impact that the forestry industry has on the overall well-being of Canadians. This activity is funded by pooling a portion of the funds of all federal-provincial forestry agreements. Deposits to this account constitute the province's share of the awareness campaign.

Advance account—Canadian Film Development Corporation

This account was established by Section 21 of the Financial Administration Act, to reserve for use in future years moneys generated by projects funded by Telefilm Canada, and which, due to timing, remained unreinvested at year end.

Federal/Provincial study on long distance calls

This account was established by Section 21 of the Financial Administration Act, to record advance payments made by provinces against their share of the cost of the study, and held pending disbursements.

The study on long distance calls is jointly funded by the federal and provincial governments.

Shared-cost projects—Canadian Radio-television and Telecommunications Commission

This account was established by Section 21 of the Financial Administration Act, to record advance payments from private industry in support of the study on sex-roles in Canadian television programming.

National Archives of Canada account

This account was established by Section 10 of the National Archives of Canada Act, to record moneys received for the purpose of the National Archives, by way of donation, bequest or otherwise. Amounts received for the purposes of the Act may be paid out of this account, or out of money appropriated by Parliament for such purposes.

Deposit account—Consumer and Corporate Affairs

This account was established by Sections 20 and 21 of the Financial Administration Act, to record moneys held in trust to defray the cost of services provided on a regular basis. No interest is credited to the account.

Canadian jobs strategy program

The Canadian jobs strategy program is jointly funded by the federal and provincial governments.

This account was established by Section 21 of the Financial Administration Act, to record advance payments made by provinces against their share of the cost of projects, and held in trust pending disbursements to project sponsors.

Summer employment—Experience development program

The summer employment—Experience development program is jointly funded by the federal and provincial governments.

This account was established by Section 21 of the Financial Administration Act, to record advance payments made by provinces against their share of the cost of projects, and held in trust pending disbursements to project sponsors.

Territorial subsidiary agreement on human resource development

The territorial subsidiary agreement on human resource development program is jointly funded by the federal Government and the Government of the Northwest Territories.

This account was established by Section 21 of the Financial Administration Act, to record advance payments made by the territorial government against its share of the cost of projects, and held in trust pending disbursements to project sponsors.

During the year, this account was closed.

Work orientation workshops program

The work orientation workshops program is jointly funded by the federal and provincial governments.

This account was established by Section 21 of the Financial Administration Act, to record advance payments made by provinces against their share of the cost of projects, and held in trust pending disbursements to project sponsors.

Market development incentive payments—Alberta

This account records moneys received from the Government of Alberta, to encourage the expansion of natural gas markets in provinces east of Alberta, in accordance with an agreement between the Government of Canada and the Government of Alberta dated September 1, 1981 and pursuant to Section 39 of the Energy Administration Act. The original term of the agreement was from November 1, 1981 to January 31, 1987. As a result of the Western Accord of March 25, 1985, payments from the Government of Alberta terminated as at April 30, 1986, however, payments are being made from the account for the Natural Gas Vehicle Conversion and Natural Gas Fueling Station Programs.

Miscellaneous projects deposits—Energy, Mines and Resources

Accounts were established by Sections 20 and 21 of the Financial Administration Act, to record prepayments received from outside organizations and individuals for scientific services to be performed on a cost recovery basis. As work progresses, earned income is credited to non-tax revenue.

NYSERDA—Diesel technology Research and Development

This account was established by Section 21 of the Financial Administration Act, to administer an advance payment from the New York State Energy Research and Development Authority (NYSERDA) with respect to demonstrating methanol diesel technology in the operation of transit buses. The advance was a condition of an agreement between the Department of Energy, Mines and Resources and NYSERDA.

Forks sculpture contest account

This account was established by Section 21 of the Financial Administration Act, for the purpose of accepting donations from large companies to sponsor a sculpture competition for the opening of the Fork National Historic Park in late 1988.

Les Amis du Plein air de Cheticamp account

This account was established by Section 21 of the Financial Administration Act, for the purpose of accepting donations from the Cooperating Association to share in the cost of designing, constructing and furnishing an addition to the Cheticamp Visitor Centre at Cape Breton Highlands National Park.

Miscellaneous projects deposits—Environment

This account was established by Section 21 of the Financial Administration Act, to record contributions received from organizations and individuals, for the furtherance of research work.

Cost recoverable technical assistance program

This account was established by Section 21 of the Financial Administration Act, to record prepayments and disbursements in respect of the costs pertaining to the provision of technical assistance to other countries by Canadian firms and institutions pursuant to agreements between the Government of Canada and other national governments.

During the year, interest was credited to the account and charged to interest on public debt.

Economic summit account

This account was established by Section 21 of the Financial Administration Act, to record moneys received from the private sector and other public funded organizations. These donated funds were used to help defray the costs of special events at the Economic Summit held in Toronto, Ontario from June 19 to 28, 1988.

Hungarian medical school projects

This account was established by Section 21 of the Financial Administration Act, to record moneys received from the private sector. These donated funds were used to help defray the costs of the Hungarian medical school projects.

Guarantee deposits—Canadian International Development Agency

This account was established by Section 29 of the Financial Administration Act, to record cheques for insurance claims related to damages to "in transit" goods being shipped to the country specified in the loan agreement, pending the decision of the country on the use of these moneys, to reduce the loan balance or to purchase replacement goods.

Miscellaneous projects deposits—Fisheries and Oceans

This account was established by Section 21 of the Financial Administration Act, to record contributions received from organizations and individuals, for the furtherance of research work.

Fines—Indian Act

Fines collected under Sections 85.1 and 104 of the Indian Act, in connection with liquor prosecutions, and band bylaws, are credited to this account. Expenditures cover certain costs incurred in the suppression of the liquor traffic among the Indians of Canada.

Donations

This account was established by Section 6(3) of the Canadian Centre for Occupational Health and Safety Act, to record moneys, securities or other property received by way of gift, bequest or otherwise, and to disburse such donations at the discretion of the Centre.

Foreign governments

These accounts were established by Section 21 of the Financial Administration Act, to record funds received from foreign governments, to cover expenditures to be made on their behalf, in accordance with the provisions of agreements with the Government of Canada.

The debit balance in the account is the result of a processing delay and will be cleared in the new year.

North Atlantic Treaty Organization (NATO)

These accounts were established by Section 21 of the Financial Administration Act, to record funds received from NATO to cover (a) NATO infrastructure projects implemented by Canada, and, (b) other expenditures to be made on NATO's behalf, in accordance with the terms of an agreement with the Government of Canada.

Non-government agencies

This account was established by Section 21 of the Financial Administration Act, to record funds received for expenditures made on behalf of non-government agencies, for which specific accounts have not been established.

Computerized space programming methodology

This account was established by Section 21 of the Financial Administration Act, to record transactions relating to the provinces' share of costs incurred under a cost-sharing agreement with provinces (except Quebec) and territories to computerize the Hospital Space Programming Methodology series. Contributions are made by provinces to the account in proportion to population.

Fire safety evaluation system for hospitals

This account was established by Section 21 of the Financial Administration Act, to record transactions relating to funds provided by the provinces and territories under a cost-shared agreement for an evaluation of fire safety systems for hospitals.

National physician data base

This account was established by Section 21 of the Financial Administration Act, to record transactions relating to funds provided by the provinces and territories under a cost-shared agreement for the development of a national physician data base.

"Nobody's perfect"—Shared-cost project

This account was established by Section 21 of the Financial Administration Act, to record transactions relating to the provinces' share of costs incurred under a federal-provincial cost-sharing agreement for a cooperative project on parenting.

Safety evaluation of chemicals

This account was established by Section 21 of the Financial Administration Act, to record funds received and payments made to organizations and individuals providing services on behalf of the Scientific Group on Methodologies for the Safety Evaluation of Chemicals in accordance with the specific purposes identified by the Group.

World Health Organization

This account was established by Section 21 of the Financial Administration Act, to record funds received from the World Health Organization, for scientific projects.

Shared-cost projects—Public Works

This account was established by Section 21 of the Financial Administration Act, to record the receipt, in advance, of moneys from departments and agencies and others, for their share of certain shared-cost projects.

Advance payments—Statistics Canada

This account was established by Section 21 of the Financial Administration Act, to record advance payments received from departments and agencies and others to finance the cost of special statistical services.

Trust fund—National Research Council

This account was established by the National Research Council Act, to record funds received from departments and agencies and public organizations, to cover expenditures made on their behalf.

Special fund—National Research Council

This account was established by the National Research Council Act, to record revenue received by the National Research Council of Canada in the amount of \$19,817,086, derived from laboratory fees, \$9,365,058; capital, \$411,000; information services, \$2,602,231; sales of publications, \$4,234,329; and, miscellaneous receipts, \$3,204,468. An amount of \$17,717,086 was charged hereto, of which an amount of \$17,306,086 was credited to National Research Council Vote 10, and \$411,000 to National Research Council Vote 15, to offset expenditures.

Canada/Japan joint study

This account was established by Section 21 of the Financial Administration Act and Section 15 of the Science Council of Canada Act, to record moneys received from Japan to be used for the joint study on cooperation in the field of science and technology between Canada and Japan.

Promotion of official languages

This account was established by Section 21 of the Financial Administration Act, to provide members of the private sector with language instruction using federal Government facilities and Public Service Commission instructors.

Advance payments from the private sector are credited to the account, and charges by the Public Service Commission for its services are charged thereto.

Queen's Fellowship fund—Social Sciences and Humanities Research Council

This fund is an endowment of \$250,000 that was established by Vote 45a, Appropriation Act No 5, 1973-74. The income is used for the payment of scholarships to graduate students in certain fields of Canadian studies.

During the year, interest was credited to the account and charged to interest on public debt.

Trust fund—Social Sciences and Humanities Research Council

This account was established by Section 21 of the Financial Administration Act, to record receipts and disbursements of funds available for social sciences and humanities research activities. The account is also used to record receipts of private donations and disbursements for the purpose of special projects.

During the year, interest was credited to the account and charged to interest on public debt.

Interest on bonds—Insurance companies

This account is credited with the proceeds from interest coupons on bonds deposited by insurance companies under the Canadian and British Insurance Companies Act. Debits represent the payment of the same interest to the insurance companies.

The debit balance in the account is the result of timing differences between the deposit of proceeds and payments to insurance companies.

Military purchases excess funds deposit

This account was established by a written agreement between Canada and the United States, to record temporarily unutilized funds paid to the United States Government under contracts for purchases of military equipment. The funds are invested by the Federal Reserve Bank of New York to earn interest for the Government of Canada.

Cartierville Airport account

In accordance with Section 21 of the Financial Administration Act, and following the sale of the Cartierville Airport by the Government to Canadair Limited, this special account was established to hold in deposit \$5,000,000 and to record in the same account the interest earned as approved by the Minister of Finance.

Periodically, this account will be debited with payments to Canadair Limited to reimburse them for repairs and improvement expenses incurred at the Cartierville Airport.

Provincial sales tax—National Archives of Canada

This account was established pursuant to Part VII of the Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act. This Act contains provisions for the collection and remittance of provincial sales tax in connection with the sale of microfilm and reproductions.

Provincial sales tax—National Library

This account was established pursuant to Part VII of the Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act. This Act contains provisions for the collection and remittance of provincial sales tax in connection with the sale of microfilm and reproductions.

Provincial sales tax—Energy, Mines and Resources

This account was established pursuant to Part VII of the Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act. This Act contains provisions for the collection and remittance of provincial sales tax in connection with the sale of maps, charts and photographs.

Provincial sales tax—Correctional Service

This account was established pursuant to Part VII of the Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act. This Act contains provisions for the collection and remittance of provincial sales tax on sales made by the Correctional Service of Canada.

Provincial sales tax—Royal Canadian Mounted Police

This account was established pursuant to Part VII of the Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act. This Act contains provisions for the collection and remittance of provincial sales tax on sales made by the Royal Canadian Mounted Police.

Federal sales tax—Correctional Service

Pursuant to Section 43 of the Penitentiary Regulations, this account is credited with federal sales tax on sales made by the Correctional Service of Canada, and is charged with remittances to National Revenue, Customs and Excise.

Sales tax liability is recognized at the time of sale and is remitted the following month.

SUPPLEMENTARY STATEMENTS

Canada Pension Plan Account and the
Canada Pension Plan Investment Fund

AUDITOR'S REPORT

TO THE MINISTER OF NATIONAL HEALTH AND WELFARE

I have examined the statements of the Canada Pension Plan Account and the Canada Pension Plan Investment Fund for the year ended March 31, 1989. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these statements present fairly the balance and changes of the Account and the Fund for the year ended March 31, 1989 in accordance with the accounting policies set out in Note 2 to the statements applied on a basis consistent with that of the preceding year.

NOTES TO STATEMENTS FOR THE YEAR ENDED MARCH 31, 1989

1. Plan description and authority

The Canada Pension Plan (the Plan) is a compulsory and contributory social insurance plan which enables members of the labour force to acquire and retain protection for themselves and their families against loss of income due to retirement, disability or death. The Plan applies in all parts of Canada, except for the Province of Quebec which has a parallel plan.

Under existing arrangements, all benefits and all costs incurred in the administration of the Plan are financed by the contributions made by employees, employers and self-employed persons and the interest earned from the investment of funds.

The Canada Pension Plan Account (the Account) was established in the accounts of Canada by Section 108.(1) of the Canada Pension Plan, a 1965 Act of Parliament, to record the contributions, interest, benefits and expenses of the Plan.

The Canada Pension Plan Investment Fund (the Fund) was established in the accounts of Canada by Section 109.(1) of the Plan to record the investment in securities of the provinces, territories and Canada.

2. Accounting policies

Canada Pension Plan Account

The amounts credited and charged to the Account are in accordance with Sections 108.(2) and 108.(3) of the Plan, respectively. Contributions, interest and benefits are recorded on a cash basis. Contributions are received from Revenue Canada—Taxation based on estimates of collections for the current year and adjustments to the estimates of prior years. Expenses are recorded on an accrual basis. The balance in the Account represents the accumulated excess of contributions and interest over benefits and expenses to date.

Canada Pension Plan Investment Fund

The amounts charged and credited to the Fund are in accordance with Section 109.(2) of the Plan. All securities held are carried at cost, are non-negotiable and have a term of 20 years or such lesser period as may be determined by the Minister of Finance on the recommendation of the Chief Actuary of the Office of the Superintendent of Financial Institutions.

Canada Pension Plan Account and the Canada Pension Plan Investment Fund—Concluded

NOTES TO STATEMENTS FOR THE YEAR ENDED MARCH 31, 1989—Concluded

3. Interest

	1989	1988
	(in thousands of dollars)	
Interest on investment in securities held by the Fund. The weighted average rate of interest on securities purchased during the year was 10.08% (1988: 9.61%)		
Provinces and territory		
Newfoundland	76,769	73,194
Prince Edward Island	16,301	15,455
Nova Scotia	142,948	136,450
New Brunswick	105,125	100,177
Quebec	12,675	12,260
Ontario	1,718,713	1,695,475
Manitoba	199,897	193,368
Saskatchewan	165,306	158,641
Alberta	440,428	414,944
British Columbia	519,183	496,018
Yukon Territory	360	179
Canada	3,397,705	3,296,161
	264,133	189,039
	3,661,838	3,485,200
Interest on operating balance on deposit with the Receiver General for Canada, at a weighted average rate of 9.70% (1988: 8.16%)	250,426	184,028
	3,912,264	3,669,228

4. Expenses

Expenses of the Account represent the costs of administration charged by six federal government departments: Health and Welfare (administration); Revenue Canada—Taxation (collection of contributions); Supply and Services (cheque issue and computer services); Public Works (accommodation); Employment and Immigration (assignment of social insurance numbers and maintenance of central index); and, the Office of the Superintendent of Financial Institutions (actuarial services).

5. Investment in securities

Operating balances on deposit with the Receiver General in excess of estimated cash requirements for the following three-month period are available for purchases of securities of the provinces, territories and Canada. The monies available for security purchases are allocated to the provinces and territories based on the proportion of contributions credited to the Account during the preceding 10 years in respect of employment in a given province or a territory to the total contributions in those years. The portion attributed to certain other employees outside Canada continues to be invested in securities of Canada.

The securities of Quebec relate to the contributions of certain federal employees, such as members of the Canadian Armed Forces, who are residents in the Province of Quebec.

6. Financing of the Plan

The Canada Pension Plan was amended by Bill C-116 with effect from January 1, 1987. A long-term financing philosophy was established setting out provisions for the timing, rate of increase of the contribution rates and amendments thereto which will be made by regulation.

The revised legislation now contains a 25 year schedule of contribution rates providing for an increase from the 1986 rate of 3.6% progressively by 0.2 percentage points each year until 1991 and by 0.15 percentage points thereafter until 2011 when it will reach 7.6%. However, it stipulates that every five years the Minister of Finance and ministers of the Crown from the included provinces shall review the contribution rates set out in the schedule and make recommendations as to whether those rates should be changed and as to whether the schedule should be amended to include contribution rates for an additional five years. If, for any reason, the schedule is not amended for the additional five years the Minister of Finance shall, by regulation, amend the schedule to include the contribution rates set out in the most recent report prepared by the Chief Actuary. By the year 2011, it is expected that the Plan's Account will be equivalent to approximately two years' expenditure of the Plan and will be maintained near that level in accordance with the provisions of Section 113.1(4)(c) of the revised legislation.

Under existing legislation, any proposed enactment to alter the general level of benefits or the rate of contributions requires agreement by at least two-thirds of the 10 provinces having an aggregate of not less than two-thirds of the population.

Report No 10 was the Chief Actuary's last report tabled in Parliament in October 1986. Among other things, it contained the results of his examination of the financial impact of the legislative changes in Bill C-116.

Government Annuities Account

AUDITOR'S REPORT

TO THE MINISTER OF EMPLOYMENT AND IMMIGRATION

I have examined the balance sheet of the Government Annuities Account as at March 31, 1989 and the statements of operations and actuarial reserves and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Account as at March 31, 1989 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Account that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with section 15 of the Government Annuities Act, section 15 of the Government Annuities Improvement Act, and the Regulations.

Deposit with Receiver General for Canada, balance at end of the year	882,943	919,574

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1989

1. Authority and purpose

The Government Annuities Account was established in 1908 by the Government Annuities Act, (the "Act"), as modified by the Government Annuities Improvement Act, (the "Improvement Act").

The purpose of the Act was to assist individuals and groups of Canadians to provide for their later years by purchasing Government annuities. The Improvement Act increased the rate of return on Government annuity contracts to a rate of seven percent, increased their flexibility and discontinued future sales.

The Account is administered by the Canada Employment and Immigration Commission and operates through the Consolidated Revenue Fund.

2. Significant accounting policies

(a) Basis of accounting

The accounts of the Government Annuities Account are maintained on an accrual basis.

(b) Actuarial reserves

Actuarial reserves comprise: (i) in respect of unmatured annuities, accumulated premiums and accrued interest, and (ii) in respect of matured annuities, the present value of such annuities actuarially determined on the basis of such rate or rates of interest and mortality tables as is prescribed.

(c) Actuarial surplus due to Canada

If at the end of any fiscal year the recorded amount of actuarial reserves exceeds or is less than the calculated amount of actuarial reserves, the difference results in an actuarial surplus or deficit which is remitted to or recovered from the Consolidated Revenue Fund.

(d) Interest from Canada

Interest from Canada is calculated on actuarial reserves as prescribed by the Improvement Act.

(e) Unclaimed annuities

Unclaimed annuities represent amounts transferred to the Consolidated Revenue Fund in respect of annuities that could not be paid because the annuitants could not be located.

(f) Services provided without charge

Administrative services are provided to the Account by the Canada Employment and Immigration Commission and by other Government departments without charge.

Government Annuities Account—Concluded

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1989—Concluded

3. Actuarial reserves

The method utilized to calculate the actuarial reserves of \$945,224,000 (1988—\$984,816,000) is in accordance with subsection 15(1) of the Government Annuities Improvement Act and the Regulations pertaining thereto.

The Government Annuities Regulations provide that the Mortality Tables to be used in determining the values of annuities shall be the Annuity Tables for 1949 modified by Projection Scale C.

The Commission undertakes an annual review of mortality experience to monitor the appropriateness of the mortality tables for valuation purposes. The results of the last study indicate that the mortality tables in use continue to be appropriate for such purposes.

Royal Canadian Mounted Police (Dependants) Pension Fund

AUDITOR'S REPORT

TO THE SOLICITOR GENERAL OF CANADA

I have examined the statement of revenues, expenditures and fund balance of the Royal Canadian Mounted Police (Dependants) Pension Fund for the year ended March 31, 1989. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the revenues and expenditures of the Fund and its balance for the year ended March 31, 1989 in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Raymond Dubois, F.C.A.
Deputy Auditor General
for the Auditor General of Canada

Ottawa, Canada

NOTES TO THE FINANCIAL STATEMENT MARCH 31, 1989

1. Authority and operations

The Royal Canadian Mounted Police (Dependants) Pension Fund was established in 1934 by the Royal Canadian Mounted Police Pension Continuation Act. The Act provides for members of the Force, other than commissioned officers, appointed before March 1, 1949, to purchase certain survivorship benefits for their dependants by payment of specified contributions. The Fund is credited with these contributions together with interest computed quarterly on the balance to the credit of the Fund at the end of the preceding quarter, and charged with contributions withdrawn and pensions. All transactions of the Fund are made through the Consolidated Revenue Fund.

Section 56 of the Act directs the Minister of Finance to have an actuarial valuation of the Fund made at least once every 5 years. If the actuarial valuation discloses a surplus, the Governor in Council may, by order, increase pensions. If there is an actuarial deficiency, the Governor in Council may direct that there be credited to the Fund, out of any unappropriated moneys in the Consolidated Revenue Fund, such amount as may be required to re-establish solvency of the Fund.

2. Significant accounting policy

Revenues and expenditures are recorded on the accrual basis.

3. Supplementary information

The most recent actuarial valuation was made as at March 31, 1988. The valuation disclosed an actuarial surplus of \$2,422,873. A portion of the surplus will be distributed by an increase in the basic pension amount of 20% as at April 1, 1989 and a further increase of 20% as at April 1, 1990.

Interest due

Interest due is the interest on the bonded debt, which is due and payable but has not been redeemed by bond holders.

Interest accrued

Interest accrued is the interest accumulated as at March 31 on the bonded debt and certain other liabilities, that is not payable until a future date.

Matured debt

This account records financial obligations represented by certificates of indebtedness issued by the Government of Canada, that have become due but that have not been presented for redemption. Unclaimed matured bonds are transferred to non-tax revenue if they remain unredeemed 15 years after the date of call or maturity, whichever is earlier; the minimum time before such a transfer is made is 5 years from the date of maturity.

Unamortized Discount on Canada Bills

This account records the portion of the discount on outstanding Canada bills which has not yet been charged to expenditure. The discount is amortized as an expenditure over the term of issue.

Unamortized Discount on Treasury Bills

This account records the portion of the discount on outstanding Treasury bills which has not yet been charged to expenditure. The discount is amortized as an expenditure over the term of issue.

Accounts Payable

This account represents amounts owing at the year end pursuant to contractual arrangements, or for work performed, goods received, or services rendered, relating to appropriations on which Parliament has imposed annual ceilings, and items to be paid from certain statutory authorities.

Outstanding Cheques and Warrants

This account records cheques and warrants issued but not yet presented for payment.

Table 8.3 presents a summary of the balances in this account.

TABLE 8.3

OUTSTANDING CHEQUES AND WARRANTS

	April 1/1988	March 31/1989	Net increase or decrease (-)	
	\$	\$	1989	1988
Outstanding cheques	2,476,484,962	2,089,945,148	-386,539,814	-168,506,410
Imprest account cheques	718,724	798,187	79,463	34,355
Unemployment insurance warrants	245,984,004	277,979,975	31,995,971	21,317,656
Total	2,723,187,690	2,368,723,310	-354,464,380	-147,154,399

Outstanding cheques

Cheques issued in Canadian dollars, and unpaid at March 31, are recorded in this account. Cheques outstanding for 10 years are transferred to non-tax revenue. During the year, an amount of \$9,480,129 was transferred to revenue.

Cheques in foreign currencies are credited to the Government's cash account at the time of issue.

Imprest account cheques

Imprest account cheques issued and unpaid at March 31, with the exception of those outstanding for 10 years or more (which have been transferred to non-tax revenue), are recorded in this account. During the year, an amount of \$19,143 was transferred to revenue.

Unemployment insurance warrants

This account records outstanding Unemployment insurance benefit warrants.

Allowance for Employee Vacation and Termination Benefits

This account represents allowances for amounts owing for earned and unpaid annual vacation leave (\$450 million) and for employee benefits payable upon termination of employment (\$1,800 million).

Allowance for Borrowings of Agent Crown Corporations Expected to be Repaid by the Government

In accordance with Section 54 of the Financial Administration Act, the payment of all money borrowed by agent Crown corporations, and interest thereon, is a charge on and payable out of the Consolidated Revenue Fund. Such borrowings therefore constitute unconditional obligations of the Government.

This account reports the borrowings of agent Crown corporations expected to be repaid by the Government (see Table 6.10 in Section 6 of this volume).

Other Liabilities—Miscellaneous

Table 8.4 presents a summary of the balances and transactions for other miscellaneous liabilities.

Eldorado Mining and Refining Limited—Unpresented capital stock

The liability of the Government of Canada for the value of the paid-up capital stock of the former company, which has not been redeemed at the close of the year, is recorded herein.

Miscellaneous departmental payroll deductions

Deductions from the salaries and wages of certain employees are credited to this account pending transmittal to related outside organizations.

During the year, the account was increased by net transactions amounting to \$25,239,573.

Contractors' and other holdbacks

This account records the amounts withheld to ensure that contracts are carried out as stipulated. Holdbacks are charged to appropriations of departments or agencies concerned, and are credited to this account under Section 42 of the Financial Administration Act. They are paid out in accordance with contracts under regulations of the Treasury Board.

Suspense accounts

Accounts in which transactions are recorded temporarily, pending their ultimate disposition.

During the year, the accounts were increased by net transactions amounting to \$5,969,884.

Exchange Fund Account	9.4

FOREIGN EXCHANGE ACCOUNTS

Foreign exchange accounts represent financial claims and obligations of the Government of Canada which are identified with Canada's foreign exchange operations. Financial claims and obligations denominated in foreign currencies are reported at Canadian dollar equivalents at March 31. Net gains resulting from the translation of the net assets denominated in foreign currencies, to Canadian dollar equivalents as at March 31, are credited to revenue as premium and discount on exchange, and net losses are charged to budgetary expenditure of the Department of Finance.

Table 9.1 presents the continuity of each foreign exchange account, by showing the opening and closing balances, as well as receipts and other credits, and payments and other charges. It should be noted, however, that this table excludes unmatured debt payable in foreign currencies, amounting to \$8,320 million as at March 31, 1989 (\$11,282 million as at March 31, 1988); details relating to these obligations are presented in Section 10 of this volume.

International Reserves Held in the Exchange Fund Account

This account records the moneys advanced from the Government of Canada to the Exchange Fund Account, in Canadian and other currencies, for the purchase of gold, foreign currencies and securities, and Special Drawing Rights (SDRs).

The Exchange Fund Account is operated under the provisions of the Currency Act. In accordance with this Act, audited financial statements for the Exchange Fund Account are prepared for each calendar year. The financial statements as at December 31, 1988, together with the Auditor General's report thereon, are found at the end of this section.

Table 9.2 shows foreign exchange reserves held by and advances to the Exchange Fund Account as at March 31, 1989. Gold held by the Account is valued at 35 SDRs per fine ounce (\$53.95 Cdn as at March 31, 1989 and \$59.96 Cdn as at March 31, 1988).

In 1988-89, payments and other charges consisted of advances to the Exchange Fund Account in the amount of \$72,576.9 million and an adjustment of \$355.9 million to recognize the net income of the Exchange Fund Account for the period January 1 to March 31. Receipts and other credits consisted of repayments of advances of \$69,370.3 million and a valuation adjustment of \$919.1 million.

Total	17,422	14,779

⁽¹⁾ Less than \$500,000.

⁽²⁾ Excludes 1968 issue (1988, \$123,490,000), the proceeds of which were advanced to the Exchange Fund Account in Canadian dollars.

International Monetary Fund—Subscriptions

This account records the value of Canada's subscription (its "quota") to the capital of the International Monetary Fund (IMF).

The amount by which the sum of Canada's subscriptions plus loans to the IMF under special facilities exceeds the IMF's holdings of Canadian dollars represents the amount of foreign exchange which Canada is entitled to draw from the IMF on demand for balance of payments purposes. The subscription is expressed in terms of the SDR, a unit of account defined in terms of a "basket" of five major currencies.

Canada has accumulated its subscriptions through settlements to the IMF in Canadian dollars, gold and SDRs. Annual maintenance of value payments are made to, or received from, the IMF when the Canadian dollar depreciates or appreciates against the SDR, in order to maintain the SDR-value of the IMF's holdings of Canadian dollars. In 1988-89, receipts and other credits consisted of a maintenance of value adjustment of \$443 million and a valuation adjustment of \$61.7 million.

International Monetary Fund—Notes Payable

This account records non-marketable, non-interest bearing notes issued by the Government of Canada to the IMF. These notes are payable on demand and are subject to redemption or re-issue, depending on the needs of the IMF for Canadian currency.

Canadian dollar holdings of the IMF include these notes and a small working balance (initially equal to one-quarter of one percent of Canada's subscription) held on deposit at the Bank of Canada. In 1988-89, notes payable to the IMF decreased by \$495.9 million.

Special Drawing Rights Allocations

This account records the value of SDRs allocated to Canada by the IMF. The Special Drawing Right is an international currency created by the IMF, and allocated to countries participating in its Special Drawing Rights Department. It represents a liability of Canada, as circumstances could arise whereby Canada could be called upon to repay these allocations, in part or in total.

As an asset, SDRs represent rights to purchase currencies of other countries participating in the IMF's Special Drawing Rights Department, as well as to make payments to the IMF itself. All SDRs allocated to Canada by the IMF have either been used to settle subscriptions in the IMF, or have been advanced to the Exchange Fund Account.

There was no allocation of SDRs by the IMF to Canada during the year. In 1988-89, payments and other charges consisted of a valuation adjustment of \$133.7 million.

SUPPLEMENTARY STATEMENT

Exchange Fund Account

AUDITOR'S REPORT

TO THE MINISTER OF FINANCE

I have examined the balance sheet of the Exchange Fund Account as at December 31, 1988 and the statement of income for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, the Exchange Fund Account for the year ended December 31, 1988 was in compliance, in all significant respects, with applicable provisions of the Currency Act.

Further, in my opinion, the financial statements present fairly the financial position of the Exchange Fund Account as at December 31, 1988 and the results of its operations for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements applied on a basis consistent with that of the preceding year.

D. Larry Meyers, F.C.A.

Net income for the year due to the Consolidated Revenue Fund	1,685.5	317.1

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1988

1. Authority and objective

The Account is governed by Part II of the Currency Act (the Act). The Account is in the name of the Minister of Finance and is administered by the Bank of Canada as fiscal agent. The Account is funded by advances from the Consolidated Revenue Fund (CRF) which are limited to Cdn \$25 billion by Order in Council dated June 30, 1988 and are not subject to interest. The net income or loss for the year is payable or chargeable to the CRF within three months after the end of the year.

The main objective of the Account is to aid in the control and protection of the external value of the Canadian dollar and the Minister acquires for the Account those assets which are deemed appropriate for this purpose in accordance with the Act.

2. Accounting policies

Valuation of assets

US dollar securities, Special Drawing Rights (SDRs) and International Monetary Fund (IMF) notes are adjusted for amortized premiums and discounts where applicable, and include accrued interest. Gold includes gold loans and accrued interest on gold loans. The Minister of Finance determines the gold valuation policy of the Account (Note 6). Cash and short-term deposits include accrued interest where applicable.

Translation of foreign currencies and SDRs

Assets and liabilities denominated in foreign currencies are translated into Canadian dollars at the year-end exchange rates in the Canadian foreign exchange market. Assets and liabilities denominated in SDRs are first translated into US dollars at the year-end US dollar value of the SDR, as calculated by the IMF, and then into Canadian dollars. Investment income in foreign currencies is translated into Canadian dollars at the foreign exchange rates prevailing on the date the income is recorded. The assets and liabilities denominated in foreign currencies and SDRs have been translated into Canadian dollars at the following year-end exchange rates:

	1988	1987
US dollar	1.1925	1.2993
Japanese yen	0.009547	0.010737
Swiss franc	0.7955	1.0231
Special Drawing Right	1.604750	1.84327
Deutsche mark	0.6735	0.8275

Investment income

Investment income is recorded on the accrual basis and includes interest earned, amortization of premiums and discounts, and gains and losses on the sale of securities.

Valuation gains and losses

Valuation gains and losses include the increases and decreases in the value of assets and liabilities arising from the translation of foreign currencies and SDRs during the year and at year end. Valuation gains and losses also include gains or losses on transactions in foreign currencies, SDRs and gold, and on the liquidation of liabilities.

On March 22, 1988 amendments to the Currency Act came into force. The amendments required that the net income of the Account for a calendar year be determined in accordance with accounting principles that are consistent with those applied in preparing the Public Accounts of Canada. The amendments removed the provision whereby valuation gains and losses for the year were taken into net income due to the CRF in three equal portions over the current and two succeeding years. The modified accounting policy takes valuation gains and losses into net income due to the CRF in the current year. This accounting policy was applied to the Account for 1987; this eliminated the deferral of any valuation gains and losses except for the 1987 deferred losses of \$412.3 million carried forward from previous years.

Operating expenses

The Bank of Canada provides, without charge, the administrative, custodial and fiscal agency services to carry out the objectives of the Account.

Exchange Fund Account—Continued

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1988—Continued

3. Securities denominated in US dollars

	1988	1987
	(in millions of US dollars)	
US Government securities	6,771.8	3,207.3
International Bank for Recon- struction and Development bonds	226.0	109.0
Accrued interest	139.4	32.5
	7,137.2	3,348.8

Estimated market value at year end:

1988—US \$7,050 million (Cdn \$8,407 million)

1987—US \$3,337 million (Cdn \$4,336 million)

4. Special Drawing Rights

	1988	1987
	(in millions of SDRs)	
Held at end of the year	1,017.4	285.6
Accrued interest	11.1	9.9
	1,028.5	295.5
	(in millions of US dollars)	
Held at end of the year	1,369.2	405.2
Accrued interest	14.9	14.0
	1,384.1	419.2

5. International Monetary Fund notes

	1988	1987
	(in millions of SDRs)	
Supplementary Financing Facility notes	29.7	120.4
Accrued interest	2.1	5.7
	31.8	126.1
	(in millions of US dollars)	
Notes	39.9	170.8
Accrued interest	2.9	8.0
	42.8	178.8

These notes represent Canada's participation in the Supplementary Financing Facility established to assist members of the IMF with balance of payments needs. The notes were acquired in 1984 and have original terms to maturity of five years. They are redeemable on demand if Canada represents that it has a balance of payments need and are transferable to other members.

6. Gold

	1988	1987
	(in thousands of fine ounces)	
Held at beginning of the year	18,518.4	19,723.9
Sales	1,379.4	1,205.5
Held at end of the year	17,139.0	18,518.4
	(in millions of US dollars)	
Gold and gold loans	807.3	919.5
Accrued interest on gold loans	0.7	0.3
	808.0	919.8

Gold is valued in the Account at 35 SDRs per fine ounce, which approximates its historical cost in foreign currency terms. In keeping with the method of valuation used for other assets, gold holdings were translated into US dollars at the year-end US dollar value of the SDR, and to a Canadian dollar equivalent at the year-end exchange rate for the US dollar.

The book value, market value (as recorded at the London fixings), and approximate Canadian dollar historical cost of gold and gold loans at historical rates of exchange, excluding accrued interest on gold loans, at year end are:

	1988		1987	
	Price per fine ounce	Total value in millions	Price per fine ounce	Total value in millions
Book value—\$ US	47.10	807.3	49.65	919.5
—\$ Cdn	56.17	962.6	64.51	1,194.7
Market value—\$ US	410.15	7,029.6	486.50	9,009.0
—\$ Cdn	489.10	8,382.7	632.11	11,705.4
Approximate historical cost —\$ Cdn	36.91	632.6	36.91	683.5

The Minister of Finance has authorized loans and/or sales, at market related prices, of part of the gold held by the Account, to the Royal Canadian Mint and others. At year end, the Account's gold holdings included gold loans of 2,705 thousand (1987—1,213 thousand) fine ounces.

7. Official international reserve assets

The Account is the principal repository of Canada's official international reserves. The remainder of Canada's international reserves are held by the Bank of Canada and the CRF and are not reflected in the statements of the Account.

Exchange Fund Account—Concluded

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1988—Concluded

8. Provision for valuation losses on uncompleted contracts

At year end, the Account had uncompleted foreign exchange transactions and swaps. As the exchange rates on these uncompleted contracts differ from the year-end rates at which the Account's assets and liabilities are valued, additional valuation gains or losses will occur upon settlement. The provision for valuation gains or losses on uncompleted contracts arises from the revaluation of such contracts using the year-end rates of exchange and represents the portion of future net gains or losses attributed to the current year.

Under swap arrangements with the Bank of Canada, the Account sells US dollars to the Bank and agrees to repurchase these amounts at the same exchange rates at which they were sold. These contracts are undertaken to assist in the Bank's cash management operations. Outstanding swaps with the Bank of Canada at year end amounted to US \$1,989 million in 1988 (Cdn \$2,375 million) and US \$930 million in 1987 (Cdn \$1,212 million).

9. Due to the Consolidated Revenue Fund—Advances

	1988		1987	
	(in millions)			
	Amount	Cdn \$	Amount	Cdn \$
Foreign currencies and SDRs				
US dollars	5,394	6,432.9	6,158	8,001.6
Japanese yen	140,000	1,336.6	260,000	2,792.4
Swiss francs	952	757.3	952	974.0
SDRs	383	615.1	383	706.5
Deutsche marks	200	134.7	200	165.5
		9,276.6		12,640.0
Plus (less) Canadian dollar advances (repayments) to the Receiver General for Canada		5,204.3		-4,393.0
		14,480.9		8,247.0

The proceeds of Canada's borrowings in foreign currency and allocations of SDRs by the IMF have been advanced in foreign currency and SDRs from the CRF to the Account. Redemptions of borrowings and SDR allocations are made using the resources of the Account. Interest payable by Canada on borrowings in foreign currencies and charges on SDR allocations are charged directly to the CRF.

10. Net valuation gains (losses) during the year

	1988		1987	
	Assets	Liabilities	Total	Total
	(in millions of Canadian dollars)			
Japanese yen	92.1	162.5	254.6	-520.0
Swiss francs	-1.1	216.7	215.6	-177.3
US dollars	-876.5	627.7	-248.8	263.5
Gold	-152.2		-152.2	101.5
Deutsche marks	1.6	30.8	32.4	-17.1
Special Drawing Rights	-161.9	91.4	-70.5	8.3
	-1,098.0	1,129.1	31.1	-341.1
Gain on gold sales			647.0	641.4
Net valuation gains during the year			678.1	300.3

UNMATURED DEBT

Unmatured debt represents financial obligations resulting from certificates of indebtedness issued by the Government of Canada that have not yet become due.

The Government's holdings of its own securities have been deducted from unmatured debt, to report the amount of the Government's liabilities to outside parties.

Some tables in this section present the continuity of accounts, by showing the opening and closing balances, as well as issues and retirements. In addition, the term "account(s) without current transactions" has been included in some tables, to show the net result of transactions in accounts which were closed out in the previous year.

Note: This table includes unmatured debt issued by the Government of Canada. Borrowings of agent Crown corporations which are unconditional obligations of the Government, but not included in unmatured debt, can be found in Table 10.11.

Marketable Bonds

Marketable bonds are interest-bearing certificates of indebtedness issued by the Government of Canada, and have the following characteristics:

- bought and sold on the open market;
- payable in Canadian or foreign currency;
- subject to call or redemption before maturity;
- fixed dates of maturity;
- interest payable either in coupon or registered form; and,

—face value guaranteed at maturity.

Registered marketable bonds are transferable by endorsement and delivery by one holder to another. Bearer marketable bonds need not be endorsed.

Table 10.2 presents a summary of the balances and transactions for marketable bonds. Since most of the marketable bonds are not subject to call or redemption before maturity, exceptions only are noted in the table.

The year-end balances of marketable bonds payable in foreign currencies were translated into Canadian dollars using the closing rates of exchange at March 31, 1989.

⁽¹⁾ Issues and retirements of the marketable bonds payable in foreign currencies include the translation of these currencies to Canadian dollars using closing rates of exchange at March 31.

⁽²⁾ Subject to redemption before maturity.

⁽³⁾ While the terms of the issue remain unaltered from the bondholders' perspective, the Government's Japanese yen liability was converted through a "currency swap" into a floating rate U.S. dollar liability which is based on 6-month London Inter-bank Offered Rate (LIBOR).

Canada Savings Bonds

Canada savings bonds are interest-bearing certificates of indebtedness issued by the Government of Canada, and have the following characteristics:

- issued to Canadian residents;
- issued in Canadian currency only;
- registered in the name of the holder;
- fixed dates of maturity;

—not marketable;

—redeemable on demand by the holder, with accrued interest calculated to the end of the previous month;

—not subject to call before maturity; and,

—term to maturity of seven years or more.

Table 10.3 presents a summary of the balances and transactions for Canada savings bonds.

⁽¹⁾ S43 includes bonds related to Government's participation in the Canada savings bonds Payroll Savings Plan.

Special Non-Marketable Bonds

Special non-marketable bonds are interest-bearing certificates of indebtedness issued by the Government of Canada exclusively to the Canada Pension Plan Investment Fund, and have the following characteristics:

- not negotiable;
- not transferable;

—not assignable;

—issued in Canadian currency only;

—term to maturity of 20 years or less;

—interest payable semi-annually; and,

—redeemable at face value plus accrued interest.

Table 10.4 presents a summary of the balances and transactions for these special non-marketable bonds.

Treasury Bills

Treasury bills are short-term certificates of indebtedness issued by the Government of Canada to pay sums of money on given dates, and have the following characteristics:

- issued at a discount in lieu of interest payments;
- common terms: 3 months, 6 months and 12 months;
- issued in Canadian currency only;
- transferable; and,
- bought and sold on the open market.

Three-month and six-month bills are usually issued weekly, while other bills are issued every two weeks, usually for periods of one year or less.

The balance at March 31, 1989 consists of \$36,900 million in three-month bills; \$34,900 million in six-month bills; and, \$30,900 million in 364-day bills.

Table 10.5 presents a monthly summary of Treasury bill issues and redemptions.

Balance at March 31, 1989									102,700

Notes and Loans

These accounts record borrowings made under agreements with banks in Canada, United States, Switzerland, Japan and other international banks. They also record the borrowings of Canadair Financial Corporation Inc (now called Cartierville Financial Corporation Inc) which were directly assumed by the Government of Canada pursuant to Regional Industrial Expansion Vote 7c, Appropriation Act No. 4, 1984-85.

The balances at March 31, 1989 consist of:

- \$500,000,000 US (\$596,250,000 Cdn) five year loan from international banks;
- \$199,000,000 US (\$237,332,100 Cdn) in notes assumed from Canadair Financial Corporation Inc (now called Cartierville Financial Corporation Inc);

—300,000,000 SF (\$215,130,000 Cdn) five year loan and 200,000,000 SF (\$143,420,000 Cdn) six year loan, from Swiss banks; and,

—80,000,000,000 Yen (\$718,640,000 Cdn) eight year loan, from Japanese banks.

The foreign currency balances were translated into Canadian dollars using the year-end closing rates of exchange at March 31, 1989.

Table 10.6 presents a summary of the balances and transactions for the notes and loans.

⁽¹⁾ Issues and retirements include the translation of foreign currencies to Canadian dollars using closing rates of exchange at March 31.

⁽²⁾ Subject to redemption before maturity.

Canada Bills

Canada bills are short-term certificates of indebtedness issued by the Government of Canada in the United States money markets under the Government's foreign currency borrowing program. Canada bills provide Canada with an additional source of short-term U.S. funds and have the following characteristics:

- issued at a discount in lieu of interest payments;

—term to maturity of not more than 270 days;

—transferable; and,

—bought and sold on the open market.

The year-end balance of Canada bills payable in US dollars was translated into Canadian dollars using the closing rate of exchange at March 31, 1989.

Table 10.7 presents a monthly summary of Canada bill issues and redemptions.

SUPPLEMENTARY STATEMENTS

Interest Rates

Table 10.8 sets out unmatured debt as at March 31, for each of the years 1984-85 to 1988-89 inclusive, with the average rate of interest thereon. For purposes of comparison,

unmatured debt is classified as to marketable bonds, non-marketable bonds (include Canada savings bonds and the Canada Pension Plan Investment Fund), Treasury bills, notes and loans, and Canada bills.

TABLE 10.8

UNMATURED DEBT AS AT MARCH 31, FROM 1985 TO 1989, WITH THE AVERAGE RATE OF INTEREST THEREON

	Non-marketable bonds														Total unmatured debt (gross)

Note: this table includes unmatured debt issued by the Government of Canada. Borrowings of agent Crown corporations which are unconditional obligations of the Government, but not included in unmatured debt, can be found in Table 10.11.

Statement of all Borrowing Transactions on behalf of Her Majesty

Table 10.11 presents the information required by Section 49 of the Financial Administration Act. The borrowing transactions included in this table are: borrowings by the Government for general purposes, and borrowings by agent Crown corporations which are reported as such on the Government's Statement of Assets and Liabilities, except where the Government is the lender. Borrowings by non-agent Crown corporations are not included because such borrowings are not on behalf of Her Majesty.

OTHER ACCOUNTS REPORTED ON THE STATEMENT OF ASSETS AND LIABILITIES

This section contains information on accounts reported on the Statement of Assets and Liabilities, which are not included elsewhere in this volume. These accounts are:

- cash in transit;
- cash;
- fixed assets; and,
- accumulated deficit.

TABLE 11.1

CASH IN TRANSIT

	April 1/1988	Credits	Charges	March 31/1989	Net increase or decrease (–)

Cash in hands of collectors and in transit

This account records public moneys received by public officers prior to April 1, but not deposited to the credit of the Receiver General for Canada in the Bank of Canada, before that date.

Moneys received after March 31 but applicable to the current year

Public moneys received after March 31, but applicable to the year just ended, are recorded in this account.

This account includes refunds of old year expenditure received prior to the closing of the accounts, and receipts to be credited to asset, liability, and (in exceptional cases) revenue accounts, where the omission of the credits in the old year would tend to make the accounting incomplete or inconsistent.

Cash in Transit

Table 11.1 presents a summary of the balances and transactions for cash in transit.

Cash

The Government's cash account represents public moneys on deposit at March 31, to the credit of the Receiver General for Canada, with the Bank of Canada, chartered banks and other financial institutions.

The cash position of the Government is affected not only by budgetary transactions, but also by non-budgetary, foreign exchange and unmatured debt transactions, all of which must be taken into account when considering the full scope of the Government's financial operations.

Table 11.2 presents a summary of the balances and related transactions in current and special Receiver General deposits.

The year-end balances denominated in foreign currencies have been translated into Canadian dollar equivalents at year-end closing rates of exchange. Foreign currencies held include United Kingdom pounds sterling, United States dollars, Belgian, Swiss and French francs, and West German marks.

Receiver General special deposits

These are balances in the hands of fiscal agents of the Government, for the purchase or redemption of Government securities, and for the payment of interest.

Fixed Assets

Fixed assets are tangible, durable items of value, including major additions or alterations thereto, from which benefits are expected to be derived during their useful lives.

The fixed assets of the Government, which include land, engineering structures and works (such as canals, harbours and roads), buildings, and machinery and equipment, are charged to budgetary expenditure at the time of acquisition or construction, in accordance with the accounting policies of the Government of Canada which are described in Note 1 to the audited financial statements (Section 2 of this volume). Their existence, however, is acknowledged on the Statement of Assets and Liabilities by reporting them at the nominal value of \$1.

Accumulated Deficit

The accumulated deficit is the account recording the net sum of annual deficits and surpluses of the Government of Canada since Confederation, together with certain amounts charged or credited directly to this account. The accumulated deficit is also equal to the excess of recorded liabilities over total financial assets.

A Statement of Revenue and Expenditure and Accumulated Deficit is published in Section 2 of this volume.

A five year comparative statement of the accumulated deficit, in terms of total liabilities and total financial assets, is presented as follows:

TABLE 11.5
STATEMENT OF ACCUMULATED DEFICIT IN
TERMS OF TOTAL LIABILITIES AND TOTAL
FINANCIAL ASSETS
(in millions of dollars)

As at March 31	Total liabilities	Less: total financial assets		Increase or decrease (-)

1985	237,112	38,020	199,092	38,324

OTHER INFORMATION

Contractual Commitments

A contractual commitment represents a written obligation to outside organizations or individuals as a result of a contract. The nature of the Government's activities requires it to enter into contracts that are significant in relation to its current financial position or that will materially affect the level of future expenditure. Major capital assets of the Government are either purchased outright or leased. Where a lease transfers substantially all of the benefits and risks incidental to ownership of the property to the lessee, it is considered a capital lease. All other leases are classified as operating leases. Contractual commitments can be classified into four categories: fixed assets, purchases, operating leases and capital leases.

All contractual commitments of \$100 million or more per project are reported in the case of fixed assets, purchases and operating leases. In the case of capital leases, all capital lease arrangements with total minimum lease payments remaining at year end in excess of \$1 million per contract are reported.

Fixed assets, purchases and operating leases

Table 11.6 provides details of contractual commitments that involve fixed assets and purchases. Operating leases are not reported as there are no leases that are in excess of the \$100 million limit. It discloses individual contractual commitments by category and by envelope. Contractual commitments are summarized in Note 16 to the audited financial statements in Section 2 of this volume.

Fixed assets are tangible, durable items of value, including major additions or alterations thereto and including military equipment, from which benefits are expected to be derived during their useful life and including land.

Purchase commitments are commitments supported by a contract to supply goods or services. An operating lease is a lease in which the lessor does not transfer substantially all the benefits and risks incident to ownership of property.

Capital Leases

Table 11.7 provides details of commitments under capital lease arrangements which are summarized in Note 16 to the audited financial statements in Section 2 of this volume. A capital lease is a lease that, from the point of view of the Government, transfers substantially all the benefits and risks incident to

ownership of the asset to the Government. Table 11.8 presents commitments under capital lease arrangements in order of maturity. Table 11.9 presents details of purchase options exercised during the year.

Insurance Programs of Agent Crown Corporations

At present, three Crown corporations operate insurance programs as agents of Her Majesty. An insurance program is a program where the insured, an outside party, pays an insurance fee which is credited to an insurance fund or provision operated by the corporation. The amount of the fee is based on the estimated amount of insurance fund or provision needed to meet future claims. Insurance programs operated by private corporations such as employee group insurance, dental plans, etc., are not included in this definition.

The insurance programs are intended to operate on a self-sustaining basis but in recent years, two of the Crown corporations have required loans or other funding from the Government to meet obligations.

Information presented in Table 11.10 has not been audited since the information presented therein is derived from interim financial statements. The most recent annual financial statements of these corporations may be found in Volume III of the Public Accounts.

In Table 11.10, a minus "-" sign preceding the amount reported indicates a fund deficit, an expense recovery or adjustment, or a decrease or loss during the year.

^[1] The Canada Deposit Insurance Corporation (CDIC) provides insurance on deposits placed with member banks and trust and loan companies for up to \$60,000 per depositor per institution. In recent years, premiums paid by member institutions have not been sufficient to meet obligations incurred by CDIC under the insurance plan. This deficiency has been funded in part by loans from the Government of \$1,695 million at March 31, 1989 (\$1,334 million at March 31, 1988). The Government is continuing to explore alternatives to allow CDIC, over the long run, to eliminate its deficiency without budgetary support from the Government. Since there is no reason to believe that this will not be the case, no provision has been made in the Government's accounts for the losses experienced by CDIC.

^[2] Canada Mortgage and Housing Corporation (CMHC) administers four funds of which the Mortgage Insurance Fund (MIF) and the Mortgage-Backed Securities Guarantee Fund are active. The MIF provides insurance, for a fee, to private sector lending institutions to cover mortgage lending on Canadian housing. Besides establishing a framework of confidence for mortgage lending by private institutions, the Fund facilitates an adequate supply of mortgage funds by reducing the risk to lenders and by encouraging the secondary market trading of mortgages, to make housing more accessible for Canadians. Although the balance of the Fund is currently inadequate to meet future claims in respect to business in force, the latest actuarial study of the MIF indicated that business undertaken since February 1985 is being written on a break-even basis. The actuarial deficiency (\$141.4 million as of September 30, 1988) will be reflected in the accounts of Canada only to the extent that additional funding of the deficiency from parliamentary appropriations may be required. The Mortgage-Backed Securities (MBS) program was implemented in 1987. For a fee paid by approved financial institutions, CMHC and ultimately the Government, guarantee timely payment of principal and interest to MBS investors who participate in a pool of MIF insured first residential mortgages which have been repackaged by the financial institution into investments of \$5,000 denominations. Since 1984, the Corporation has also operated the Mortgage Rate Protection Program (MRPP). As premiums collected by CMHC for the Program are remitted directly to the Consolidated Revenue Fund (CRF) and obligations of the MRPP are ultimately payable from the CRF, the Mortgage Rate Protection Program does not meet the definition of a Crown corporation insurance plan as defined above. Therefore, operating particulars of this Program are not included in this summary but some information will be found in the notes to the Government of Canada Statement of Contingent Liabilities.

^[3] The Export Development Corporation (EDC) provides export and foreign investment insurance to Canadian business to facilitate and develop export trade. The insurance fund has been adequate to provide for the full cost of claims experienced to date and to establish an allowance for future claims based on previous claims experience.

^[4] Less than \$500,000.

^[5] Refers to the difference between claims and amounts received from sales of related assets and other recoveries.

Contingent Liabilities

A contingent liability is a potential liability which may become an actual liability when one or more future events occurs or fails to occur.

The Government of Canada as an accounting entity is defined as all the departments named in Schedule I of the Financial Administration Act; any division or branch of the Public Service of Canada, including a commission appointed under the Inquiries Act, designated by the Governor in Council as a department for purposes of the Financial Administration Act; the staffs of the Senate, the House of Commons, and the Library of Parliament; and, any corporation named in Schedule II of the Financial Administration Act. Corporations listed in Parts I and II of Schedule III of the Financial Administration Act, and those Crown corporations that are not subject to the Financial Administration Act, are excluded from this definition. Information regarding contingent liabilities of Crown corporations can be found in Table 6.13—"Contingent Liabilities of Crown Corporations", while details of their borrowings can be found in Tables 6.10 and 6.11—"Borrowings by Agent Crown Corporations" and "Borrowings by Crown Corporations" respectively. Some Crown corporations also operate insurance programs. Information re-

garding these insurance programs can be found in Table 11.10 of this section.

The contingent liabilities of the Government comprise explicit guarantees by the Government, which include borrowings by other than Crown corporations, both from agent Crown corporations and from other than agents. Such explicit guarantees consist of guarantee programs of the Government, explicit guarantees by the Government for loans, financial arrangements and other potential liabilities, insurance programs of the Government and other explicit guarantees. They also comprise potential losses arising from pending and threatened litigation relating to claims and assessments in respect of breach of contract, damages to persons and property, and like items. Pending and threatened litigation is reported in total in the following table. This table is also summarized in Note 18 to the audited financial statements of the Government in Section 2 of this volume.

The authorized limits indicated in the table below, represent the aggregate total of various types of authorities of Government bodies as stipulated in legislation, legal agreements or other documents that may be in force at any one time.

PENDING AND THREATENED LITIGATION		2,750,865,470 ^[16] ^[16]	
Total ^[17]		9,240,938,096	

^[1] Represents the average percentage over the most recent 5 years of net claims to the average amount of outstanding guarantees for the same period computed as at March 31, 1989. In some situations where historical data is not readily available, departmental estimates have been used.

^[2] Includes committed guarantees for the following loans to be made: to Indians for on-reserve housing, \$79,437,687 and for Indian economic development, \$1,041,031. As at the reporting date, no loans had been issued for these amounts.

^[3] The Act places limits on the maximum amount of guarantee for loans made by eligible lenders over different loan periods. The maximum amount of guarantee by lender is expressed in legislation as a percentage of aggregate loans made to qualified borrowers and varies according to the dollar value range of aggregate loans made by the lender. The authorized limits for given loan periods are included in the figure reported until all qualified loans made by all eligible lenders in the given periods are no longer outstanding, and are not adjusted for loan repayments nor payments made by the Government for guaranteed amounts in which default has occurred.

^[4] The Atlantic Enterprise Program offers loan insurance on new term loans for the establishment, expansion or modernization of commercial operations in eligible sectors in the Atlantic provinces where the Program is administered by the Atlantic Canada Opportunities Agency (\$76,012,956 as at March 31, 1989) and in the Gaspé and Magdalen Islands of Québec when administration of the Program is the responsibility of the Department of Industry, Science and Technology (\$7,494,357 as at March 31, 1989). Industry, Science and Technology also has responsibility for all capital projects in excess of \$20 million.

^[5] Includes \$62,034 attributable to the Canadian Industrial Renewal Board.

^[6] Amount denominated wholly or partially in a foreign currency and translated at the closing rate of exchange as at date of statement.

^[7] Authorized limit for loan guarantees for on-reserve housing totals \$575,000,000 (shown above) for loans made by the Canada Mortgage and Housing Corporation, the Farm Credit Corporation and other approved lenders.

^[8] The maximum aggregate amount that may be paid or that may have been paid from the Consolidated Revenue Fund (CRF) relative to Indian economic development in past, current or subsequent years, with respect to all guarantees authorized and granted, is set at \$60 million. As at March 31, 1989, a total of \$25,886,221 has been expended from the CRF leaving a balance of \$34,113,779 available for disbursement.

^[9] Maislin Industries Ltd was placed in receivership on July 11, 1983 and was declared bankrupt on October 19, 1983. To date, the Government has made interim payments totalling \$18,500,000 US to creditors under a guarantee in the amount of \$27,000,000 US. It is anticipated that the Government will be called upon to make a final payment to settle remaining obligations to creditors when certain issues are settled in US Bankruptcy Court, but the amount cannot be determined at present with any certainty.

^[10] Since 1984, the Canada Mortgage and Housing Corporation (CMHC) has operated the Mortgage Rate Protection Program on behalf of the Government. In return for payment of a premium, CMHC will reimburse homeowners 75% of any increase in monthly mortgage payments, above a deductible, due to higher interest rates at the time of mortgage renewal. As recent mortgage interest rates have been relatively stable, the Program is not widely utilized and loans covered by the Program at March 31, 1989 amounted to only \$911,000 (\$911,000 at March 31, 1988). Premiums collected by CMHC are remitted directly to the Consolidated Revenue Fund (CRF) and obligations are ultimately payable from the CRF. Because of the nature of the Program, it is not possible to estimate the amounts, if any, that might be payable at some future date.

^[11] There have been no claims under the Nuclear Liability Act since its inception in 1970. The Act covers 14 Canadian nuclear installations as at March 31, 1989.

^[12] The Fishing Vessel Insurance Plan is administered by the Government to insure fishermen against abnormal capital losses. A specified purpose account is credited with all amounts received by way of premiums, recoveries and with advances in accordance with regulations by the Government, such advances not to exceed \$150,000 at any time. The account is debited with refunds of premiums and payments in settlement of third party vessel collision damage claims against fishermen, where the collision involves a vessel insured under the Plan. As at March 31, 1989, the insured value of vessels under the Plan amounted to \$462,389,000; the balance of the account was \$22,642,963 and outstanding claims against the Plan amounted to \$1,250,000.

^[13] The Export Development Act specifies that EDC may enter into contracts of insurance, re-insurance, related guarantees and other agreements up to a maximum of \$7 billion, the authorized limit.

^[14] A letter of comfort has been issued with respect to credit grain sales by the Canadian Wheat Board. The letter states that the Government will assume responsibility for the liabilities arising from defaults in payment by countries purchasing Canadian grain on credit. Receivables under this guarantee amounted to approximately \$3.7 billion at March 31, 1989.

^[15] Less than 0.1%.

^[16] Includes \$1.5 billion related to native statutory and treaty obligations representing plaintiffs' claims in 60 litigation cases. There are another 120 similar cases for which amounts are not stated in the claims, and for which it is not possible to determine the amounts that may be ultimately payable.

^[17] Contingent gains. A contingent gain is a potential gain or possible recovery that may become an actuality when one or more future events occur or fail to occur. Four departments reported contingent gains as at March 31, 1989 totalling approximately \$11 million.

SECTION 12

1988-89

PUBLIC ACCOUNTS
